RIN 2900-AP50

Revise and Streamline VA Acquisition Regulation To Adhere to Federal Acquisition Regulation Principles (VAAR Case 2014-V001)**AGENCY:** Department of Veterans Affairs.**ACTION:** Proposed rule.

SUMMARY: The Department of Veterans Affairs (VA) is proposing to amend and update its VA Acquisition Regulation (VAAR). Under this initiative all parts of the regulation are being reviewed in phased increments to revise or remove any policy that has been superseded by changes in the Federal Acquisition Regulation (FAR), to remove any procedural guidance that is internal to the VA, and to incorporate any new regulations or policies

Acquisition regulations become outdated over time and require updating to incorporate additional policies, solicitation provisions, or contract clauses that implement and supplement the FAR to satisfy VA mission needs, and to incorporate changes in dollar and approval thresholds, definitions, and VA position titles and offices. This Proposed Rule will correct inconsistencies, remove redundant and duplicate material already covered by the FAR, delete outdated material or information, and appropriately renumber VAAR text, clauses and provisions where required to comport with FAR format, numbering and arrangement.

This Proposed Rule will streamline the VAAR to implement and supplement the FAR only when required, and remove internal agency guidance as noted above in keeping with the FAR principles concerning agency acquisition regulations.

DATES: Comments must be received on or before July 17, 2017 to be considered in the formulation of the final rule.

ADDRESSES: Written comments may be submitted through www.Regulations.gov; by mail or hand-delivery to Director, Regulation Policy and Management (00REG), Department of Veterans Affairs, 810 Vermont Avenue NW., Room 1068, Washington, DC 20420; or by fax to (202) 273-9026. SUPPLEMENTARY INFORMATION:**Background**

This action is being taken under the authority of the Office of Federal Procurement Policy Act which provides the authority for an agency head to authorize the issuance of agency acquisition regulations that implement or supplement the FAR. This authority ensures that Government procurements are handled fairly and consistently, that the Government receives overall best value, and that the Government and contractors both operate under a known set of rules.

The Proposed Rule updates the VAAR to current FAR titles, requirements, and definitions; it updates VA titles and offices; it corrects inconsistencies, removes redundancies and duplicate material already covered by the FAR; it deletes outdated material or information and appropriately rennumbers VAAR text and clauses and provisions where required to comport with FAR format, numbering and arrangement. All amendments, revisions, and removals have been peer reviewed and concurred with by an Integrated Product Team of agency stakeholders.

The VAAR uses the regulatory structure and arrangement of the FAR and headings and subject areas are broken up consistent with the FAR content. The VAAR is divided into subchapters, parts (each of which covers a separate aspect of acquisition), subparts, sections, and subsections.

The Office of Federal Procurement Policy Act provides the authority for the Federal Acquisition Regulation and for the issuance of Agency Acquisition regulations consistent with the FAR.

When Federal agencies acquire supplies and services using

appropriated funds, the purchase is governed by the FAR, set forth at Title 48 Code of Federal Regulations (CFR), chapter 1, parts 1 through 53, and the agency regulations that implement and supplement the FAR. The VAAR is set forth at Title 48 CFR, chapter 8, parts 801 to 873. These authorities are designed to ensure that Government procurements are handled fairly and consistently, that the Government receives overall best value, and that the Government and contractors both operate under a known set of rules.

VA is proposing to revise the VAAR to add new policy or regulatory requirements and to remove any guidance that is applicable only to VA's internal operating processes or procedures. Codified acquisition regulations may be amended and revised only through formal rulemaking under the Office of Federal Procurement Policy Act. This proposed rule will not have a significant economic impact on a substantial number of small entities as they are defined in the Regulatory Flexibility Act. This proposed rule will generally be small business neutral. VA has examined the economic, interagency, budgetary, legal, and policy implications of this regulatory action, and it has been determined this rule is not a significant regulatory action.

Discussion and Analysis

VA proposes to make the following changes to the VAAR in this phase of its revision and streamlining initiative. For procedural guidance cited below that is proposed to be deleted from the VAAR, each section cited for removal is being considered for inclusion in VA's internal agency operating procedures in accordance with FAR 1.301(a)(2). Similarly, delegations of authorities that are removed from the VAAR will be included in the VA Acquisition Manual (VAAM) as internal agency guidance.

