 meeting agenda can be found on the
 Web site.

SUPPLEMENTARY INFORMATION: Due to
 circumstances beyond the control of the
 Designated Federal Officer and the
 Department of Defense, the Defense
 Science Board was unable to provide
 public notification concerning its
 meeting on July 13 through 14, 2017, of
 the Defense Science Board 2017
 Summer Study Task Force on
 Countering Anti-access Systems with
 Longer Range and Standoff Capabilities,
 as required by 41 CFR 102-3.150(a).
 Accordingly, the Advisory Committee
 Management Officer for the Department
 of Defense, pursuant to 41 CFR 102-
 3.150(b), waives the 15-calendar day
 notification requirement.

This meeting is being held under the
 provisions of the Federal Advisory
 Committee Act (FACA) of 1972 (5
 U.S.C., Appendix, as amended), the
 Government in the Sunshine Act of
 1976 (5 U.S.C. 552b, as amended), and
 41 CFR 102-3.150.

The mission of the DSB is to provide
 independent advice and
 recommendations on matters relating to
 the Department of Defense’s (DoD)
 scientific and technical enterprise. The
 objective of the Long Range Effects 2017
 Summer Study Task Force is to explore
 new defense systems and technologies
 that will enable cost effective power
 projection that relies on the use of
 longer stand-off distances than current
 capabilities. System components may be
 deployed on manned or unmanned
 platforms with a range of potential
 autonomous capabilities. Use of cost
 reducing technology and advanced
 production practices from defense and
 commercial industry may be a major
 part of the strategy for deploying
 adequate numbers of weapons. This
 two-day session will focus on coalescing
 all the information from briefings
 presented during the January, February,
 March, April, and May meetings of the
 Long Range Effects 2017 Summer Study
 Task Force. The four panels
 (Architecture; Intelligence, Surveillance,
 and Reconnaissance; Basing, Delivery,
 and Weapons; and Command, Control,
 Communications, and Cyber) will meet
 simultaneously to discuss topics and
 analyze data in support of the study.
 Day Two will close with discussion of
 the four panels’ work.

In accordance with section 10(d) of
 the FACA and 41 CFR 102-3.155, the
 DoD has determined that the Long
 Range Effects 2017 Summer Study Task

Force meeting will be closed to the public. Specifically, the Under Secretary of Defense (Acquisition, Technology, and Logistics), in consultation with the DoD Office of General Counsel, has determined in writing that the meeting will be closed to the public because matters covered by 5 U.S.C. 552b(c)(1) will be considered. The determination is based on the consideration that it is expected that discussions throughout will involve classified matters of national security concern. Such classified material is so intertwined with the unclassified material that it cannot reasonably be segregated into separate discussions without defeating the effectiveness and meaning of the overall meetings. To permit the meeting to be open to the public would preclude discussion of such matters and would greatly diminish the ultimate utility of the DSB's findings and recommendations to the Secretary of Defense and to the Under Secretary of Defense for Acquisition, Technology, and Logistics.

In accordance with section 10(a)(3) of the FACA and 41 CFR 102–3.105(j) and 102–3.140, interested persons may submit a written statement for consideration by the Long Range Effects 2017 Summer Study Task Force members at any time regarding its mission or in response to the stated agenda of a planned meeting. Individuals submitting a written statement must submit their statement to the DSB's DFO—Ms. Karen D.H. Saunders, Executive Director, Defense Science Board, 3140 Defense Pentagon, Room 3B888A, Washington, DC 20301, via email at karen.d.saunders.civ@mail.mil or via phone at (703) 571–0079 at any point; however, if a written statement is not received at least 3 calendar days prior to the meeting, which is the subject of this notice, then it may not be provided to or considered by the Long Range Effects 2017 Summer Study Task Force until the next meeting of this task force. The DFO will review all submissions with the Long Range Effects 2017 Summer Study Task Force Co-Chairs and ensure they are provided to Long Range Effects 2017 Summer Study Task Force members prior to the end of the two day meeting on July 14, 2017.

Dated: June 26, 2017.
