B. Submitting Comments

Please include Docket ID NRC-2017-0039 in the subject line of your comment submission, in order to ensure that the NRC is able to make your comment submission available to the public in this docket.

The NRC cautions you not to include identifying or contact information in comment submissions that you do not want to be publicly disclosed in your comment submission. The NRC will

post all comment submissions at <http://www.regulations.gov> as well as enter the comment submissions into ADAMS, and the NRC does not routinely edit comment submissions to remove identifying or contact information.

If you are requesting or aggregating comments from other persons for submission to the NRC, then you should inform those persons not to include identifying or contact information that they do not want to be publicly disclosed in their comment submission. Your request should state that the NRC does not routinely edit comment submissions to remove such information before making the comment submissions available to the public or entering the comment into ADAMS.

II. Background

In accordance with the Paperwork Reduction Act of 1995 (44 U.S.C. chapter 35), the NRC is requesting public comment on its intention to request the OMB's approval for the information collection summarized below.

1. *The title of the information collection:* Collection of Operator Simulator Training Data.
2. *OMB approval number:* An OMB control number has not yet been assigned to this proposed information collection.
3. *Type of submission:* New.
4. *The form number, if applicable:* Not applicable.
5. *How often the collection is required or requested:* Licensees will provide a one-time response expressing their interest in participating. The NRC staff anticipates that the participating licensees would provide data six times per year.
6. *Who will be required or asked to respond:* U.S. nuclear power stations with an onsite reactor simulator.
7. *The estimated number of annual responses:* 95 (15 one-time responses + 90 annual responses).
8. *The estimated number of annual respondents:* 5.
9. *The estimated number of hours needed annually to comply with the information:* 411 hours.

10. *Abstract:* The NRC's Office of Nuclear Regulatory Research (NRC/RES) and the South Texas Project Nuclear Operating Company jointly developed the Scenario Authoring, Characterization, and Debriefing Application (SACADA) software for operator simulator training. The SACADA collects operator simulator performance information that can be used to improve simulator training and human reliability analysis. The NRC/RES is making the SACADA software

available to licensees for their voluntary use. The licensees interested in participating in using the software will contact the NRC. The NRC will provide free software licenses, training, and technical support to facilitate the licensee's use of the software. The participating licensees would provide data approximately six times per year according to their training cycle to a master database currently maintained by the Idaho National Laboratory and sponsored by the NRC. The licensees would agree to let the NRC analyze the data for improving human reliability analysis techniques.

III. Specific Requests for Comments

The NRC is seeking comments that address the following questions:

1. Is the proposed collection of information necessary for the NRC to properly perform its functions? Does the information have practical utility?
2. Is the estimate of the burden of the information collection accurate?
3. Is there a way to enhance the quality, utility, and clarity of the information to be collected?
4. How can the burden of the information collection on respondents be minimized, including the use of automated collection techniques or other forms of information technology?

Dated at Rockville, Maryland, this 21st day of June 2017.

For the Nuclear Regulatory Commission.

David Cullison,

NRC Clearance Officer, Office of the Chief Information Officer.

Both are staff members of the U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001.

SUPPLEMENTARY INFORMATION:

I. Discussion

The NRC is issuing a new guide in the NRC's "Regulatory Guide" series. This series was developed to describe and make available to the public information regarding methods that are acceptable to the NRC staff for implementing specific parts of the agency's regulations, techniques that the NRC staff uses in evaluating specific issues or postulated events, and data that the NRC staff

needs in its review of applications for permits and licenses.

Revision 0 of RG 1.164 (ADAMS Accession No. ML17041A206) was issued with a temporary identification of Draft Regulatory Guide, DG-1292 (ADAMS Accession No. ML15313A425). This RG proposes new guidance that describes methods that the NRC staff considers acceptable in meeting regulatory requirements for dedication of commercial-grade items used in nuclear power plants.

II. Additional Information

The NRC published a notice of the availability of DG-1292 in the **Federal Register** on July 8, 2016 (81 FR 44670), for a 60-day public comment period. The public comment period closed on September 6, 2016. Public comments on DG-1292 and the staff responses to the public comments are available under ADAMS under Accession No. ML17041A202.

III. Congressional Review Act

This RG is a rule as defined in the Congressional Review Act (5 U.S.C. 801-808). However, the Office of Management and Budget has not found it to be a major rule as defined in the Congressional Review Act.

IV. Backfitting and Issue Finality

Regulatory Guide 1.164, Revision 0, describes a method that the staff of the NRC considers acceptable for dedication of commercial-grade items for use in nuclear power plants. Issuance of this RG does not constitute backfitting as defined in 10 CFR 50.109 (the Backfit Rule) and is not otherwise be inconsistent with the issue finality provisions in 10 CFR part 52. As discussed in the "Implementation" section of this RG, the NRC has no current intention to impose this RG on holders of current operating licenses or combined licenses.

- I. Introduction
- II. Docketed Proceeding(s)

I. Introduction

The Commission gives notice that the Postal Service filed request(s) for the Commission to consider matters related to negotiated service agreement(s). The request(s) may propose the addition or removal of a negotiated service agreement from the market dominant or the competitive product list, or the modification of an existing product currently appearing on the market dominant or the competitive product list.

Section II identifies the docket number(s) associated with each Postal Service request, the title of each Postal Service request, the request's acceptance date, and the authority cited by the Postal Service for each request. For each request, the Commission appoints an officer of the Commission to represent the interests of the general public in the proceeding, pursuant to 39 U.S.C. 505 (Public Representative). Section II also establishes comment deadline(s) pertaining to each request.

The public portions of the Postal Service's request(s) can be accessed via the Commission's Web site (<http://www.prc.gov>). Non-public portions of the Postal Service's request(s), if any, can be accessed through compliance with the requirements of 39 CFR 3007.40.

The Commission invites comments on whether the Postal Service's request(s) in the captioned docket(s) are consistent with the policies of title 39. For request(s) that the Postal Service states