We propose to revise the main parts reflected in the title of the case: VAAR parts 803, 814, and 822, as well as revisions to affected parts as a result of those changes: VAAR parts 801, 802, 812, and 852.

We propose to revise the authority citations under Parts 801, 802, 803, 812, 814, 822, and 852 to include a reference to 41 U.S.C. 1121(c)(3) which is from Title 41, Public Contracts, Positive Law codification that speaks to the authority of an executive agency under another law to prescribe policies, regulations, procedures, and forms for procurement that are subject to the authority conferred in the cited section, as well as other sections of Title 41 as shown therein. Any other proposed changes to

authorities are shown under the individual parts below.

VAAR Part 801—Department of Veterans Affairs Acquisition Regulation System

This proposed rule removes an information collection burden previously included in the VAAR based on an outdated practice in providing bid envelopes. In section 801.106, OMB approval under the Paperwork Reduction Act, we propose to remove and discontinue the Office of Management and Budget (OMB) control number 2900–0593, clause 852.214–70, as well as its prescription at 814.201–6(a), since sealed bids are solicited through the Governmentwide Point of Entry (GPE) and are largely submitted electronically rather than through the U.S. mail, thereby making the optional practice of providing bidders with envelopes and return address label unnecessary.

VAAR Part 802—Definitions of Words and Terms

In section 802.101, Definitions, we propose to add two new definitions to define two key terms used within the revised VAAR part 803, Improper Business Practices and Personal Conflicts of Interests, dealing with debarment and suspensions and that will be applicable when referenced in the future in other VAAR parts: Debarment and Suspension Committee and Suspension and Debarment Official. These are necessary to ensure a clear understanding of the meaning of these terms and who is designated as the Suspension and Debarment Official (SDO).

VAAR Part 803—Improper Business Practices and Personal Conflicts of Interest

We propose to clarify the language regarding the prohibition of contractors from making reference in their commercial advertising regarding VA contracts to avoid implying that the Government approves or endorses products or services. We propose to add a requirement that contracting officers require contractors and subcontractors at any tier to obtain signed non-disclosure statements from covered personnel.

In subpart 803.1, Safeguards, we propose to remove and reserve the entire subpart for the reasons stated in the sections below which fall under the subpart. We propose to remove section 803.101, Standards of conduct, since it contains procedural guidance and a delegation of authority that is internal to the VA and will be in the VAAM.

We propose to remove section 803.101–3, Department regulations, since it contains information on standards of conduct and financial disclosure for VA employees and is internal procedural guidance that is internal to the VA and will be in the VAAM.

We propose to remove section 803.104, Procurement integrity, and section 803.104–7, Violations or possible violations, since they contain procedural guidance and a delegation of authority that is internal to the VA and will be in the VAAM. We propose to remove subsection 803.104–7, Violations or possible violations since it also contains procedural guidance and a delegation of authority that is internal to the VA and will be in the VAAM.

In subpart 803.2, Contractor Gratuities to Government Personnel, we are proposing to update the policy governing improper business practices and personal conflicts of interests to make the agency's policies clear, to provide notice of due process rights and to establish who in the agency determines whether or not a violation of the Gratuities clause has occurred and what procedures are followed when the Suspension and Debarment Official (SDO) makes that decision.

In section 803.204, we propose to remove portions of section 803.204, Treatment of violations, which contain procedural guidance and a delegation of authority that is internal to the VA and will be moved to the VAAM. To ensure contractors are apprised of their rights, we propose to revise section 803.204 to add the responsibility of the Suspension and Debarment Official (SDO) for determining whether or not a violation of the Gratuities clauses has occurred and what action will be taken, as well as a paragraph that states that when the SDO determines that a violation has occurred and that debarment is being considered, the SDO shall follow the requirements at VAAR 809.406–3.

In subpart 803.3, Reports of Suspected Antitrust Violations, we propose to remove section 803.303, Reporting suspected antitrust violations, since it contains guidance to VA employees that is internal to the VA and will be moved to the VAAM.

