

state agencies, tribal governments, local governments, colleges and universities, non-profit organizations, for-profit organizations, and faith-based organizations. The purpose of the solicitation template is to provide a framework to develop program-specific announcements soliciting applications for funding. A program solicitation outlines the specifics of the funding program; describes requirements for eligibility; instructs an applicant on the necessary components of an application under a specific program (e.g., project activities, project abstract, project timeline, proposed budget, etc.); outlines program evaluation and performance measures; explains selection criteria and the review process; and provides registration dates, deadlines, and instructions on how to apply within the designated application system.

The substantive revision to this collection include three items: (1) The OJP Budget Detail Worksheet; (2) the Coordinated Tribal Assistance Solicitation (CTAS) Tribal Narrative Profile, Budget Detail Worksheet and Demographic Form; and (3) the Financial Management and System of Internal Controls Questionnaire (FCQ).

The now mandatory OJP Budget Detail Worksheet (BDW) will be streamlined and automated with the intent of reducing the burden on public submissions. The current PDF format will be converted to Excel, providing ease of entry and more accurate detail of budget information. Additionally, the BDW has taken the "consultant/contracts" section and broken the details out into two separate sections, "subrecipient/subgrants" and "procurement contracts" to better categorize the details of proposed consultants. Updated and clearer guidance will also be added to better explain how to complete the BDW and the level of detail required in each section.

The Coordinated Tribal Assistance Solicitation (CTAS) Tribal Community and Justice Profile is designed to allow the tribe to describe its community strengths, resources, challenges, and needs. The applicant may enter as much or as little text as needed to fully describe the community. The CTAS BDW and Demographics Form will be updated to align with the BDW streamlining and automation efforts. In addition to those revisions, the Demographics section of the CTAS BDW is designed to capture the unique characteristics of each tribe in order to paint a more detailed picture of each tribe's strengths and challenges. It requests applicants to provide

information regarding tribe information; Uniform Crime Report data; law enforcement information; and facilities, capacities, and capabilities information.

The revised FCQ will include five new questions: Three which are required by legislation regarding nonprofit status; one which is simply a clarification of an existing approved question regarding subawards and procurement contracts; and one regarding executive compensation that is also required by legislation and was already part of the approved OJP solicitation template but was requiring a separate email submission to OJP. Adding it to the FCQ will save the applicant time and effort.

The primary respondents for all three revisions are the same, as listed above. While use of the CTAS BDW and Demographics form is not mandatory, it is required that all applicants ensure that all budget and demographic information requested in the form is included in whichever format the applicant chooses to use. OJP intends to require the same with the OJP BDW. The FCQ is also required of all application submissions that do not already have an updated FCQ on file within the last 3 years.

5. *An estimate of the total number of respondents and the amount of time estimated for an average respondent to respond:* It is estimated that information will be collected annually from approximately 10,000 applicants. Annual cost to the respondents is based on the number of hours involved in preparing and submitting a complete application package. Mandatory requirements for an application under the OJP Standard Solicitation Template include a program narrative; budget details and narrative, via the OJP standard BDW; Applicant Disclosure of Pending Applications; Applicant Disclosure of High Risk Status; and the FCQ. With the exception of the Tribal Narrative Profile and added Demographic form, the mandatory requirements for an application under the CTAS Solicitation Template are the same as those for OJP. Optional requirements can be made mandatory depending on the type of program to include, but not limited to: Project abstract, indirect cost rate agreement, tribal authorizing resolution, timelines, logic models, memoranda of understanding, letters of support, resumes, and research and evaluation independence and integrity. Public reporting burden for this collection of information is estimated at up to 32 hours per application. The 32-hour estimate is based on the amount of time to prepare a research and evaluation

proposal, one of the most time intensive types of application solicited by OJP. The estimate of burden hours is based on OJP's prior experience with the research application submission process.

6. *An estimate of the total public burden (in hours) associated with the collection:* The estimated public burden associated with this application is 320,000 hours.

