SUPPLEMENTARY INFORMATION:

Title: U.S. Origin Health Certificate.

OMB Control Number: 0579-0020.

Type of Request: Revision to and extension of approval of an information collection.

Abstract: Under the Animal Health Protection Act (7 U.S.C. 8301 *et seq.*), the Animal and Plant Health Inspection Service (APHIS) of the U.S. Department of Agriculture, among other things, has the authority to detect, control, or eradicate pests or diseases of livestock or poultry. The Secretary may also prohibit or restrict the import or export of any animal or related material if necessary to prevent the spread of any livestock or poultry pest or disease. Disease prevention is the most effective method for maintaining a healthy animal population and for enhancing APHIS' ability to compete in the world market of animal and animal product trade.

The export of agricultural commodities, including animals and animal products, is a major business in the United States and contributes to a favorable balance of trade. As part of its mission to facilitate the export of U.S. animals and products, APHIS' Veterinary Services maintains information regarding the import health requirements of other countries for animals and animal products exported from the United States.

Among other things, to ensure a favorable balance of trade, APHIS uses information collection activities, such as U.S. Origin Health Certificates; U.S. Interstate and International Certificates of Health Examinations for Small Animals; U.S. Origin Health Certificates for the Export of Horses from the United States to Canada; Health Certificates for the Export of Live Finfish, Mollusks, and Crustaceans (and their Gametes);

Undue Hardship Explanations-Animals; Applications for Approval of Inspection Facility-Environmental Certification; Annual Inspections of Inspection Facilities; Opportunities to Present Views Concerning Withdrawal of Facility Approval; Certifications to Carry Livestock; Inspections of Vessel Prior to Voyage; Notarized Statements; Aircraft Cleaning and Disinfection; Country-Specific Health Care; and Travel Time.

We are asking the Office of Management and Budget (OMB) to approve our use of these information collection activities, as described, for an additional 3 years.

The purpose of this notice is to solicit comments from the public (as well as affected agencies) concerning our information collection. These comments will help us:

(1) Evaluate whether the collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility;

(2) Evaluate the accuracy of our estimate of the burden of the collection of information, including the validity of the methodology and assumptions used;

(3) Enhance the quality, utility, and clarity of the information to be collected; and

(4) Minimize the burden of the collection of information on those who are to respond, through use, as appropriate, of automated, electronic, mechanical, and other collection technologies; *e.g.*, permitting electronic submission of responses.

Estimate of burden: The public reporting burden for this collection of information is estimated to average 0.48 hours per response.

Respondents: Owners and facility operators, accredited veterinarians, exporters, and owners or masters of a vessel.

Estimated annual number of respondents: 2,177.

Estimated annual number of responses per respondent: 16.

Estimated annual number of responses: 35,661.

Estimated total annual burden on respondents: 17,170 hours. (Due to averaging, the total annual burden hours may not equal the product of the annual number of responses multiplied by the reporting burden per response.)

All responses to this notice will be summarized and included in the request

for OMB approval. All comments will also become a matter of public record.

Done in Washington, DC, this 23rd day of May 2017.

Jere L. Dick,

Acting Administrator, Animal and Plant Health Inspection Service.

Notice of Proposed New Fee Sites; Federal Lands Recreation Enhancement Act

AGENCY: Forest Service, USDA

ACTION: Notice of proposed new fee sites.

SUMMARY: The Wayne National Forest is proposing to charge a fee of \$10.00 per site/per night at Hune Bridge, Lane Farm, Ring Mill, and Lamping Homestead Campgrounds. Fees are assessed based on the level of amenities and services provided, cost of operations and maintenance, and market assessment. The fees are proposed and will be determined upon further analysis and public comment. Funds from fees would be used for continued operations and maintenance and improvements to the campgrounds. An analysis of the nearby state and private campgrounds with similar amenities show that the proposed fees are reasonable for the area.

DATES: Comments will be accepted through July 28, 2017. If approved, new fees would begin approximately April 2018.

ADDRESSES: Anthony V. Scardina, Forest Supervisor, Wayne National Forest, 13700 U.S. Hwy. 33, Nelsonville, OH 45764.

FOR FURTHER INFORMATION CONTACT:

Chad Wilberger, Forest Recreation Program Manager, 740-753-0884. Information about the proposed fees can also be found on the Wayne National Forest Web site: <http://www.fs.usda.gov/wayne>.

SUPPLEMENTARY INFORMATION: The Federal Recreation Lands Enhancement Act (Title VII, Pub. L. 108-447) directed the Secretary of Agriculture to publish a six month advance notice in the **Federal Register** whenever new recreation fee areas are proposed. Once public involvement is complete, these new fees will be reviewed by a Recreation Resource Advisory Committee prior to a final decision and implementation.

The Hune Bridge, Lane Farm, Ring Mill, and Lamping Homestead Campgrounds are small campgrounds (3 to 7 campsites each) that are located along State Route 26 in Washington and Monroe Counties, Ohio. They currently offer tent-only, non-electric campsites that are open year-round.

Revenue generated by the proposed fee increases would be used to leverage federal funding, grants, and partnership contributions to make the following investments and improvements: Rehabilitate tent pads and campsite spurs; stabilize the river bank along the campgrounds; construct canoe launches; upgrade picnic tables, grills, and fire rings; replace restroom facilities; and provide better signing.

Dated: March 29, 2017.

Glenn P. Casamassa,

Associate Deputy Chief, National Forest System.