In subpart 803.4, Contingent Fees, we propose to remove and reserve the entire subpart and to remove the underlying section 803.405, Misrepresentations or violations of the Covenant Against Contingent Fees, since it contains guidance to VA employees that is internal to the VA and will be moved to the VAAM.

In subpart 803.5, Other Improper Business Practices, we propose to

remove section 803.502, Subcontractor kickbacks, since it provides direction to VA employees that is internal to the VA and will be moved to the VAAM.

In section 803.570, Commercial advertising, we propose to revise the language of subsection 803.570–1, Policy, to clarify the intent to prohibit advertising that implies a Government endorsement of the contractor's products or services.

In subpart 803.6, Contracts with Government Employees or Organizations Owned or Controlled by Them, we propose to remove and reserve the entire subpart and to remove the underlying section 803.602, Exceptions, since it delegates authority to authorize an exception to the policy in FAR 3.601. This delegation will be in the VA Acquisition Manual and is internal VAAM procedural guidance.

In subpart 803.7, Voiding and Rescinding Contracts, we propose to remove and reserve the entire subpart and to remove the underlying sections. We propose to remove section 803.703, Authority, since it is a delegation of authority. This delegation will be in the VAAM and is internal VA procedural guidance. We propose to remove section 803.705, Procedures, as it duplicates FAR 3.705. A short paragraph that directs VA Heads of Contracting Activities to follow the procedures of FAR 3.705 was added to the VAAM.

In subpart 803.8, Limitation on the Payment of Funds to Influence Federal Transactions, we propose to remove and reserve the entire subpart and to remove the underlying sections. We propose to remove section 803.804, Policy, and section 803.806, Processing suspected violations. This is internal VA procedural guidance and will be moved to the VAAM.

We propose to add subpart 803.11, Preventing Personal Conflicts of Interest for Contractor Employees Performing Acquisition Functions. This implements part of FAR clause 52.203–16, Preventing Personal Conflicts of Interest, by requiring the signing of a Non-Disclosure Agreement by certain contractor covered employees performing acquisition functions closely associated with inherently governmental functions in order to prohibit disclosure of non-public information accessed through performance on a Government contract. This also requires each contractor and subcontractor at any tier whose employees perform acquisition functions closely associated with inherently governmental functions to obtain the signed non-disclosure forms from each covered employee.

We propose to remove and reserve subpart 803.70, Contractor Responsibility to Avoid Improper Business Practices, and to remove its underlying section 803.7000, Display of the VA Hotline poster and its prescription at section 803.7001, Contract clause, because it is unnecessary and duplicates FAR coverage. FAR 52.203-14, Display of Hotline Poster(s), as prescribed at FAR 3.1004(b), provides adequate coverage for the VA. Agency internal procedures regarding fill-in information for the clause will be covered in the VAAM.

VAAR Part 812—Acquisition of Commercial Items

In section 812.301, paragraph (b)(13), we propose to change the name of provision 852.214-74 to Marking of Bid Samples to better reflect the requirement of the provision.

VAAR Part 814—Sealed Bidding

In subpart 814.1, Use of Sealed Bidding, we propose to delete the subpart in its entirety, to include its underlying sections. We propose to delete section 814.104, Types of contracts, and section 814.104-70, Fixed-price contracts with escalation, as unnecessary since both simply require compliance with FAR 16.203-1 through 16.203-4 and no additional VAAR text is required.

In subpart 814.2, Solicitation of Bids, we propose to revise section 814.201(a)-(f) by: Removing paragraphs (a)-(b) since they deal with numbering of IFBs and consist of internal agency procedures which is more properly covered in VAAM subpart 804.16; and, by removing paragraphs (c) through (f) altogether under the existing section. The title of the section would remain, but no additional text is added.

We propose to add a new subsection, 814.201-2, Part I—The Schedule, to explain how award will be made on summary bids and bids on groups of items to ensure this is clear to the public. In this new subsection 814.201-2, we propose to add revised paragraphs originating from the old 814.201 to comport with FAR numbering and arrangement under the new subsection VAAR 814.201-2(b) to implement FAR 14.201-2(b).