If additional information is required contact: Melody Braswell, Department Clearance Officer, United States Department of Justice, Justice Management Division, Policy and Planning Staff, Two Constitution Square, 145 N Street NE., 3E.405A, Washington, DC 20530.

Dated: June 12, 2017.

Melody Braswell,

Department Clearance Officer for PRA, U.S. Department of Justice.

BILLING CODE 4410-18-P

DEPARTMENT OF LABOR

Office of the Assistant Secretary for Administration and Management; Agency Information Collection Activities; Comment Request; Department of Labor; Generic Clearance for the Collection of Qualitative Feedback on Agency Service Delivery

ACTION: Notice.

SUMMARY: The Department of Labor (DOL) is soliciting comments concerning a proposed extension for the authority to conduct the information collection request (ICR) titled, "Department of Labor Generic Clearance for the Collection of Qualitative Feedback on Agency Service Delivery." This comment request is part of continuing Departmental efforts to reduce paperwork and respondent burden in accordance with the Paperwork Reduction Act of 1995 (PRA). This collection has been developed as part of a Federal Government-wide effort to streamline the process for seeking feedback from the public on service delivery.

DATES: Consideration will be given to all written comments received by August 15, 2017.

ADDRESSES: A copy of this ICR with applicable supporting documentation; including a description of the likely respondents, proposed frequency of response, and estimated total burden may be obtained free of charge by contacting Michel Smyth by telephone

at 202-693-4129, TTY 202-693-8064, (these are not toll-free numbers) or by email at DOL_PRA_PUBLIC@dol.gov.

Submit written comments about, or requests for a copy of, this ICR by mail or courier to the U.S. Department of Labor-OASAM, Office of the Chief Information Officer, Attn: Departmental Information Compliance Management Program, Room N1301, 200 Constitution Avenue NW., Washington, DC 20210; or by email: DOL_PRA_PUBLIC@dol.gov.

FOR FURTHER INFORMATION CONTACT:

Contact Michel Smyth by telephone at 202-693-4129 (this is not a toll-free number) or by email at DOL_PRA_PUBLIC@dol.gov.

Authority: 44 U.S.C. 3506(c)(2)(A).

SUPPLEMENTARY INFORMATION: The DOL, as part of continuing efforts to reduce paperwork and respondent burden, conducts a pre-clearance consultation program to provide the general public and Federal agencies an opportunity to comment on proposed and/or continuing collections of information before submitting them to the OMB for final approval. This program helps to ensure requested data can be provided in the desired format, reporting burden (time and financial resources) is minimized, collection instruments are clearly understood, and the impact of collection requirements can be properly assessed.

This information collection activity provides a means to garner qualitative customer and stakeholder feedback in an efficient, timely manner, in accordance with the Administration's commitment to improve service delivery. By, "qualitative feedback," the DOL means information that provides useful insights on perceptions and opinions, but does not entail statistical surveys that yield quantitative results that can be generalized to the population of study. This feedback will provide insights into customer or stakeholder perceptions, experiences, and expectations; provide an early warning of issues with service; or focus attention on areas where communication, training, or changes in operations might improve delivery of products or services. These collections will allow for ongoing, collaborative, and actionable communications between the DOL and its customers and stakeholders. It will also allow feedback to contribute directly to the improvement of program management.

The solicitation of feedback will target areas such as timeliness, appropriateness, accuracy of information, courtesy, efficiency of service delivery, and resolution of issues with service delivery. Responses

will be assessed to plan and inform efforts to improve or maintain the quality of service offered to the public. If this information were not collected, vital feedback from customers and stakeholders on DOL services would be unavailable.

