SUPPLEMENTARY INFORMATION:

I. Background

The Institute of Museum and Library Services is the primary source of federal support for the Nation's 123,000 libraries and 35,000 museums. The Institute's mission is to inspire libraries and museums to advance innovation, learning and civic engagement. The Institute works at the national level and in coordination with state and local organizations to sustain heritage, culture, and knowledge; enhance learning and innovation; and support professional development. IMLS is responsible for identifying national needs for and trends in museum, library, and information services; measuring and reporting on the impact and effectiveness of museum, library and information services throughout the United States, including programs conducted with funds made available by IMLS; identifying, and disseminating information on, the best practices of such programs; and developing plans to improve museum, library and information services of the United States and strengthen national, State, local, regional, and international communications and cooperative networks (20 U.S.C. Chapter 72, 20 U.S.C. 9108).

II. Current Actions

The purpose of this collection is to build the capacity of the "The Roles of Libraries and Museums as Enablers of Community Vitality and Co-Creators of Positive Community Change Program" grantee cohort to successfully execute their projects while at the same time documenting community engagement and partnership processes, and identifying the outcomes of the projects' interventions. The Roles of Libraries and Museums as Enablers of Community Vitality and Co-Creators of Positive Community Change Program Evaluation is designed to identify the factors, resources, partnerships, and practices that together increase the capacity of libraries, archives, and museums to successfully serve the needs of their local communities. An evaluation of the 9–20 museum and library projects can produce frameworks and methodologies that the library and

museum fields can use to more deeply collaborate with their communities.

The evaluation is intended to support the work of Community Catalyst grantee project teams and those in the museum and library fields who are interested in local community-based interventions and partnerships. Methods will include qualitative and quantitative data collection via a developmental evaluation approach. Data will be collected through activities such as online and/or paper and pencil surveys, phone interviews, in-person interviews, focus groups, video or photographs, and documentation of artifacts used by grantees in their work.

II. Background

In accordance with the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35), the NRC is requesting public comment on its intention to request the OMB’s approval for the information collection summarized below.

1. *The title of the information collection*: Licensing Requirements for the Independent Storage of Spent Nuclear Fuel, High-Level Radioactive Waste and Reactor-Related Greater than Class C Waste.

2. *OMB approval number*: 3150–0132.

3. *Type of submission*: Extension.

4. *The form number, if applicable*: Not applicable.

5. *How often the collection is required or requested*: Required reports are collected and evaluated on a continuing basis as events occur; submittal of reports varies from less than one per year under some rule sections to up to an average of about 80 per year under other rule sections. Applications for new licenses, certificates of compliance (CoCs), and amendments may be submitted at anytime; applications for renewal of licenses are required every 40 years for an independent spent fuel storage installation (ISFSI) or CoC effective May 21, 2011, and every 40 years for a monitored retrievable storage (MRS) facility.

6. *Who will be required or asked to respond*: Certificate holders and applicants for a CoC for spent fuel storage casks; licensees and applicants for a license to possess power reactor spent fuel and other radioactive materials associated with spent fuel storage in an ISFSI; and the U.S. Department of Energy (DOE) for licenses to receive, transfer, package and possess power reactor spent fuel, high-level waste, and other radioactive materials associated with spent fuel and high-level waste storage in an MRS.

7. *The estimated number of annual responses*: 839.3 (607.3 reporting responses + 150 third-party disclosure responses + 82 recordkeepers).

8. *The estimated number of annual respondents*: 82.

9. *The estimated number of hours needed annually to comply with the information collection requirement or request*: 79,040 hours (33,909 hours reporting + 42,319 hours recordkeeping + 2,812 hours third-party disclosure).

10. *Abstract*: Part 72 of title 10 of the *Code of Federal Regulations*, establishes mandatory requirements, procedures, and criteria for the issuance of licenses to receive, transfer, and possess power reactor spent fuel and other radioactive materials associated with spent fuel storage in an ISFSI, as well as requirements for the issuance of licenses to DOE to receive, transfer, package, and possess power reactor spent fuel and high-level radioactive waste, and other associated radioactive materials in an MRS. The information in the applications, reports, and records is

used by the NRC to make licensing and other regulatory determinations.

II. Specific Requests for Comments

The NRC is seeking comments that address the following questions:

1. Is the proposed collection of information necessary for the NRC to properly perform its functions? Does the information have practical utility?

2. Is the estimate of the burden of the information collection accurate?

3. Is there a way to enhance the quality, utility, and clarity of the information to be collected?

4. How can the burden of the information collection on respondents be minimized, including the use of automated collection techniques or other forms of information technology?

Dated at Rockville, Maryland, this 12th day of May 2017.

For the Nuclear Regulatory Commission.
