Monitoring data on SPF model will allow SAMHSA project officers to systematically collect data to monitor their grant program performance and outcomes along with grantees technical assistance needs. In addition to assessing activities related to the SPF steps, the performance monitoring instruments covered in this statement collect data to assess the following grantee required specific performance measures:

- Number of training and technical assistance activities per funded community provided by the grantee to support communities;
- Reach of training and technical assistance activities (numbers served) provided by the grantee;
- Percentage of subrecipient communities that submit data to the grantee data system;
- Number of sub-recipient communities that improved on one or more targeted NOMs indicators (Outcome);
- Number of grantees who integrate Prescription Drug Monitoring Data into their program needs assessment.

Changes to this package include the following:

- Standard language for all DSP–MRT questions;
- New disparities module to align with SAMHSA’s monitoring requirements;
- Updated technical assistance section;
- Deletion of cost questions specific to funding amounts and in-kind resources;
- Deletion of advisory council and other workgroup sub-committee questions;
- Addition of Section A specific to SPF-Rx questions;
- Addition of Section B specific to PDO questions;

• State Mental Health Authority Interview: This is a one-time semi-structured interview with state mental health leadership in the states where the 32 sites in the evaluation are located. The interview focuses on their thoughts and opinions about context in which CSC programs are implemented within their state and the state’s role in the implementation of the CSC programs.
• Agency Director/Administrator Interview: This semi-structured interview will be conducted twice with Agency Director/Administrators at each of the 32 CSC sites in the evaluation about the successes and challenges involved in implementing the CSC program.
• Coordinated Specialty Care (CSC) Staff Interview: This semi-structured interview will be conducted twice with CSC Staff at each of the 32 CSC sites in the evaluation about the successes and challenges involved in implementing the CSC program.
• Coordinated Specialty Care (CSC) Participant Interview: This semi-structured interview will be conducted twice with participants involved in programs at the 32 CSC sites in the evaluation. The purpose of the interview is to gather participant input on how CSC programs are operating and their thoughts and opinions about successes and challenges while participating in the CSC program.

In addition, each site will provide the evaluation team with administrative data on participant demographics and outcomes (e.g., employment status, educational status, diagnosis, living situation, quality of life, symptoms).

**International Trade Commission**

**Stainless Steel Wire Rod From India**

**DETERMINATION**

On the basis of the record developed in the subject five-year review, the United States International Trade Commission ("Commission") determines, pursuant to the Tariff Act of 1930 ("the Act"), that revocation of the antidumping duty order on stainless steel wire rod from India would be likely to lead to continuation or recurrence of material injury to an industry in the United States within a reasonably foreseeable time.

**BACKGROUND**

The Commission, pursuant to section 751(c) of the Act (19 U.S.C. 1675(c)), instituted this review on December 1, 2016 (81 FR 86728) and determined on March 6, 2017 that it would conduct an expedited review (82 FR 16231, April 3, 2017).

The Commission made this determination pursuant to section 751(c) of the Act (19 U.S.C. 1675(c)). It completed and filed its determination in this review on June 6, 2017. The views of the Commission are contained in USITC Publication 4695 (June 2017), entitled Stainless Steel Wire Rod from India: Investigation No. 731–TA–638 (Fourth Review).

Lisa R. Barton,
Secretary to the Commission.
