**SUPPLEMENTARY INFORMATION:**

*OMB Control Number:* 1010-0081.

*Title:* 30 CFR 582, Operations in the Outer Continental Shelf for Minerals Other than Oil, Gas, and Sulphur.

*Abstract:* The Outer Continental Shelf Lands Act (43 U.S.C. 1334 and 43 U.S.C. 1337(k)(1)) authorizes the Secretary of the Interior to issue regulations to grant to qualified persons who offer the highest cash bonus on a basis of competitive bidding, leases of any mineral other than oil, gas, and sulphur in any area of the Outer Continental Shelf not then under lease for such mineral upon such royalty, rental, and other terms and conditions as the Secretary may prescribe at the time of offering the area for lease.

Regulations at 30 CFR part 582 carry out these statutory requirements by governing mining operations within the OCS for minerals other than oil, gas, and sulphur and establishing a comprehensive regulatory program for such minerals.

There has been no competitive leasing activity in the OCS for minerals other than oil, gas, and sulphur for many years. Accordingly, BOEM has not generally collected information under

this part of its regulations. However, since these are regulatory requirements, the potential exists for information to be collected. Therefore, we are renewing OMB approval for this information collection.

We will use the information required by 30 CFR part 582 to determine if lessees are complying with the regulations for mining minerals other than oil, gas, and sulphur. BOEM will also use the information to ensure that such operations are conducted in a manner that will result in orderly resource recovery, development, and the protection of the human, marine, and coastal environments and for technical and environmental evaluations which provide a basis for BOEM to make informed decisions to approve, disapprove, or require modification of the proposed activities.

We protect proprietary information according to the Freedom of Information Act (5 U.S.C. 552) and the Department's implementing regulations (43 CFR part 2), 30 CFR 582.5 and 582.6, and applicable sections of 30 CFR parts 580 and 581. No items of a sensitive nature are collected. Responses are mandatory.

*Frequency:* Monthly; quarterly; on occasion.

*Estimated Number and Description of Respondents:* As there are no active respondents, we estimated the potential annual number of respondents to be one. Potential respondents are OCS lessees.

*Estimated Reporting and Recordkeeping Hour Burden:* We expect the burden estimate for the renewal will be 212 hours. The following table details the individual BOEM components and respective hour burden estimates of this ICR. In calculating the burdens, we assumed that respondents perform certain requirements in the normal course of their activities. We consider these to be usual and customary and took that into account in estimating the burden.