The DOL will only submit a collection for approval under this generic clearance if it meets the following conditions:

- The collection is voluntary;
- The collection is low-burden for respondents (based on considerations of total burden hours, total number of respondents, or burden-hours per respondent) and is low-cost for both the respondents and the Federal Government;
- The collection is non-controversial and does not raise issues of concern to other Federal agencies;
- The collection is targeted to the solicitation of opinions from respondents who have experience with the program or may have experience with the program in the near future;
- Personally identifiable information is collected only to the extent necessary and is not retained;
- Information gathered will be used only internally for general service improvement and program management purposes and is not intended for release outside of the agency;
- Information gathered will not be used for the purpose of substantially informing influential policy decisions; and
- Information gathered will yield qualitative information; the collection will not be designed or be expected to yield statistically reliable results or be used as though the results are generalizable to the population of study.

Feedback collected under this generic clearance provides useful information, but it does not yield data that can be generalized to the overall population. This type of generic clearance for qualitative information will not be used for quantitative information collections that are designed to yield reliably actionable results, such as monitoring trends over time or documenting program performance. Such data uses would require more rigorous designs that address: The target population to which generalizations would be made, the sampling frame, the sample design (including stratification and clustering), the precision requirements or power calculations that would justify the proposed sample size, the expected response rate, methods for assessing potential non-response bias, the protocols for data collection, and any testing procedures that were or would be undertaken prior to fielding the

study. Depending on the degree of influence the results are likely to have, such collections could still be eligible for submission for other generic mechanisms that are designed to yield quantitative results. As a general matter, information collections will not result in any new system of records containing privacy information and will not ask questions of a sensitive nature, such as sexual behavior and attitudes, religious beliefs, and other matters that are commonly considered private.

This information collection is subject to the PRA. A Federal agency generally cannot conduct or sponsor a collection of information, and the public is generally not required to respond to an information collection, unless it is approved by the OMB under the PRA and displays a currently valid OMB Control Number. In addition, notwithstanding any other provisions of law, no person shall generally be subject to penalty for failing to comply with a collection of information that does not display a valid Control Number. See 5 CFR 1320.5(a) and 1320.6. The DOL obtains OMB approval for this information collection under Control Number 1225-0088.

OMB authorization for an ICR cannot be for more than three (3) years without renewal, and the current approval for this collection is scheduled to expire on August 31, 2017. The DOL seeks to extend PRA authorization for this information collection for three (3) more years, without any change to existing requirements.

Interested parties are encouraged to provide comments to the contact shown in the **ADDRESSES** section. Comments must be written to receive consideration, and they will be summarized and included in the request for OMB approval of the final ICR. In order to help ensure appropriate consideration, comments should mention OMB Control Number 1225-0088.

Submitted comments will also be a matter of public record for this ICR and posted on the Internet, without redaction. The DOL encourages commenters not to include personally identifiable information, confidential business data, or other sensitive statements/information in any comments.

The DOL is particularly interested in comments that:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and

- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

Agency: DOL–OASAM.

Type of Review: Extension without change of a currently approved collection.

Title of Collection: Department of Labor Generic Clearance for the Collection of Qualitative Feedback on Agency Service Delivery.

OMB Control Number: 1225–0088.

Affected Public: Individuals or Households; State Local, and Tribal Governments; and Private Sector—businesses or other for-profits, farms, and not for profit institutions.

Estimated Number of Respondents: 380,000.

Frequency: Once.

Total Estimated Annual Responses: 380,000.

Estimated Average Time per Response: Various, averaging 6 minutes.

Estimated Total Annual Burden

Hours: 38,000 hours.

Total Estimated Annual Other Cost Burden: \$0.

Dated: June 12, 2017.

Michel Smyth,

Departmental Clearance Officer.

BILLING CODE 4510–23–P

DEPARTMENT OF LABOR

Mine Safety and Health Administration

[OMB Control No. 1219–0007]

Proposed Extension of Information Collection; Mine Accident, Injury, and Illness Report and Quarterly Mine Employment and Coal Production Report

AGENCY: Mine Safety and Health Administration, Labor.

ACTION: Request for public comments.

