

following the auction. Other stations will submit winning bids to relinquish their channels, enter into channel sharing agreements (and move to the channel of the station they are sharing with); or to move from high-VHF to low-VHF channels or from UHF to high-VHF or low-VHF. Each of these stations are required to notify multichannel video programming providers (“MVPD”) that carry the station of the fact that the station will be changing channels or terminating operations.

The information collection requirements contained in 47 CFR 73.3700 requires that full power and Class A television stations assigned a new channel in the incentive auction repacking, relinquishing their channel or moving to a new channel as a result of a winning bid in the auction, notify MVPDs of their termination of operations or change in channel.

On March 23, 2017, the Commission adopted the Report and Order, Channel Sharing by Full Power and Class A Stations Outside the Broadcast Television Spectrum Incentive Auction Context, GN Docket No. 12–268, MB Docket No. 03–185, MB Docket No. 15–137, FCC 17–29 (“Report and Order”). This document approved channel sharing outside of the incentive auction context between full power, Class A, Low Power Television (LPTV) and TV translator stations. Channel sharing stations also must notify MVPDs of the fact that stations will be terminating operations on one channel to share another station’s channel.

The information collection requirements contained in 47 CFR 73.3800, Full Power Television Channel Sharing Outside the Incentive Auction, Section 73.6028 Class A Television Channel Sharing Outside the Incentive Auction and Section 74.799 Low Power Television and TV Translator Channel Sharing require that stations seeking to channel share outside of the incentive auction provide notification to MVPDs of the fact that the station will be terminating operations on one channel to share another station’s channel.

*Total Annual Cost:* \$179,400.

*Privacy Act Impact Assessment:* This information collection affects individuals or households. The Commission has a System of Records, FCC/OET-1 "Experimental Radio Station License Files" which cover the personally identifiable information (PII) that individual applicants may include in their submissions for experimental radio authorizations. The system of records notice (SORN) was published in the **Federal Register** on April 5, 2006, see 71 FR 17234, 17241. FCC Form 405 is used by the Experimental Radio Service to apply for renewal of radio station licenses at the FCC. Section 307 of the Communications Act of 1934, as amended, limits the term of radio licenses to five years and requires that written applications be submitted for renewal. The regular license period for stations in the Experimental Radio Service is either two or five years.

The information submitted on FCC Form 405 is used by the Commission staff to evaluate the applicant/licensee's need for a license renewal. In performing this function, staff performs analysis of the renewal request as compared to the original license grant to

ascertain if any changes are requested. If so, additional analysis is performed to determine if such changes met the requirements of the rules of the Experimental Radio Service for interference free operation. If needed, the collected information is used to coordinate such operation with other Commission bureaus or other Federal Agencies. All applications are also analyzed on their merits regarding whether they meet the general requirements for an Experimental license. These requirements are set out in 47 CFR part 5.
