The Exchange notes that it operates in a highly competitive market in which market participants can readily favor competing venues. In such an environment, the Exchange must continually review, and consider adjusting, its fees and credits to remain competitive with other exchanges. For the reasons described above, the Exchange believes that the proposed rule change reflects this competitive environment.

SUPPLEMENTARY INFORMATION:

Competition Details

1. *Subject of Competition:* The SBA is seeking to identify the nation's most innovative and promising small business accelerators and incubators in order to infuse them with additional resource capital that ultimately stimulates the growth and development of startups from within the entrepreneurial communities they serve. For the purposes of this Competition, Growth Accelerators include accelerators, incubators, co-working startup communities, shared tinker-spaces or other models to accomplish similar goals. Regardless of the specific model employed, Growth Accelerators focus on helping entrepreneurs and

their startups speed the launch, growth and scale of their businesses. A broad set of models used to support start-ups will better serve the entire entrepreneurial ecosystem. Whether an accelerator is industry focused, technology focused, product centric, cohort based or more long term, all are valuable players in the nation's high-growth entrepreneurial ecosystem that ultimately creates jobs.

2. *Eligibility Rules for Participating in the Competition:* This Competition is open only to previous Growth Accelerator Fund Competition Winners (2014-2016). Previous winners should be established private entities, such as corporations or non-profit organizations that are already incorporated and maintain a primary place of business and operation in the United States. - Is there a plan in place to secure/work to secure funds (cash, in-kind donations, or sponsorships) in a 4-to-1 proportion to the prize dollars received?
- Aside from metrics required by SBA, what are 5 key metrics you will use to self-evaluate?
