

flashboards; (2) an approximately 12-acre impoundment having a storage capacity of 135-acre-feet at a normal maximum elevation of 668.38 feet above mean sea level; (3) an 18.5-foot-wide headworks structure with two headgates; (4) a 290-foot-long partially covered, power canal; (5) a gatehouse with two 15-foot-wide trashracks with 1.5-inch clear spacing; (6) a 200-foot-long, 6- to 10-foot-diameter metal penstock that bifurcates before entering two powerhouses; (7) a 47-foot-long, 25-foot-wide powerhouse containing a 1,350 kilowatt (kW) horizontal turbine-generator unit and a 40-foot-long, 40-foot-wide powerhouse containing two 350 kW horizontal turbine-generator units for a total capacity of 2,050 kW; (8) a 350-foot-long, 2.4-kilovolt (kV) above-ground generator lead that connects the turbine-generator units to a step-up transformer; (9) a 1.75-mile-long, 12.5-kV above-ground transmission line; and (10) appurtenant facilities.

The Village of Lyndonville Electric Department operates the project in a run-of-river mode with an annual average generation of approximately 3,960 megawatt-hours. The Village of Lyndonville Electric Department is not proposing any new project facilities or changes in project operation.

o. A copy of the application is available for review at the Commission in the Public Reference Room or may be viewed on the Commission's Web site at <http://www.ferc.gov> using the "eLibrary" link. Enter the docket number excluding the last three digits in the docket number field to access the document. For assistance, contact FERC Online Support. A copy is also available for inspection and reproduction at the address in item h above.

You may also register online at <http://www.ferc.gov/docs-filing/esubscription.asp> to be notified via email of new filings and issuances related to this or other pending projects. For assistance, contact FERC Online Support.

p. With this notice, we are designating Lyndonville Electric Department as the Commission's non-federal representative for carrying out informal consultation pursuant to section 7 of the Endangered Species Act and consultation pursuant to section 106 of the National Historic Preservation Act.

q. Procedural schedule and final amendments: The application will be processed according to the following preliminary Hydro Licensing Schedule. Revisions to the schedule will be made as appropriate.

Issue Acceptance or Deficiency Letter—
August 2017

Request Additional Information—
August 2017
Issue Acceptance Letter—November 2017
Issue Scoping Document 1 for
Comments—December 2017
Request Additional Information (if
necessary)—February 2018
Issue Scoping Document 2—March 2018
Issue notice of ready for environmental
analysis—March 2018
Commission issues EA or draft EA—
September 2018
Comments on EA or draft EA—October 2018
Commission issues final EA—December 2018

Final amendments to the application must be filed with the Commission no later than 30 days from the issuance date of the notice of ready for environmental analysis.

Dated: June 5, 2017.

Kimberly D. Bose,
Secretary.

BILLING CODE 6717-01-P

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Project No. 9100-000]

Notice of Authorization for Continued Project Operation; Riverdale Power & Electric Co., Inc.

On April 27, 2017 Riverdale Power & Electric Co., Inc., licensee for the Riverdale Mills Hydroelectric Project, filed an Application for a New License pursuant to the Federal Power Act (FPA) and the Commission's regulations thereunder. The Riverdale Mills Hydroelectric Project facilities are located on the Blackstone River in Worcester County, Massachusetts.

The license for Project No. 9100 was issued for a period ending May 31, 2017. Section 15(a)(1) of the FPA, 16 U.S.C. 808(a)(1), requires the Commission, at the expiration of a license term, to issue from year-to-year an annual license to the then licensee under the terms and conditions of the prior license until a new license is issued, or the project is otherwise disposed of as provided in section 15 or any other applicable section of the FPA. If the project's prior license waived the applicability of section 15 of the FPA, then, based on section 9(b) of the Administrative Procedure Act, 5 U.S.C. 558(c), and as set forth at 18 CFR 16.21(a), if the licensee of such project has filed an application for a subsequent

license, the licensee may continue to operate the project in accordance with the terms and conditions of the license after the minor or minor part license expires, until the Commission acts on its application. If the licensee of such a project has not filed an application for a subsequent license, then it may be required, pursuant to 18 CFR 16.21(b), to continue project operations until the Commission issues someone else a license for the project or otherwise orders disposition of the project.

