Board believes this alternative would relax the kernel damage too far. Therefore, this alternative was rejected. USDA has met with the Board, which is representative of the industry, and has included its recommendations in this rule.

The Act specifies in §1604(c)(2)(A) that the Standards established pursuant to it may be implemented without regard to the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35). However, USDA has considered the reporting and recordkeeping burden on handlers and importers under this program. This proposed rule would relax the allowance for damaged kernels in farmers stock peanuts when determining segregation under the Standards. Recordkeeping requirements would remain the same. Accordingly, this rule would not impose any additional reporting or recordkeeping requirements on either small or large handlers or importers.

Section 1601 of the Act also provides that amendments to the Standards may be implemented without extending interested parties an opportunity to comment. However, due to the nature of the proposed changes, interested parties are provided with a 30-day comment period.

AMS is committed to complying with the E-Government Act, to promote the use of the internet and other information technologies to provide increased opportunities for citizen access to Government information and services, and for other purposes. USDA has not identified any relevant Federal rules that duplicate, overlap or conflict with this rule.

The Board’s meeting was widely publicized throughout the peanut industry and all interested persons were invited to attend and participate in Board deliberations on all issues. Like all Board meetings, the September 1, 2016 meeting was a public meeting and all entities, both large and small, were able to express views on these issues. Finally, interested persons are invited to submit comments on this proposed rule, including the regulatory and informational impacts of this action on small businesses.

A small business guide on complying with fruit, vegetable, and specialty crop marketing agreements and orders may be viewed at: http://www.ams.usda.gov/rules-regulations/moa/small-businesses. Any questions about the compliance guide should be sent to Richard Lower at the previously mentioned address in the FOR FURTHER INFORMATION CONTACT section.

A 30-day comment period is provided to allow interested persons to respond to this proposal. Thirty days is deemed appropriate because farmers stock peanuts are already being delivered from the 2016–17 crop. Further, the industry is aware of this proposed action recommended by the Board. All written comments timely received will be considered before a final determination is made on this matter.

List of Subjects in 7 CFR Part 996

Food grades and standards, Marketing agreements, Peanuts, Reporting and recordkeeping requirements.

For the reasons set forth in the preamble, 7 CFR part 996 is proposed to be amended as follows:

PART 996—MINIMUM QUALITY AND HANDLING STANDARDS FOR DOMESTIC AND IMPORTED PEANUTS MARKETED IN THE UNITED STATES

§996.13 Peanuts.

(a) Segregation 1. “Segregation 1 peanuts” means farmers stock peanuts with not more than 3.49 percent damaged kernels nor more than 1.00 percent concealed damage caused by rancidity, mold, or decay and which are free from visible Aspergillus flavus.

(b) Segregation 2. “Segregation 2 peanuts” means farmers stock peanuts with more than 3.49 percent damaged kernels or more than 1.00 percent concealed damage caused by rancidity, mold, or decay and which are free from visible Aspergillus flavus.

Dated: May 19, 2017.

Bruce Summers,
Acting Administrator, Agricultural Marketing Service.

BILLING CODE 3410–02–P

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 52

Air Plan Approval; NH; Non attainment New Source Review and Prevention of Significant Deterioration Permit Program Revisions; Public Hearing Revisions for State Permitting Programs; Withdrawal of Permit Fee Program; Infrastructure Provisions for National Ambient Air Quality Standards

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: The Environmental Protection Agency (EPA) is proposing to approve several different State Implementation Plan (SIP) revisions submitted to EPA by the New Hampshire Department of Environmental Services (NHDES). New Hampshire submitted to EPA on October 26, 2016, revisions satisfying the NHDES’s earlier commitment to adopt and submit provisions that meet certain requirements of the federal Prevention of Significant Deterioration (PSD) and Nonattainment New Source Review (NNSR) air permit program regulations. This proposed action will convert to full approval EPA’s September 25, 2015 conditional approval of New Hampshire’s PSD and NNSR permit programs. This action also will approve NHDES’s SIP revisions relating to several New Hampshire infrastructure SIPs, which were conditionally approved by EPA on December 16, 2015, and July 8, 2016.

Additionally, EPA is also proposing to approve: a January 31, 2017 SIP revision amending the public notice and hearing procedures for New Hampshire’s NNSR, PSD, and minor NSR permit programs; a January 18, 2017 SIP revision withdrawing the State SIP’s permit fee system; and a November 17, 2015 SIP revision that addresses the good neighbor provisions of New Hampshire’s infrastructure SIP for the 2010 nitrogen oxide (NOx) national ambient air quality standard (NAAQS). This action is being taken in accordance with the Clean Air Act (CAA).

DATES: Written comments must be received on or before June 26, 2017.

