B. Final Draft, Revision to DO–343—Minimum Aviation System Performance Standard for AMS(R)S Data and Voice Communications Supporting Required Communications Performance (RCP) and Required Surveillance Performance (RSP), prepared by SC–222
C. Final Draft, New Document—Detect and Avoid Minimum Operational Performance Standards Phase I (DAA MOPS), prepared by SC–228
D. Final Draft, New Document—Minimum Operational Performance Standards (MOPS) for Air-to-Air Radar Detect and Avoid (DAA) Systems Phase 1, prepared by SC–230
F. Final Draft, New Document—Minimum Operational Performance Standards (MOPS) for TAWS, prepared by SC–231

4. Integration and Coordination Committee (ICC)
A. Suggested Changes to MOPS/MASPS Drafting Guides—Update
B. Past Action Item Review
A. Set up of PMC “Lite” for May—Status
B. Support for SC–214 TOR revision—Status
C. Redistribution/Relook at EUROCAE WG–106 TOR—Status
D. Cross Cutting Committee Activity—Update
a. Test Run of Possible Process
b. Evaluation of EFB as joint activity with EUROACE WG–106
E. Implementation Procedure for new MOPS/MASPS/SPR Drafting Guides—Update
F. PMC Membership Review—Update
H. Availability of documents as reference for selected EUROCAE WGs—Status

6. Discussion
A. SC–214—Standards for Air Traffic Data Communications Services—Discussion—Revised TOR
B. SC–222—AMS(R)S Systems—Discussion—Revised TOR

7. Other Business
8. Schedule for Committee Deliverables and Next Meeting Date
9. New Action Item Summary

Attendance is open to the interested public but limited to space availability. With the approval of the chairman, members of the public may present oral statements at the meeting. Persons wishing to present statements or obtain information should contact the person listed in the FOR FURTHER INFORMATION CONTACT section. Members of the public may present a written statement to the committee at any time.

Issued in Washington, DC, on May 11, 2017.

Mohannad Dawoud,
Management & Program Analyst, Partnership Contracts Branch, ANG–A17, NextGen, Procurement Services Division, Federal Aviation Administration.

DEPARTMENT OF TRANSPORTATION

Federal Highway Administration

[Docket No. FHWA–2017–0011]

Agency Information Collection Activities: Request for Comments for a New Information Collection

AGENCY: Federal Highway Administration (FHWA), DOT.

ACTION: Notice and request for comments.

SUMMARY: The FHWA has forwarded the information collection request described in this notice to the Office of Management and Budget (OMB) for approval of a new information collection. We published a Federal Register Notice with a 60-day public comment period on this information collection on March 28, 2017. We are required to publish this notice in the Federal Register by the Paperwork Reduction Act of 1995.

DATES: Please submit comments by June 16, 2017.

ADDRESSES: You may send comments within 30 days to the Office of Information and Regulatory Affairs, Office of Management and Budget, 725 17th Street NW., Washington, DC 20503, Attention DOT Desk Officer. You are asked to comment on any aspect of this information collection, including: (1) Whether the proposed collection is necessary for the FHWA’s performance; (2) the accuracy of the estimated burden; (3) ways for the FHWA to enhance the quality, usefulness, and clarity of the collected information; and (4) ways that the burden could be minimized, including the use of electronic technology, without reducing the quality of the collected information. All comments should include the Docket number FHWA–2017–0011.

FOR FURTHER INFORMATION CONTACT: Mr. David Bartz, (512) 536–5906, Office of Program Administration, Federal Highway Administration, Department of Transportation, 300 East 8th Street, Suite 826, Austin, Texas 78701. Office hours are from 7:00 a.m. to 4:00 p.m., Monday through Friday, except Federal holidays.

SUPPLEMENTARY INFORMATION:

Title: Preparation and Execution of the Project Agreement and Modifications.

OMB Control Number: 2125–0529.

Background: Formal agreements between State Transportation Departments and the FHWA are required for Federal-aid highway projects. These agreements, referred to as “project agreements” are written contracts between the State and the Federal government that define the extent of work to be undertaken and commitments made concerning a highway project. Section 1305 of the Transportation Equity Act for the 21st Century (TEA–21, Pub. L. 105–178) amended 23 U.S.C. 106(a) and combined authorization of work and execution of the project agreement for a Federal-aid project into a single action. States continue to have the flexibility to use whatever format is suitable to provide the statutory information required, and burden estimates for this information collection are not changed.

Respondents: There are 56 respondents, including 50 State Transportation Departments, the District of Columbia, the Commonwealth of Puerto Rico, the Commonwealth of the Northern Mariana Islands, the Territories of Guam, the Virgin Islands and American Samoa.

Frequency: On an on-going basis as project agreements are written.

Estimated Average Annual Burden per Response: There is an average of 400 annual agreements per respondent. Each agreement requires 1 hour to complete.

Estimated Total Annual Burden Hours: 22,400 hours.

Electronic Access: For access to the docket to read background documents or comments received, go to http://www.regulations.gov. Follow the online instructions for accessing the dockets.

Background: Federal Highway Administration (FHWA) is initiating a large-scale effort to expand its relationships with the States to develop a better understanding of their data capabilities and conditions of data collection. The effort, known as the Roadway Safety Data Capabilities Assessment, will be conducted in 50 States, the District of Columbia and Puerto Rico. The two major objectives are to (1) create a mechanism by which a national and State-specific gap analyses could be conducted to identify opportunities to improve capabilities and (2) provide tools and assistance to assist States in overcoming those gaps. The results will provide a detailed understanding (for FHWA and the States themselves) of the needs for complete, accurate roadway, crash, and traffic volume data for use in safety analysis. The assessment will yield both a quantitative understanding of each State’s capability (using a capability maturity model) and State-specific action plans in the key areas of:

- Roadway inventory data collection and technical standards
- Data analysis tools and uses
- Data management and governance
- Data integration and expandability
- Performance management

The results will also be useful for States and FHWA in their efforts to develop programs and make improvements in roadway safety management.

Respondents: 50 State DOT participants the District of Columbia and Puerto Rico.

Frequency: Once every 5 years.

Estimated Average Burden per Response: Approximately 36 hours per participant over a year.

Estimated Total Annual Burden Hours: Approximately 1,728 hours.

Public Comments Invited: You are asked to comment on any aspect of this information collection, including: (1) Whether the proposed collection is necessary for the FHWA’s performance; (2) the accuracy of the estimated burden; (3) ways for the FHWA to enhance the quality, usefulness, and clarity of the collected information; and (4) ways that the burden could be minimized, including the use of electronic technology, without reducing the quality of the collected information. All comments should include the Docket number FHWA–2017–0010.

FOR FURTHER INFORMATION CONTACT: Karen Scurry, 609–637–4207, Office of Safety, Federal Highway Administration, Department of Transportation, 1200 New Jersey Avenue SE., Washington, DC 20590, between 9 a.m. and 5 p.m. ET, Monday through Friday, except Federal holidays.

SUPPLEMENTARY INFORMATION: Title: Roadway Safety Data Capability Assessment.

Michael Howell,
Information Collection Officer.
