SUPPLEMENTARY INFORMATION: The Board currently collects information from those seeking licensing authority under OMB Control Number 2140–0016 and, under that collection, requires the disclosure of information about rail interchange commitments, which is also addressed under OMB Control Number 2140–0016. This request proposes to combine collections under Control Numbers 2140–0016 and 2140–0023 with 2140–0023 being the survivor. The Board will request to discontinue Control Number 2140–0016 upon OMB approval of the merger.

For each collection, comments are requested concerning: (1) The accuracy of the Board’s burden estimates; (2) ways to enhance the quality, utility, and clarity of the information collected; (3) ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology, when appropriate; and (4) whether the collection of information is necessary for the proper performance of the functions of the Board, including whether the collection has practical utility. Submitted comments will be summarized and included in the Board’s request for OMB approval.
