

U.S. resettlement consideration. PRM and DHS/USCIS are expanding an in-country program to provide a means for certain persons who are lawfully present in the United States to claim a relationship with child(ren) in Honduras, El Salvador, and Guatemala and to assist the U.S. Department of State in determining whether those child(ren) and certain derivative beneficiaries are qualified to apply for access to the USRAP for family reunification purposes. This form also assists DHS/USCIS to verify parent-child relationships during refugee case adjudication. The main purpose of the DS-7699 is for the U.S.-based parent to provide biographical information about his/her child(ren) in the qualifying countries who may subsequently seek access to the USRAP for verification by the U.S. government.

Methodology

This information collection currently involves use of electronic techniques. Parents (respondents) in the United States will work closely with a resettlement agency during the completion of the AOR to ensure that the information is accurate. Parents may visit any resettlement agency located in a U.S. community to complete an AOR. Sometimes respondents do not have strong English-language skills and benefit from having a face-to-face meeting with resettlement agency staff. The DS-7699 form will be completed electronically. Completed AORs will be printed out for ink signature by the respondents. The electronic copy will then be submitted electronically to the Refugee Processing Center (RPC) and downloaded into the Worldwide Refugee Admissions Processing System (WRAPS). The signed paper copy will remain with PRM's Reception and Placement Agency partners.

Dated: April 19, 2017.

Acting Assistant Secretary, Bureau of Population, Refugees, and Migration, Department of State.