If the project is subject to section 15 of the FPA, notice is hereby given that an annual license for Project No. 9100 is issued to the licensee for a period effective June 1, 2017 through May 31, 2018 or until the issuance of a new license for the project or other disposition under the FPA, whichever comes first. If issuance of a new license (or other disposition) does not take place on or before May 31, 2018, notice is hereby given that, pursuant to 18 CFR 16.18(c), an annual license under section 15(a)(1) of the FPA is renewed automatically without further order or notice by the Commission, unless the Commission orders otherwise.

If the project is not subject to section 15 of the FPA, notice is hereby given that the licensee, Riverdale Power & Electric Co., Inc., is authorized to continue operation of the Riverdale Mills Hydroelectric Project, until such time as the Commission acts on its application for a subsequent license.

Dated: June 6, 2017.

Kimberly D. Bose,
Secretary.

BILLING CODE 6717-01-P

FEDERAL COMMUNICATIONS COMMISSION

[OMB 3060-xxxx]

Information Collection Being Reviewed by the Federal Communications Commission

AGENCY: Federal Communications Commission.

ACTION: Notice and request for comments.

SUMMARY: As part of its continuing effort to reduce paperwork burdens, and as required by the Paperwork Reduction Act of 1995 (PRA), the Federal Communications Commission (FCC or Commission) invites the general public and other Federal agencies to take this opportunity to comment on the following information collections. Comments are requested concerning:

Whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; the accuracy of the Commission's burden estimate; ways to enhance the quality, utility, and clarity of the information collected; ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology; and ways to further reduce the information collection burden on small business concerns with fewer than 25 employees.

The FCC may not conduct or sponsor a collection of information unless it displays a currently valid Office of Management and Budget (OMB) control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the PRA that does not display a valid OMB control number.

DATES: Written comments should be submitted on or before August 11, 2017. If you anticipate that you will be submitting comments, but find it difficult to do so within the period of time allowed by this notice, you should advise the contacts below as soon as possible.

ADDRESSES: Direct all PRA comments to Cathy Williams, FCC, via email: PRA@fcc.gov and to Cathy.Williams@fcc.gov.

FOR FURTHER INFORMATION CONTACT: For additional information about the information collection, contact Cathy Williams at (202) 418-2918.

SUPPLEMENTARY INFORMATION: As part of its continuing effort to reduce paperwork burdens, and as required by the PRA, 44 U.S.C. 3501-3520, the FCC invites the general public and other Federal agencies to take this opportunity to comment on the following information collections. Comments are requested concerning: Whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; the accuracy of the Commission's burden estimate; ways to enhance the quality, utility, and clarity of the information collected; ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology; and ways to further reduce the information collection burden on small business concerns with fewer than 25 employees.
OMB Control Number: 3060-xxxx.

Title: Sections 1.9020(n), 1.9030(m), 1.9035(o), Community notification requirement for certain contraband interdiction systems; Section 20.18(r), Contraband Interdiction System (CIS) requirement; Section 20.23(a), Good faith negotiations.

Form No.: N/A.

Type of Review: New collection.

Respondents: Businesses or other for profit entities and state, local or Tribal Governments.

Number of Respondents and Responses: 26 respondents and 28 responses.

Estimated Time per Response: 8-16 hours.

Frequency of Response: On occasion reporting requirement.

Obligation to Respond: There is no obligation to respond; response required to obtain benefits. The statutory authority for this collection is contained in 47 U.S.C. 151, 152, 154(i), 154(j), 301, 302a, 303, 307, 308, 309, 310, and 332.

Total Annual Burden: 325 hours.

Annual Cost Burden: No cost.

Privacy Act Impact Assessment: No impact(s).

Nature and Extent of Confidentiality: There is no need for confidentiality with this collection of information.

