The DoN's Proposed Action is to conduct military readiness training activities, and research, development, testing, and evaluation activities in the AFTT Study Area. These military readiness activities include the use of active sonar and explosives within existing range complexes and testing ranges and additional areas located in the Atlantic Ocean along the eastern coast of North America, in portions of the Caribbean Sea, the Gulf of Mexico, at Navy pierside locations and port transit channels, near civilian ports, and in bays, harbors, and inland waterways (e.g., the lower Chesapeake Bay). These military readiness activities are generally consistent with those analyzed in the AFTT EIS/OEIS completed in December 2013 and are representative of training and testing that the Navy has been conducting in the AFTT Study Area for decades.

Potential direct, indirect, cumulative, short-term, long-term, irreversible, and irretrievable impacts to the environment from two action alternatives and a No Action Alternative are evaluated in the Draft EIS/OEIS. Resources evaluated include air quality, sediments and water quality, vegetation, invertebrates, marine habitats, fish, marine mammals, sea turtles and other marine reptiles, birds and bats, cultural resources, socioeconomic resources, and public health and safety.

Based on the results of the analysis, the Navy has requested from NMFS a Letter of Authorization (LOA) in accordance with the MMPA to authorize the incidental take of marine mammals that may result from the implementation of the activities analyzed in the AFTT Draft EIS/OEIS. In accordance with Section 7 of the Endangered Species Act, the Navy is consulting with NMFS and U.S. Fish and Wildlife Service (USFWS) for potential impacts to federally listed species. The Navy will complete all required consultations and comply with other applicable laws and regulations.

The Draft EIS/OEIS addresses mitigation measures designed to help reduce or avoid potential impacts to marine resources, including new mitigation measures that include expanded geographic mitigation areas, and updates to procedural mitigation measures. In addition, the Draft EIS/OEIS addresses marine species monitoring efforts designed to track compliance with authorizations and to investigate the effectiveness of mitigation measures implemented as part of the Proposed Action. The proposed mitigation measures,

including new mitigation measures, would be implemented under either alternative in order to maximize the mitigation benefits to the environment.

Mitigation measures are being coordinated through the consultation and permitting processes. The DoN will also consider public comments on proposed mitigation measures described in this Draft EIS/OEIS.

Under sections 420R and 473(b) of the Higher Education Act of 1965, as amended (HEA) (20 U.S.C. 1070h and 20 U.S.C. 1087mm(b)), the Secretary of Defense must provide the Secretary of Education with information to identify the children of military personnel who have died as a result of their military service in Iraq or Afghanistan after September 11, 2001, to determine if the child is eligible for increased amounts of title IV, HEA program assistance. DoD and ED have determined that matching data contained in the DoD DMDC system and the Defense Enrollment Eligibility Reporting System (DEERS) against ED's Federal Student Aid Application File (18-11-01) is the only practical method that the agencies can use to meet the statutory requirements of the HEA.

The prior Computer Matching Agreement (CMA) was published in the **Federal Register** on January 2, 2015 (80 FR 37). Under the provisions of the Computer Matching and Privacy Protection Act of 1988, Public Law 100-503, the CMA was renewed for an additional 12 months through July 31, 2017 because: (1) The program was conducted without change; and (2) each Data Integrity Board Chairperson certified in writing that the program was conducted in compliance with the CMA. ED and DoD are now re-establishing the CMA through this notice.

PARTICIPATING AGENCIES:

ED and DoD

AUTHORITY FOR CONDUCTING THE MATCHING PROGRAM:

Sections 420R and 473(b) of the HEA (20 U.S.C. 1070h and 20 U.S.C. 1087mm(b)) and 5 U.S.C. 552a.

PURPOSES:

This matching program identifies children whose parent or guardian was a member of the Armed Forces of the United States and died as a result of performing military service in Iraq or Afghanistan after September 11, 2001. These children (referred to as qualifying students) may be eligible for a greater amount of title IV, HEA program assistance. A qualifying student must have been age 24 or younger at the time of the parent's or guardian's death, or, if older than 24, enrolled part-time or full-time in an institution of higher education at the time of the parent's or guardian's death. Beginning July 1, 2010, students who are otherwise qualified children of deceased U.S. military who meet the requirements of section 420R of the HEA (20 U.S.C. 1070h) may also be eligible for higher amounts of title IV, HEA program assistance.

CATEGORIES OF INDIVIDUALS:

The individuals whose records are included in this matching program are dependents of service personnel who died as a result of performing their military service in Iraq or Afghanistan after September 11, 2001, which records are located in the DoD DMDC and DEERS systems, and all students who complete a Free Application for Federal Student Aid.

CATEGORIES OF RECORDS:

DoD data include the individual's first and last name, Social Security number (SSN), date of birth, and the parent's or guardian's date of death for each qualifying dependent record. ED uses the SSN, date of birth, and the first two letters of an applicant's last name to match with the Federal Student Aid Application File.

SYSTEM(S) OF RECORDS:

ED system of records: Federal Student Aid Application File (18-11-01) (76 FR 46774). *DoD system of records:* DMDC 01, Defense Manpower Data Center Data Base (76 FR 72391) (November 23, 2011), and DMDC 02 DoD Defense Enrollment Eligibility Reporting Systems (DEERS) (81 FR 49210) (July 27, 2016).
