FDMS is an interagency system that allows the public to search, view, download, and comment on Federal agency rulemaking documents through a single online system. The public accesses the FDMS Web portal at http://www.regulations.gov.

DATES: Submit your comments on this modified system of records notice on or before June 2, 2017.

The Department filed a report describing the modified system of records covered by this notice with the Chair of the Senate Committee on Homeland Security and Governmental Affairs, the Chair of the House Committee on Oversight and Government Reform, and the Deputy Administrator of the Office of Information and Regulatory Affairs, Office of Management and Budget (OMB), on March 29, 2017. This modified system of records will become effective upon publication in the Federal Register on May 3, 2017, unless the modified system of records notice needs to be changed as a result of public comment. SUPPLEMENTARY INFORMATION:

Introduction: The Privacy Act of 1974, as amended (Privacy Act) (5 U.S.C. 552a), requires the Department to publish in the Federal Register this notice of a modified system of records maintained by the Department. The Department’s regulations implementing the Privacy Act are contained in the Code of Federal Regulations (CFR) in 34 CFR part 5b. The Privacy Act applies to information about an individual that contains individually identifiable information that is retrieved by a unique identifier associated with each individual, such as a name or Social Security number. The information about each individual is called a “record,” and the system, whether manual or computer-based, is called a “system of records.” The Privacy Act requires each agency to publish notices of systems of records in the Federal Register and to prepare reports for OMB whenever the agency publishes a new system of records or makes a significant change to an established system of records. Each agency is also required to send copies to the Chair of the Senate Committee on Governmental Affairs and the Chair of the House Committee on Government Reform. These reports are intended to permit an evaluation of the probable or potential effect of the proposal on the privacy or other rights of individuals.

The Department of Education Federal Docket Management System (EDFDM) (18–09–05) system of records was last published in the Federal Register on November 27, 2007 (72 FR 66155). The system is being modified to provide a more precise description of the purpose of this system of records, which is to facilitate public participation in the rulemaking process through electronic means. The system is also being modified to update how the information is stored utilizing updated security hardware and software, including multiple firewalls, active intruder detection, and role-based access controls. The retention and disposition schedule is also being updated to reflect the specific Department records schedule related to this system.

The Department also proposes to add to this system of records notice a new routine use (10) entitled “Disclosure in Assisting another Agency in Responding to a Breach of Data.” This will allow the Department to disclose records in this system to another Federal agency or entity in order to assist the recipient agency in responding to a suspected or confirmed breach of data.
