BILLING CODE 4410–15–P

DEPARTMENT OF LABOR

Office of the Assistant Secretary for
Administration and Management

Agency Information Collection Activities; Comment Request;
Application for Use of Public Space by
Non-DOL Agencies in the Frances
Perkins Building

ACTION: Notice.

SUMMARY: The Department of Labor (DOL) is soliciting comments concerning an Information Collection Request (ICR) proposing to extend Paperwork Reduction Act of 1995 (PRA), authority to conduct the information collection titled, "Application for Use of Public Space by Non-DOL Agencies in the Frances Perkins Building." This comment request is part of continuing Departmental efforts to reduce paperwork and respondent burden.

DATES: Submit written comments on or before June 27, 2017.

ADDRESSES: Contact Michel Smyth by telephone at 202–693–4129 (this is not a toll-free number) to request a free copy of this ICR that includes applicable supporting documentation providing a description of the likely respondents, proposed frequency of response, and estimated total burden. Submit written comments about, or requests for a copy of, this ICR by mail or courier to the U.S. Department of Labor—OASAM, Office of the Chief Information Officer, Attn: Information Policy and Assessment Program, Room N1301, 200 Constitution Avenue NW., Washington, DC 20210; or by email: DOL_PRA_PUBLIC@dol.gov.

FOR FURTHER INFORMATION CONTACT:
Michel Smyth by telephone at 202–693–4129 (this is not a toll-free number) or by email at DOL_PRA_PUBLIC@dol.gov.

SUPPLEMENTARY INFORMATION: The DOL headquarters building, the Frances Perkins Building (FPB), has conference and meeting capabilities located in its public space areas that non-DOL entities may request to use. The Administrator of the General Services Administration set forth terms and conditions delegating FPB operation to the DOL, Office of the Assistant Secretary for Administration and Management (OASAM). The delegation sets forth conditions authorizing the DOL to issue occasional use permits for FPB public space. The delegation is also subject to applicable standard operating procedures for Government-owned real properties. More specifically, the DOL may only issue occasional use permits to organizations engaging in cultural, educational, or recreational activities. These permits are generally not available for commercial purposes. Any person or organization wishing to use a FPB public area must file a permit application with the DOL Conference Rooms and Services Center. Applicants must submit the following information: (a) Applicant’s full name, mailing address, and telephone number; (b) organization sponsoring the proposed activity; (c) individual(s) responsible for supervising the activity; (d) documentation showing the applicant is authorized to represent the sponsoring organization; and (e) a description of the proposed activity, including dates and times during which it is to be conducted and the number of persons to be involved. OASAM policies and procedures concerning FPB public space are set forth in DOL Manual Series section 2–510 and an application—Form DL–1–6062B, Application for Use of Public Space by Non-DOL Agencies in the Frances Perkins Building.

This information collection is subject to the PRA. A Federal agency generally cannot conduct or sponsor a collection of information, and the public is generally not required to respond to an information collection, unless it is approved by the Office of Management and Budget (OMB) under the PRA and displays a currently valid OMB Control Number. In addition, notwithstanding any other provisions of law, no person shall generally be subject to penalty for failing to comply with a collection of information if the collection of information does not display a valid Control Number. See 5 CFR 1320.5(a) and 1320.6. The DOL obtains OMB approval for this information collection under Control Number 1225–0087. The DOL intends to seek continued approval for this collection of information for an additional three years.

The DOL, as part of continuing efforts to reduce paperwork and respondent burden, conducts a pre-clearance consultation program to provide the general public and Federal agencies an opportunity to comment on proposed and/or continuing collections of information before submitting them to the OMB for final approval. This program helps to ensure requested data can be provided in the desired format, reporting burden (time and financial resources) is minimized, collection instruments are clearly understood, and the impact of collection requirements can be properly assessed. Interested parties are encouraged to provide comments to the contact shown in the ADDRESSES section. Comments must be written to receive consideration, and they will be summarized and included in the request for OMB approval of the ICR. Submitted comments will also be a matter of public record for this ICR and posted on the Internet, without redaction. The DOL encourages commenters not to include personally identifiable information, confidential business data, or other sensitive information in any comments.

The DOL is particularly interested in comments that:
• Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
• Evaluate the accuracy of the agency’s estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
• Enhance the quality, utility, and clarity of the information to be collected; and
• Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

Agency: DOL–OASAM.

Type of Review: Extension without change of a currently approved collection.

Title of Collection: Application for Use of Public Space by Non-DOL Agencies in the Frances Perkins Building.

Form: Application for Use of Public Space by Non-DOL Agencies in the Frances Perkins Building (Form DL–1–6062B).
NUCLEAR REGULATORY COMMISSION

[Docket Nos. 52–027 and 52–028; NRC–2008–0441]

South Carolina Electric & Gas Company, South Carolina Public Service Authority; Virgil C. Summer Nuclear Station, Units 2 and 3; Design Reliability Assurance Program (D–RAP) Changes

AGENCY: Nuclear Regulatory Commission.