In subsection 814.201-6, Solicitation provisions, we propose to remove as unnecessary paragraph (a), which addresses bid envelopes, since labeling of bids is a customary and usual commercial practice, and the use of the OF 17, which is optional, is no longer a standard practice. We propose to redesignate paragraph (b) as (a) and to revise item (1) to prescribe new

provision 852.214-71, Restrictions on alternate item(s); item (2) to clarify the conditions for including the provision 852.214-72, Alternate items; and item (3) to prescribe the provision 852.214-73, Alternate packaging and packing, when bids will be allowed based on different packaging and packing. We also proposed to redesignate paragraph (c) as (b) and to add a prescription for the provision 852.214-74, Marking of bid samples.

We propose to add section 814.202, General rules for solicitation of bids and subsection 814.202-4, Bid samples, requiring samples to be from the manufacturer providing supplies or services under the contract. This ensures that the products that are actually proposed and would be delivered under the contract, if awarded, are the products that are submitted for evaluation. Paragraph (g), requires that bid samples be retained for the period of contract performance or until settlement of any claim that the Government may have against the contractor. Retention is intended for inspection purposes under FAR 14.202-4(g)(4).

We propose to delete section 814.203, Methods of soliciting bids, and subsection 814.203-1, Transmittal to prospective bidders, as the practice specified of furnishing a bid envelope or sealed bid label is out of date with existing practices.

We propose to delete section 814.204, Records of Invitations for Bids and Records of Bids, as it contains internal instructions to the VA and will be moved to the VAAM.

We propose to delete section 814.208, Amendment of Invitation for Bids as out of date with existing practices regarding sending amendments.

In subpart 814.3, Submission of Bids, we propose to delete section 814.301, Responsiveness of bids, since there is no authority to refer the question of timeliness to the U.S. Government Accountability Office (GAO) except in the context of a protest.

We propose to delete section 814.302, Bid submission, as duplicative of FAR 14.302(a) and therefore unnecessary.

We propose to revise section 814.304, Submission, modification, and withdrawal of bids, to delete internal procedures, to stipulate a limited time period for a late bidder to submit evidence of timeliness, and to renumber this paragraph (f) accordingly to comport with FAR and VAAR numbering conventions.

In subpart 814.4, Opening of Bids and Award of Contract, we propose to delete the entire subpart because the information is either redundant to the

FAR and is adequately covered there or it is comprised of agency internal procedures that will be incorporated into the VAAM as noted specifically below.

We propose to delete section 814.401, Receipt and safeguarding of bids, because coverage in the VAAR is unnecessary as the FAR adequately covers.

We propose to delete sections 814.402, Opening of bids; 814.403, Recording of bids; 814.404, Rejection of bids; 814.404-1, Cancellation of invitations after opening; 814.404-2, Rejection of individual bids; 814.407, Mistakes in bids; 814.407-3, Other mistakes disclosed before award; and, 814.407-4, Mistakes after award, as these are agency internal procedures that will be incorporated into the VAAM.

We propose to delete section 814.404-70, Questions involving the responsiveness of a bid, as there is no authority to refer questions of bid responsiveness to the GAO other than in the context of a protest, and, the overall responsibility for this determination rests with the contracting officer. Coverage in FAR 14.301, Responsiveness of bids, is adequate and no further VAAR coverage is required.

We propose to delete sections 814.408, Award, and 814.408-70, Award when only one bid is received, because coverage in the VAAR is unnecessary as it is adequately covered by FAR 14.408-1(b).

We propose to delete section 814.408-71, Recommendation for award (construction) as the procedures are no longer in use within the Office of Construction and Facilities Management.

We propose to delete section 814.409, Information to bidders, as unnecessary since the requirement not to disclose is contained in FAR part 3 and need not be duplicated in the VAAR.

VAAR Part 822—Application of Labor Laws to Government Acquisitions

In subpart 822.3, Contract Work Hours and Safety Standards Act, we propose to revise section 822.304, Variations, tolerances, and exemptions, to use plain language to state the conditions that must be met to permit use of the variation to Contract Work Hours and Safety Standards (the statute) (historically known as the Contract Work Hours and Safety Standards Act), granted by the Secretary of Labor regarding the payment of overtime under contracts for nursing home care for Veterans.

