SUPPLEMENTARY INFORMATION:

I. Introduction

Under section 2.106 of title 10 of the *Code of Federal Regulations* (10 CFR), the NRC is providing notice of the issuance of combined license NPF-103 to Virginia Electric and Power Company. Under 10 CFR 50.102(c), the NRC is providing notice of the Commission's Memorandum and Order documenting its final decision on the uncontested hearing, which serves as

the ROD in this proceeding. With respect to the application for combined licenses filed by Virginia Electric and Power Company, the NRC finds that the applicable standards and requirements of the Atomic Energy Act of 1954, as amended, (AEA) and the Commission's regulations have been met. The NRC finds that any required notifications to other agencies or bodies have been duly made and that there is reasonable assurance that the facilities will be constructed and will operate in conformity with the license, the provisions of the AEA, and the Commission's regulations. Furthermore, the NRC finds that Virginia Electric and Power Company is technically and financially qualified to engage in the activities authorized, and that issuance of the licenses will not be inimical to the common defense and security or to the health and safety of the public. Finally, the NRC has determined that the findings required by subpart A of 10 CFR part 51 have been made.

Accordingly, the combined license was issued on June 2, 2017, and became effective immediately.

II. Further Information

The NRC has prepared a Final Safety Evaluation Report (FSER) and Final Supplemental Environmental Impact Statement (FSEIS) that document the information reviewed and the NRC's conclusion. The Commission has also issued its memorandum and order documenting its final decision on the uncontested hearing held on March 23, 2017, which serves as the ROD in this proceeding. The NRC also prepared a document summarizing the ROD to accompany its actions on the combined license application; this "Summary ROD" incorporates by reference materials contained in the FSEIS. The FSER, FSEIS, Summary ROD, and accompanying documentation included in the combined license package, as well as the Commission's hearing decision and Summary ROD, are available online in the ADAMS Public Document collection at <http://www.nrc.gov/reading-rm/adams.html>. From this site, persons can access the NRC's ADAMS, which provides text and image files of NRC's public documents.

In the Matter of Florida Power & Light Company (Turkey Point Units 6 and 7)

June 8, 2017.

Before Administrative Judges: E. Roy Hawkens, Chairman, Dr. Michael F. Kennedy, Dr. William C. Burnett

Notice and Order

(Scheduling and Providing Instructions for Oral Argument)

Pending before this Licensing Board is a request for a hearing and petition to intervene submitted on April 18, 2017 by the City of Miami, the Village of Pinecrest, and the City of South Miami (Petitioners),¹ Petitioners' proffered contention alleges that:

The [Final Safety Evaluation Report (FSER)] is deficient in concluding that [Florida Power & Light Company (FPL)] has demonstrated that it possesses or has reasonable assurance of obtaining the funds necessary to cover estimated construction costs and related fuel cycle costs and FPL has failed to indicate source(s) of funds to cover these costs.²

After reviewing the petition and the subsequently filed related pleadings,³

¹ See Petition for Leave to Intervene in a Hearing on [FPL's] Combined Construction and Operating License Application for Turkey Point Units 6 & 7 and File a New Contention (Apr. 18, 2017) [hereinafter Petition].

² Petition at 7.

³ See NRC Staff's Response to New Arguments Raised in Petitioners' Reply (June 1, 2017); Petitioners' Reply to NRC Staff and FPL's Answers to Petition for Leave to Intervene in a Hearing on [FPL's] Combined Construction and Operating License Application for Turkey Point Units 6 & 7

the Board has determined that oral argument will assist it in resolving the issues presented. The Board will hold a telephonic oral argument concerning contention admissibility on Tuesday, June 20, 2017, at 2:00 p.m. EDT.

The Board will hear argument from counsel for the parties in the following order: (1) Petitioners; (2) FPL; and (3) the NRC Staff. Petitioners will have 60 minutes of argument time, and they may reserve up to 20 minutes of that time for rebuttal. FPL and the NRC Staff will each have 30 minutes of argument time.

The following list includes topics the parties should address during oral argument. This list is not intended to be exclusive.

- Whether Westinghouse's bankruptcy filing, the resulting alleged termination of its Reservation Agreement with FPL, or the lack of a construction agreement between Westinghouse and FPL raise a genuine dispute on a material issue of law or fact with FPL's application for a combined license
- Whether FPL's ability to recover costs is material to the NRC Staff's determination of FPL's financial qualifications
- Whether Westinghouse's bankruptcy raises a genuine dispute on a material issue if FPL's ability to recover costs is not material to the NRC Staff's determination of FPL's financial qualifications
- The extent of the NRC Staff's review of an applicant's financial qualifications and the degree to which an applicant must be financially qualified to engage in construction of new nuclear units
- The feasibility of the Turkey Point project following Westinghouse's bankruptcy
- The effect on the petition of FPL's May 1 filing to the Florida Public Service Commission to request a deferral of nuclear cost recovery
- The effect on the petition of FPL's May 1 representation to the Florida Public Service Commission that the Turkey Point project is on a "pause"

On or before Friday, June 16, parties shall provide by email to the Board and the service list the name of the attorney

and File a New Contention (May 22, 2017); NRC Staff Answer to Petition for Leave to Intervene and [File] New Contention (May 15, 2017); [FPL's] Answer Opposing [Petitioners'] Petition to Intervene and Request for Hearing Regarding the Combined Construction and Operating License Application for Turkey Point Units 6 & 7 (May 15, 2017).
