RIN 2060-AS26

Granting Petitions To Add n-Propyl Bromide to the List of Hazardous Air Pollutants

AGENCY: Environmental Protection Agency.

ACTION: Notice, extension of comment period.

SUMMARY: On January 9, 2017, the Environmental Protection Agency (EPA) published a draft notice of the rationale for granting petitions to add n-propyl bromide (nPB), also known as 1-bromopropane (1-BP) (Chemical Abstract Service No. 106-94-5), to the list of hazardous air pollutants contained in section 112(b)(1) of the Clean Air Act. In this notice, the EPA is extending the comment period on the draft notice until October 1, 2017. The EPA received a timely request to extend the comment period from March 10, 2017, to October 1, 2017, in order to allow for the review of data and information that would otherwise become available after the close of the comment period. On March 6, 2017, as an initial response, the EPA made an interim extension of the comment period by 90 days until June 8, 2017. The EPA is now granting the request in full and extending the comment period until October 1, 2017.

DATES: The public comment period for the draft notice published in the *Federal Register* on January 9, 2017 (82 FR 2354), is being extended. Written comments must be received on or before October 1, 2017.

ADDRESSES: *Comments.* Submit your comments, identified by Docket ID No. EPA-HQ-OAR-2014-0471, at <http://www.regulations.gov>. Follow the online instructions for submitting comments. Once submitted, comments cannot be edited or removed from *Regulations.gov*. The EPA may publish any comment received to its public docket. Do not submit electronically any information you consider to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute. Multimedia submissions (audio, video, etc.) must be accompanied by a written comment. The written comment is considered the official comment and should include discussion of all points you wish to make. The EPA will generally not consider comments or comment contents located outside of the primary

submission (*i.e.*, on the Web, cloud, or other file sharing system). For additional submission methods, the full EPA public comment policy, information about CBI or multimedia submissions, and general guidance on making effective comments, please visit <http://www2.epa.gov/dockets/commenting-epa-dockets>.

FOR FURTHER INFORMATION CONTACT: For questions about this proposed action, contact Ms. Elineth Torres, Sector Policies and Programs Division (D205-02), Office of Air Quality Planning and Standards, Environmental Protection Agency, Research Triangle Park, North Carolina 27711; telephone number: (919) 541-4347; email address: torres.elineth@epa.gov.

SUPPLEMENTARY INFORMATION: The EPA is granting the request for extension of time to provide the public additional opportunity to review and consider the Toxics Release Inventory (TRI) data for nPB, which becomes available in late July 2017, when preparing comments on this draft notice. The EPA has decided to extend the public comment period until October 1, 2017.

Dated: May 10, 2017.

Stephen Page,
Director, Office of Air Quality Planning and Standards.

Adequacy Status of the Houston-Galveston-Brazoria, Texas Reasonable Further Progress 8-Hour Ozone Motor Vehicle Emission Budgets for Transportation Conformity Purposes

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of adequacy.

SUMMARY: The Environmental Protection Agency (EPA) is notifying the public that it has found that the motor vehicle emissions budgets (MVEBs) in the Houston-Galveston-Brazoria, Texas (HGB) Reasonable Further Progress (RFP) State Implementation Plan (SIP) revision for the 2008 8-hour ozone National Ambient Air Quality Standard (NAAQS), submitted on December 29, 2016 by the Texas Commission on Environmental Quality (TCEQ) are adequate for transportation conformity purposes. As a result of EPA's finding, the HGB area must use these budgets for future conformity determinations.

DATES: These budgets are effective June 21, 2017.

FOR FURTHER INFORMATION CONTACT: The essential information in this notice will be available at EPA's conformity Web site: <https://www.epa.gov/state-and-local-transportation/adequacy-review-state-implementation-plan-sip-submissions-conformity>. You may also contact Mr. Jeffrey Riley, State Implementation Section (6MM-AA), U.S. Environmental Protection Agency, Region 6, 1445 Ross Avenue, Dallas, Texas 75202-2733, (214) 665-8542 or Riley.Jeffrey@epa.gov.

SUPPLEMENTARY INFORMATION: Throughout this document "we," "us," and "our" refers to EPA. The word "budget(s)" refers to the mobile source emissions budget for volatile organic compounds (VOCs) and the mobile source emissions budget for nitrogen oxides (NO_x).

On December 29, 2016, we received a SIP revision from the TCEQ. This revision consisted of an RFP SIP for the HGB 2008 8-hour ozone NAAQS nonattainment area. This submission established MVEBs for the HGB 2008 ozone nonattainment area for the year 2017. The MVEB is the amount of emissions allowed in the SIP for on-road motor vehicles; it establishes an emissions ceiling for the HGB area regional transportation network, used to develop the 2017 on-road motor vehicle emissions projections contained in the RFP SIP. The MVEBs are provided in Table 1:

TABLE 1—HOUSTON-GALVESTON-BRAZORIA REASONABLE FURTHER PROGRESS NO_x AND VOC MVEBS
[Summer ozone season tons per day]

Ozone Precursor	2017 MVEB
NO _x	121.81
VOC	68.04

On January 18, 2017, EPA posted the revised HGB area MVEBs on EPA's Web site for the purpose of soliciting public comments, as part of the adequacy process. The comment period closed on February 17, 2017, and we received no comments.

Today's notice is simply an announcement of a finding that EPA has already made. EPA Region 6 sent a letter to TCEQ on April 28, 2017, finding that the MVEBs in the HGB RFP SIP, submitted on December 29, 2016 are adequate and must be used for transportation conformity determinations in the HGB area. This finding has also been announced on EPA's conformity Web site: <https://>