Needs and Uses: On March 24, 2017, the Federal Communications Commission released a Report and Order, *Promoting Technological Solutions to Combat Contraband Wireless Devices in Correctional Facilities*, GN Docket No. 13-111, FCC 17-25 (Report and Order), in which the Commission took important steps to help law enforcement combat the serious threats posed by the illegal use of contraband wireless devices by inmates. Across the country, inmates have used contraband devices to order hits, run drug operations, operate phone scams, and otherwise engage in criminal activity that endangers prison employees, other inmates, and innocent members of the public. In the Report and Order, the Commission streamlined the process of deploying contraband wireless device interdiction systems—systems that use radio communications signals requiring Commission authorization—in correctional facilities. The action will reduce the cost of deploying solutions and ensure that they can be deployed more quickly and efficiently. In particular, the Commission waived certain filing requirements and provided for immediate approval of the spectrum lease applications needed to operate these systems.

The effectiveness of Contraband Interdiction System (CIS) deployment requires all carriers in the relevant area

of the correctional facility to execute a spectrum lease with the CIS provider. Even if the major Commercial Mobile Radio Services (CMRS) licensees negotiate expeditiously and in good faith, if one CMRS licensee in the area fails to engage in lease negotiations in a reasonable time frame or at all, the CIS solution will not be effective. The lack of cooperation of even a single wireless provider in a geographic area of a correctional facility can result in deployment of a system with insufficient spectral coverage, subject to abuse by inmates in possession of contraband wireless devices operating on frequencies not covered by a spectrum lease agreement. While some carriers have been cooperative, it is imperative that all CMRS licensees be required to engage in lease negotiations in good faith and in a timely fashion. Therefore, the Commission adopted a rule requiring that CMRS licensees negotiate in good faith with entities seeking to deploy a CIS in a correctional facility. If, after a 45 day period, there is no agreement, CIS providers seeking Special Temporary Authority (STA) to operate in the absence of CMRS licensee consent may file a request for STA with the Wireless Telecommunications Bureau (WTB), with a copy served at the same time on the CMRS licensee, accompanied by evidence demonstrating its good faith, and the unreasonableness of the CMRS licensee's actions, in negotiating an agreement. The CMRS licensee may then file a response with WTB, with a copy served on the CIS provider at that time, within 10 days of the filing of the STA request.

The supplementary information provided along with the STA application by the CIS provider will be used by WTB to determine whether the CIS provider has negotiated in good faith, yet the CMRS licensee has not negotiated in good faith. The CMRS licensee may use the evidence accompanying the STA application to craft a response. WTB will analyze the evidence from the CIS providers and the CMRS licensee's response to determine whether to issue STA to the entity seeking to deploy the CIS.

The Commission explored whether it should impose a requirement that the community in the vicinity of a correctional facility where a CIS is installed be notified of the installation. The Commission explained that a goal of the proceeding is to expedite the deployment of technological solutions to combat the use of contraband wireless devices, not to impose unnecessary barriers to CIS deployment. Consistent with that goal, the

Commission found that a flexible and community-tailored notification requirement for certain CISs outweighed the minimal burden of notification and furthered the public interest. After careful consideration of the record, the Commission imposed a rule that, 10 days prior to deploying a CIS that prevents communications to or from mobile devices, a lessee must notify the community in which the correctional facility is located, and the Commission amended its spectrum leasing rules to reflect this requirement. The Commission agreed with commenters that support notification of the surrounding community due to the potential for accidental call blocking and the public safety issues involved. The information provided in the notification will put the houses and businesses in the surrounding community on notice that a CIS will be deployed in the vicinity that has the potential for accidental call blocking.

Acknowledging the importance of ensuring the availability of emergency 911 calls from correctional facilities, and the fact that delivering emergency calls to public safety answering points (PSAPs) facilitates public safety services and generally serves the public interest, the Commission amended its rules to require that CIS providers regulated as private mobile radio service (PMRS) must route all 911 calls to the local PSAP. That said, the Commission also acknowledged the important role state and local public safety officials play in the administration of the 911 system. Accordingly, although the CIS provider is required to pass through emergency 911 calls, the PSAPs can inform the CIS provider that they do not want to receive calls from a given correctional facility. By allowing the PSAPs to decline the emergency 911 calls, the Commission recognized the reported increased volume of PSAP harassment through repeated inmate fraudulent 911 calls. The information provided by the PSAP or emergency authority will result in the CIS provider not passing through E911 calls from a particular correctional facility.

Federal Communications Commission.

Marlene H. Dortch,

Secretary, Office of the Secretary.
