**SUPPLEMENTARY INFORMATION:**

*Title:* Automatic Enrollment Individual Retirement Accounts (Auto-IRAs).

*OMB Number:* 1530-0068.

*Abstract:* Approximately one-third of private-sector employees in the United States lack access to retirement savings plans through their employers. To fill this gap, several states (or their political subdivisions) are establishing or considering programs that will encourage employees to save for their retirement, including through automatic enrollment individual retirement accounts and other approaches (collectively referred to here as Auto-IRAs). Under an Auto-IRA program, employee contributions are deposited into an IRA and invested in accordance with the design of the Auto-IRA program and the wishes of the participant. In order to assist states in offering risk-averse savers a principal-protected investment, the Department of the Treasury, Fiscal Service (Fiscal Service) will offer retirement savings bonds to certain state Auto-IRA retirement savings programs. To help the Fiscal Service determine whether it should offer or continue to offer the bonds for a given state Auto-IRA program, that program must provide documentation to Fiscal Service

annually, in a form and manner acceptable to Fiscal Service, addressing topics such as administration; account monitoring; ability to transfer; withdrawals; consumer protection; consumer education; costs of administration borne by consumers; oversight; pooling; and any proposed use of the bond as a default investment.

*Current Actions:* Extension of a currently approved collection.

*Type of Review:* Regular.

*Affected Public:* State, Local, and Tribal Governments.

*Estimated Number of Respondents:* 5.

*Estimated Time per Respondent:* 8 hours.

*Estimated Total Annual Burden Hours:* 40.

*Request For Comments:* Comments submitted in response to this notice will be summarized and/or included in the request for OMB approval. All comments will become a matter of public record. Comments are invited on: (a) Whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology; and (e) estimates of capital or start-up costs and costs of operation, maintenance, and purchase of services to provide information.