We propose to revise section 822.305, Contract clause, to change the title of

the clause at 852.222–70 to Contract Work Hours and Safety Standards—Nursing Home Care for Veterans in order to reflect the way the FAR refers to the historical titles based on the Positive Law codification.

In subpart 822.4, Labor Standards for Contracts Involving Construction, we propose to remove and reserve subpart 822.4, Labor Standards for Contracts Involving Construction, since this subpart contains procedural guidance on the types of labor standards involved in construction contracting, internal agency guidance to the contracting officer, etc., and is more appropriate for inclusion in the VAAM.

We propose to remove the underlying section 822.406, Administration and enforcement and subsection 822.406–11, Contract terminations, which falls under this subpart since it contains procedural guidance and will be moved to the VAAM.

VAAR Part 852—Solicitation Provisions and Contract Clauses

In subpart 852.2, we propose to revise clause 852.203–70, Commercial Advertising, to use plain language, remove gender-specific wording, and to clarify the intent to prohibit advertising that implies a Government endorsement of the contractor's products or services.

We propose to remove clause 852.203–71, Display of Department of Veterans Affairs Hotline Poster, because the VA will instead use FAR clause 52.203–14, Display of Hotline Poster(s), as prescribed at FAR 3.1004. The FAR clause permits insertion of fill-in language to identify an agency's hotline poster and VA will include language in its internal agency procedures detailing the requirement to insert the information regarding its agency specific hotline poster.

We propose to remove provision 852.214–70, Caution to Bidders—Bid Envelopes, because the practices described within the provision are obsolete with the advent of posting on the Government wide point of entry (GPE) via the Federal Business Opportunities (*FEDBIZOPPS.gov* or *FBO.gov*) Web page or via a linked interface off of *FBO.gov*. VA no longer issues Bid Envelopes or the Optional Form (OF) 17, Sealed Bid Label, described in the provision, when electronically posting IFBs, thus making the provision obsolete and unnecessary. Additionally, the clause, which talks to the VA providing a Sealed Bid Label, is unnecessary since labeling a bid is a customary and usual business practice making it unnecessary for VA to provide an optional label.

We propose to revise the individual prescription references for the following clauses based on the restructuring of 814.201–6: 852.214–71, Restrictions on Alternate Item(s); 852.214–72, Alternate Item(s); and 852.214–73, Alternate Packaging and Packing.

We propose to revise the title, text and prescription language of provision 852.214–74 that now reads, Bid Samples, to Marking of Bid Samples to describe better what the provision is about and to distinguish it from a FAR provision that is called “Bid Samples.” We use plain language to describe the principal purpose, which is to ensure that bidder's packages that include bid samples are clearly marked and identified with the words Bid Samples, as well as complete lettering/numbering and description of the related bid item(s), the number of the IFB, and the name of the bidder submitting the bid samples. We are also removing language stating that the preparation and transportation of the bid sample must be prepaid by the bidder as this language is unnecessary because FAR clause 52.214–20, Bid Samples, already contains language covering the bidder's responsibilities in this regard. We also propose to revise the prescription language for this provision at 814.201–6(b) which was renumbered to comport with FAR and VAAR numbering and arrangement.

We propose to revise clause 852.222–70, Contract Work-Hours and Safety Standards Act—Nursing Home Care Contract Supplement, to change the title to Contract Work Hours and Safety Standards—Nursing Home Care for Veterans, to better reflect the substance and coverage of the clause and to align the name of the clause with the revised current reference in lieu of the historical title of the act. This revision will also clarify that the clause has flow-down requirements and applies to subcontractors at any tier when the stated conditions in the VAAR clause are met.

Effect of Rulemaking

Title 48, Federal Acquisition Regulations System, Chapter 8, Department of Veterans Affairs, of the Code of Federal Regulations, as revised by this proposed rulemaking, represents VA's implementation of its legal authority and publication of the Department of Veterans Affairs Acquisition Regulation (VAAR) for the cited applicable parts. Other than future amendments to this rule or governing statutes for the cited applicable parts, or as otherwise authorized by approved deviations or waivers in accordance with FAR subpart 1.4, Deviations from

the FAR, and as implemented by VAAR subpart 801.4, Deviations from the FAR or VAAR, no contrary guidance or procedures are authorized. All existing or subsequent VA guidance must be read to conform with the rulemaking if possible or, if not possible, such guidance is superseded by this rulemaking as pertains to the cited applicable VAAR parts.