SUMMARY: The Department of Labor, as part of its continuing effort to reduce paperwork and respondent burden, conducts a pre-clearance consultation

program to provide the general public and Federal agencies with an opportunity to comment on proposed collections of information in accordance with the Paperwork Reduction Act of 1995. This program helps to assure that requested data can be provided in the desired format, reporting burden (time and financial resources) is minimized, collection instruments are clearly understood, and the impact of collection requirements on respondents can be properly assessed. Currently, the Mine Safety and Health Administration (MSHA) is soliciting comments on the information collection for the Mine Accident, Injury, and Illness Report and Quarterly Mine Employment and Coal Production Report.

DATES: All comments must be received on or before August 15, 2017.

ADDRESSES: Comments concerning the information collection requirements of this notice may be sent by any of the methods listed below.

- *Federal E-Rulemaking Portal:* <http://www.regulations.gov>. Follow the on-line instructions for submitting comments for docket number MSHA–2017–0016.

- *Regular Mail:* Send comments to USDOL–MSHA, Office of Standards, Regulations, and Variances, 201 12th Street South, Suite 4E401, Arlington, VA 22202–5452.

- *Hand Delivery:* USDOL–Mine Safety and Health Administration, 201 12th Street South, Suite 4E401, Arlington, VA 22202–5452. Sign in at the receptionist's desk on the 4th floor via the East elevator.

FOR FURTHER INFORMATION CONTACT:

Sheila McConnell, Director, Office of Standards, Regulations, and Variances, MSHA, at MSHA.information.collections@dol.gov (email); (202) 693–9440 (voice); or (202) 693–9441 (facsimile).

SUPPLEMENTARY INFORMATION:

I. Background

Section 103(h) of the Federal Mine Safety and Health Act of 1977 (Mine Act), 30 U.S.C. 813(h), authorizes MSHA to collect information necessary to carry out its duty in protecting the safety and health of miners. Further, Section 101(a) of the Mine Act, 30 U.S.C. 811, authorizes the Secretary of Labor to develop, promulgate, and revise as may be appropriate, improved mandatory health or safety standards for the protection of life and prevention of injuries in coal or other mines.

The reporting and recordkeeping provisions in 30 CFR part 50, Notification, Investigation, Reports and Records of Accidents, Injuries and

Illnesses, Employment and Coal Production in Mines, are essential elements in MSHA's Congressional mandate to reduce work-related injuries and illnesses among the nation's miners.

Section 50.10 requires mine operators and independent contractors to immediately notify MSHA in the event of an accident. This immediate notification is critical to MSHA's timely investigation and assessment of the cause of the accident.

Section 50.11 requires that the mine operator or independent contractor investigate each accident and occupational injury and prepare a report. The mine operator or independent contractor may not use MSHA Form 7000–1 as the investigation report, except if the operator or contractor employs fewer than 20 miners and the injury is not related to an accident.

Section 50.20 requires mine operators and independent contractors to report each accident, injury, and illness to MSHA on Form 7000–1 within 10 working days after an accident or injury has occurred or an occupational illness has been diagnosed. The use of MSHA Form 7000–1 provides for uniform information gathering across the mining industry.

Section 50.30 requires that all mine operators and independent contractors working on mine property report employment to MSHA quarterly on Form 7000–2, and that coal mine operators and independent contractors also report coal production.

Accident, injury, and illness data, when correlated with employment and production data, provide information that allows MSHA to improve its safety and health enforcement programs, focus its education and training efforts, and establish priorities for its technical assistance activities in mine safety and health. Maintaining a current database allows MSHA to identify and direct increased attention to those mines, industry segments, and geographical areas where hazardous trends are developing. This could not be done effectively using historical data. The information collected under part 50 is the most comprehensive and reliable occupational data available concerning the mining industry.

Section 103(d) of the Mine Act mandates that each accident be investigated by the operator to determine the cause and means of preventing a recurrence. Records of such accidents and investigations must be kept and made available to the Secretary or his authorized representative and the appropriate State agency. Section 103(h) requires