ADDRESSES: Submit your comments, identified by Docket ID No. EPA–R01–OAR–2017–0102 and EPA–R01–OAR–2016–0758 at https://www.regulations.gov, or via email to mcdonnell.ida@epa.gov. For comments submitted at Regulations.gov, follow the
online instructions for submitting comments. Once submitted, comments cannot be edited or removed from Regulations.gov. For either manner of submission, the EPA may publish any comment received to its public docket. Do not submit electronically any information you consider to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute. Multimedia submissions (audio, video, etc.) must be accompanied by a written comment. The written comment is considered the official comment and should include discussion of all points you wish to make. The EPA will generally not consider comments or comment contents located outside of the primary submission (i.e. on the web, cloud, or other file sharing system). For additional submission methods, please contact the person identified in the “For Further Information Contact” section.

For the full EPA public comment policy, contact the person identified in the “For Further Information Contact” section. For the full EPA public comment policy, information about CBI or multimedia submissions, and general guidance on making effective comments, please visit https://www2.epa.gov/dockets/commenting-epa-dockets.

**SUPPLEMENTARY INFORMATION:**

In the Final Rules Section of this Federal Register, EPA is approving the State’s SIP submittal as a direct final rule without prior proposal because the Agency views this as a noncontroversial submittal and anticipates no adverse comments. A detailed rationale for the approval is set forth in the direct final rule. No adverse comments are received in response to this action rule, no further activity is contemplated. If EPA receives adverse comments, the direct final rule will be withdrawn and all public comments received will be addressed in a subsequent final rule based on this proposed rule. EPA will not institute a second comment period. Any parties interested in commenting on this action should do so at this time. Please note that if EPA receives adverse comment on an amendment, paragraph, or section of this rule and if that provision may be severed from the remainder of the rule, EPA may adopt as final those provisions of the rule that are not the subject of an adverse comment.

For additional information, see the direct final rule which is located in the Rules Section of this Federal Register. Dated: April 19, 2017.

Deborah A. Szaro,
Acting Regional Administrator, EPA New England.

**DEPARTMENT OF COMMERCE**

National Oceanic and Atmospheric Administration

50 CFR Part 648

[Docket No. 161220999–7467–01]

RIN 0648–BG52

Magnuson-Stevens Fishery Conservation and Management Act Provisions; Fisheries of the Northeastern United States; Northeast Groundfish Fishery; Fishing Year 2017; Recreational Management Measures

**AGENCY:** National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

**ACTION:** Proposed rule; request for comments.

**SUMMARY:** NMFS proposes to modify recreational management measures for Gulf of Maine cod and haddock for the 2017 fishing year. This action proposes to prohibit recreational possession of cod, reduce the haddock bag limit, and implement a new closed season for haddock in the fall. The intended effect of this action is to reduce catch of cod and haddock. This action is necessary to ensure fishing year 2017 recreational catch limits are not exceeded.

**DATES:** Comments must be received by June 9, 2017.

**ADDRESSES:** You may submit comments on this document, identified by NOAA–NMFS–2017–0048, by either of the following methods:

Electronic Submission: Submit all electronic public comments via the Federal e-Rulemaking Portal.

2. Click the “Comment Now!” icon, complete the required fields, and 3. Enter or attach your comments.

Mail: Submit written comments to: John K. Bullard, Regional Administrator, National Marine Fisheries Service, 55 Great Republic Drive, Gloucester, MA 01930. Mark the outside of the envelope, “Comments on the Fishing Year 2017 Groundfish Recreational Measures.”

Instructions: Comments sent by any other method, to any other address or individual, or received after the end of the comment period, may not be considered by NMFS. All comments received are a part of the public record and will generally be posted for public viewing on www.regulations.gov without change. All personal identifying information (e.g., name, address, etc.), confidential business information, or otherwise sensitive information submitted voluntarily by the sender will be publicly accessible. NMFS will accept anonymous comments (enter “N/A” in the required fields if you wish to remain anonymous).

Copies of the analyses supporting this rulemaking, including the Framework Adjustment 55 environmental assessment (EA) prepared by the New England Fishery Management Council, a supplemental EA to Framework Adjustment 55 prepared by the Greater Atlantic Regional Fisheries Office and Northeast Fisheries Science Center, and the supplemental information report (SIR) are available from: John K. Bullard, Regional Administrator, National Marine Fisheries Service, 55 Great Republic Drive, Gloucester, MA 01930. The Framework Adjustment 55 EA, supplemental EA, and SIR are also accessible via the Internet at: http://www.greateratlantic-fisheries.noaa.gov/sustainable/species/multispecies/

**SUPPLEMENTARY INFORMATION:**

**Table of Contents**

1. Fishing Year 2017 Recreational Management Measures
2. Regulatory Corrections Under Regional Administrator Authority

1. Proposed Recreational Management Measures for Fishing Year 2017

**Background**

The recreational fishery for Gulf of Maine (GOM) cod and haddock is managed under the Northeast Multispecies Fishery Management Plan (FMP). Under the FMP, specific subannual catch limits (sub-ACL) for the recreational fishery are established for each fishing year for GOM cod and haddock. These sub-ACLs are a portion of the overall catch limit for each stock. The multispecies fishery opens on May 1 each year and runs through April 30 of the following calendar year. The FMP also contains recreational accountability