Executive Orders 12866 and 13563

Executive Orders (E.O.) 12866 and 13563 direct agencies to assess all costs and benefits of available regulatory alternatives and, if regulation is necessary, to select regulatory approaches that maximize net benefits (including potential economic, environmental, public health and safety effects, distributive impacts, and equity). E.O. 13563 emphasizes the importance of quantifying both costs and benefits of reducing costs, of harmonizing rules, and of promoting flexibility. E.O. 12866, Regulatory Planning and Review defines “significant regulatory action” to mean any regulatory action that is likely to result in a rule that may: “(1) Have an annual effect on the economy of \$100 million or more or adversely affect in a material way the economy, a sector of the economy, productivity, competition, jobs, the environment, public health or safety, or State, local, or tribal governments or communities; (2) Create a serious inconsistency or otherwise interfere with an action taken or planned by another agency; (3) Materially alter the budgetary impact of entitlements, grants, user fees, or loan programs or the rights and obligations of recipients thereof; or (4) Raise novel legal or policy issues arising out of legal mandates, the President's priorities, or the principles set forth in this Executive order.”

VA has examined the economic, interagency, budgetary, legal, and policy implications of this regulatory action, and it has been determined this rule is not a significant regulatory action under E.O. 12866.

VA's impact analysis can be found as a supporting document at <http://www.regulations.gov>, usually within 48 hours after the rulemaking document is published. Additionally, a copy of the rulemaking and its impact analysis are available on VA's Web site at <http://www.va.gov/orpm> by following the link for VA Regulations Published from FY 2004 Through Fiscal Year to Date.

Paperwork Reduction Act

Although this action contains provisions constituting collections of information at 48 CFR 814.201–6(a) and

852.214–70, under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. 3501–3521), no new or proposed revised collections of information are associated with this proposed rule. The information collection requirements for §§ 48 CFR 814.201–6(a) and 852.214–70 are currently approved by the Office of Management and Budget (OMB), have been assigned OMB control number 2900–0593, and are being proposed for removal and discontinuance.

Regulatory Flexibility Act

This proposed rule will not have a significant economic impact on a substantial number of small entities as they are defined in the Regulatory Flexibility Act, 5 U.S.C. 601–612. This proposed rule will generally be small business neutral. The overall impact of the proposed rule will be of benefit to small businesses owned by Veterans or service-disabled Veterans as the VAAR is being updated to remove extraneous procedural information that applies only to VA's internal operating procedures. VA estimates no cost impact to individual business resulting from these rule updates. On this basis, the adoption of this proposed rule will not have a significant economic impact on a substantial number of small entities as they are defined in the Regulatory Flexibility Act, 5 U.S.C. 601–612. Therefore, under 5 U.S.C. 605(b), this proposed rule is exempt from the initial and final regulatory flexibility analysis requirements of sections 603 and 604.

Unfunded Mandates

The Unfunded Mandates Reform Act of 1995 requires, at 2 U.S.C. 1532, that agencies prepare an assessment of anticipated costs and benefits before issuing any rule that may result in the expenditure by State, local, and tribal governments, in the aggregate, or by the private sector, of \$100 million or more (adjusted annually for inflation) in any one year. This proposed rule will have no such effect on State, local, and tribal Governments or on the private sector.

Signing Authority

The Secretary of Veterans Affairs, or designee, approved this document and authorized the undersigned to sign and submit the document to the Office of the Federal Register for publication electronically as an official document of the Department of Veterans Affairs. Gina S. Farrissee, Deputy Chief of Staff, Department of Veterans Affairs, approved this document on May 1, 2017 for publication.

The award will be made on either the bid price for individual items or the summary bid price summary for all items, whichever results in the lowest price to the Government. Award shall be made on the basis of the bid price for each identified group of items. The individual price of each line item in the group does not have to be the lowest bid received for that item. This may apply when the items in the group or groups are readily available from sources to be solicited; and one of the following applies—
