

229, WT Docket No. 96–86, WT Docket No. 07–166, FCC No. 07–132 (2007 Report and Order), which established rules governing wireless licenses in the 700 MHz spectrum. The 700 MHz spectrum was made available for wireless services, including public safety and commercial services, as a result of the digital television (“DTV”) transition. Title III of the Deficit Reduction Act of 2005 (“DRA”), Public Law 109–171, 120 Stat. 4 (2006), (titled the Digital Television Transition and Public Safety Act of 2005 [“DTV Act”]), accelerated the DTV transition completion date to February 17, 2009.

In light of the change to the DTV transition, as well as developments in commercial wireless communications and evolving needs of the public safety community, the Commission re-examined its 700 MHz rules and combined the following three interrelated proceedings: (1) The 700 MHz Commercial Services proceeding, 71 FR 48506 (2006), (2) the 700 MHz Guard Bands proceeding, 71 FR 57455, and (3) the 700 MHz Public Safety proceeding, 72 FR 1201 (2007); 71 FR 17786 (2006), which yielded in April 2007 both a Report and Order and Further Notice of Proposed Rulemaking (the 700 MHz Report and Order, 72 FR 27688 (2007), and 700 MHz Further NPRM, 72 FR 24238 (2007), respectively. (See FCC 07–72.)

Among the many actions taken in the 2007 Report and Order, the Commission: Adopted a mix of geographic license area sizes for the commercial services, including Cellular Market Areas (CMAs), Economic Areas (EAs), and Regional Economic Areas (REAGs); eliminated rules that permit comparative hearings for license renewal, and clarified the requirements and procedures of the license renewal process; shifted the license termination date from January 15, 2015 to February 17, 2019, thus granting licensees an initial license term not-to-exceed ten years after the end of the DTV transition; adopted a power spectral density model to provide greater operational flexibility to licensees operating at wider bandwidths; continued to allow a 50 kW effective radiated power level for base station operations for auctioned licenses and unpaired spectrum in the lower 700 MHz band (TV Channels 52–59); modified power limits for upper 700 MHz band (TV Channels 60–69), and; permitted 700 MHz licensees to meet radiated power limits on an average, rather than peak, basis.

Further, in order to promote access to spectrum and the provision of service, the 2007 Report and Order adopted

revised performance requirements for certain 700 MHz licensees, including the use of interim and end-of-term benchmarks. The 2007 Report and Order also imposed interim reporting requirements on licensees to provide the Commission with information concerning the status of licensees’ efforts to meet performance requirements and the manner in which their spectrum is being utilized.

On February 20, 2009, the Commission adopted a Second Report and Order and Notice of Proposed Rulemaking in MB Docket No. 09–17, MB Docket No. 07–148, MB Docket No. 07–91, MB Docket No. 08–255, WT Docket No. 06–150, WT Docket No. 06–169, PS Docket No. 06–229, WT Docket No. 96–86, FCC 09–11, to implement the DTV Delay Act, Public Law 111–4, 123 Stat. 112 (2009), which extended the DTV transition deadline from February 17, 2009, to June 12, 2009. Steps taken by the Commission to conform with the DTV Delay Act included the extension of applicable 700 MHz construction benchmarks and reporting requirements by a period of 116 days.

On October 29, 2013, the Commission issued a Report and Order and Order of Proposed Modification in WT Docket No. 12–69 and WT Docket No. 12–332, FCC 13–136 (700 MHz Interoperability Order), in which it revised certain technical rules and extended or waived construction deadlines for certain licenses in order to resolve issues resulting from the lack of interoperability in the Lower 700 MHz Band. The Report and Order did not revise any of the information collection requirements that are contained in this collection. It simply waived or revised the dates on which the information collection requirements are required.
