Needs and Uses: FCC staff, State Historic Preservation Officers (SHPO), Tribal Historic Preservation Officers (THPO) and the Advisory Council of Historic Preservation (ACHP) use the data to take such action as may be necessary to ascertain whether a proposed action may affect sites of cultural significance to tribal nations and historic properties that are listed or eligible for listing on the National Register as directed by section 106 of the National Historic Preservation Act (NHPA) and the Commission's rules.

FCC Form 620, New Tower (NT) Submission Packet is to be completed by or on behalf of applicants to construct new antenna support structures by or for the use of licensees of the FCC. The form is to be submitted to the State Historic Preservation Office ("SHPO") or to the Tribal Historic Preservation Office ("THPO"), as appropriate, and the Commission before any construction or other installation activities on the site begins. The Tower Construction Notification System (TCNS) is used by or on behalf of Applicants proposing to construct new antenna support structures, and some collocations, to ensure that Tribal Nations have the requisite opportunity to participate in review prior to construction. To facilitate this coordination, Tribal Nations have designated areas of geographic preference, and they receive automated notifications based on the site coordinates provided in the filing. Applicants complete TCNS before filing a 620 or 621 and all the relevant data is pre-populated on the 620 and 621 when the forms are filed electronically.

SUPPLEMENTARY INFORMATION: On February 9, 2017, (82 FR 10004), the FDIC requested comment for 60 days on a proposal to renew the information collections described below. No comments were received. The FDIC hereby gives notice of its plan to submit to OMB a request to approve the renewal of these collections, and again invites comment on this renewal.

Proposal to renew the following currently approved collections of information:

1. *Title:* Interagency Notice of Change in Control.
OMB Number: 3064-0019.
Form Number: FDIC 6822/01.
Affected Public: Insured state nonmember banks and state savings associations.
Burden Estimate:

	Type of burden	Estimated number of respondents	Estimated time per response (hours)	Frequency of response	Total annual estimated burden
Notice of Change in Control	Reporting	25	30	On Occasion	750

General Description of Collection: The *Interagency Notice of Change in Control* is submitted by any person proposing to acquire ownership control of an insured state nonmember bank. The information is used by the FDIC to determine whether the competence, experience, or integrity of any acquiring person indicates it would not be in the interest

of the depositors of the bank, or in the public interest, to permit such persons to control the bank.

There is no change in the method or substance of the collection. The overall burden remains the same. In particular, the number of respondents and the hours per response remains the same.

2. *Title:* Foreign Banking and Investment by Insured State Nonmember Banks.
OMB Number: 3064-0061.
Form Number: Summary of Deposits.
Affected Public: All FDIC-insured institutions, including insured U.S. branches of foreign banks.
Burden Estimate:

	Type of burden	Estimated number of respondents	Estimated time per response (hours)	Frequency of response	Total annual estimated burden (hours)
Summary of Deposits	Reporting	4,843	3	On Occasion	14,529

General Description of Collection: The Summary of Deposits (SOD) is the annual survey of branch office deposits as of June 30 for all FDIC-insured institutions, including insured U.S. branches of foreign banks. All FDIC-insured institutions that operate a main office and one or more branch locations (including limited service drive-thru locations) as of June 30 each

year are required to file the SOD Survey. Insured branches of foreign banks are also required to file. All data collected on the SOD submission are available to the public. The survey data provides a basis for measuring the competitive impact of bank mergers and has additional use in research on banking.

There is no change in the method or substance of the collection. The overall

reduction in burden hours is a result of economic fluctuation. In particular, the number of respondents has decreased while the hours per response remain the same.

3. *Title:* Procedures for Monitoring Bank Secrecy Act Compliance.
OMB Number: 3064-0087.
Form Number: None.