ACTION: Exemption and combined license amendment; issuance.

SUMMARY: The U.S. Nuclear Regulatory Commission (NRC) is granting an exemption to allow a departure from the certification information of Tier 1 of the generic design control document (DCD) and is issuing License Amendment No. 70 to Combined Licenses (COLs), NPF–93 and NPF–94. The COLs were issued to South Carolina Electric & Gas Company and the South Carolina Public Service Authority, (together referred to as the licensee); for construction and operation of the Virgil C. Summer Nuclear Station (VCSNS) Units 2 and 3, located in Fairfield County, South Carolina.

The granting of the exemption allows the changes to Tier 1 information asked for in the amendment. Because the acceptability of the exemption was determined in part by the acceptability of the amendment, the exemption and amendment are being issued concurrently.

DATES: The exemption and amendment were issued on April 11, 2017.

ADDRESSES: Please refer to Docket ID NRC–2008–0441 when contacting the NRC about the availability of information regarding this document.

You may obtain publicly-available information related to this document using any of the following methods:

- FederalRulemaking Web site: Go to http://www.regulations.gov and search for Docket ID NRC–2008–0441. Address questions about NRC dockets to Carol Gallagher; telephone: 301–415–3463; email: Carol.Gallagher@nrc.gov. For technical questions, contact the individual listed in the FOR FURTHER INFORMATION CONTACT section of this document.

- NRC’s Agencywide Documents Access and Management System (ADAMS): You may obtain publicly-available documents online in the ADAMS Public Documents collection at http://www.nrc.gov/reading-rm/adams.html. To begin the search, select “ADAMS Public Documents” and then select “Begin Web-based ADAMS Search.” For problems with ADAMS, please contact the NRC’s Public Document Room (PDR) reference staff at 1–800–397–4209, 301–415–4737, or by email to pdr.resource@nrc.gov. The ADAMS accession number for each document referenced (if it is available in ADAMS) is provided the first time that it is mentioned in this document. The request for the amendment and exemption was submitted by letter dated September 22, 2016 and is available in ADAMS under Accession No. ML16270A582.

- NRC’s PDR: You may examine and purchase copies of public documents at the NRC’s PDR, Room O1–F21, One White Flint North, 11555 Rockville Pike, Rockville, Maryland 20852.

FOR FURTHER INFORMATION CONTACT:

SUPPLEMENTARY INFORMATION:

I. Introduction

The NRC is granting an exemption from Paragraph B of Section III, “Scope and Contents,” of Appendix D, “Design Certification Rule for the AP1000,” to part 52 of title 10 of the Code of Federal Regulations (10 CFR), and issuing License Amendment No. 70 to COLs, NPF–93 and NPF–94, to the licensee.

The exemption is required by Paragraph A.4 of Section VIII, “Processes for Changes and Departures,” Appendix D, to 10 CFR part 52 to allow the licensee to depart from Tier 1 information. With the requested amendment, the licensee sought proposed changes that would revise the Updated Final Safety Analysis Report (UFSAR) in the form of departures from the incorporated plant-specific DCD Tier 2 information. The proposed amendment also involves related changes to plant-specific Tier 1 information, with corresponding changes to the associated COL Appendix C information.

Specifically, the LAR revises the Design Reliability Assurance Program (D–RAP) to identify the covers for the in-containment refueling water storage tank (IRWST) vents and overflow weirs as the risk-significant components included in the D–RAP and to identify that the field control relays of each rod drive motor-generator (MG) sets as a part of the rod drive power supply control cabinets in which the relays are located.

Part of the justification for granting the exemption was provided by the review of the amendment. Because the exemption is necessary in order to issue the requested license amendment, the NRC granted the exemption and issued the amendment concurrently, rather than in sequence. This included issuing a combined safety evaluation containing the NRC staff’s review of both the exemption request and the license amendment. The exemption met all applicable regulatory criteria set forth in §§50.12, 52.7, and Section VIII.A.4 of Appendix D to 10 CFR part 52. The license amendment was found to be acceptable as well. The combined safety evaluation is available in ADAMS under Accession No. ML17048A143.

Similar exemption documents were issued to the licensee for VCSNS Units 2 and 3 (COLs NPF–93 and NPF–94). The exemption documents for VCSNS Units 2 and 3 can be found in ADAMS under Accession Nos. ML17048A144 and ML17048A147, respectively. The exemption is reproduced (with the exception of abbreviated titles and additional citations) in Section II of this document. The similar amendment documents for COLs NPF–93 and NPF–94 are available in ADAMS under Accession Nos. ML17048A145 and ML17048A148, respectively. A summary of the amendment documents is provided in Section III of this document.
