ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 52

[EPA-R02-OAR-2016-0060; FRL-9955-06-Region 2]

Approval and Promulgation of Implementation Plans; New Jersey; Revised Format for Materials Being Incorporated by Reference

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule; administrative change.

SUMMARY: The Environmental Protection Agency (EPA) is revising the format for materials submitted by New Jersey that have been incorporated by reference (IBR) into its State Implementation Plan (SIP). The regulations and other materials affected by this format change have all been previously submitted by New Jersey and approved by EPA as SIP revisions.

This format revision will primarily affect the “Identification of plan” section as well as the format of the SIP materials that will be available for public inspection at the National Archives and Records Administration (NARA), and the EPA Region 2 Office. EPA is also adding a table in the “Identification of plan” section, which summarizes the approval actions that EPA has taken on the regulatory and non-regulatory portions of the New Jersey SIP.

DATES: This rule is effective on July 3, 2017.

ADDRESSES: SIP materials which are incorporated by reference into 40 CFR part 52 are available for inspection at the following locations: Environmental Protection Agency, Region 2 Office, Air Programs Branch, 290 Broadway, 25th Floor, New York, New York 10007-1866; or the National Archives and Records Administration. Please contact the person identified in the **FOR FURTHER INFORMATION CONTACT** section for additional availability information for Region 2 SIP materials. For information

on the availability of this material at NARA, call (202) 741-6030, or go to: http://www.archives.gov/federal_register/code_of_federal_regulations/ibr_locations.html.

I. Background

A. Description of a SIP

In accordance with Section 110 of the Clean Air Act (Act), 42 U.S.C. 7410, each state has a SIP containing the control measures and strategies to attain and maintain the National Ambient Air Quality Standards (NAAQS) established pursuant to Section 109 of the Act, 42 U.S.C. 7409. SIPs contain numerous elements such as air pollution control regulations, emission inventories, monitoring networks, attainment demonstrations, and enforcement mechanisms.

B. How EPA Enforces SIPs

Before formally adopting rules that contain required control measures and strategies as part of a SIP, each state must provide the public with an opportunity to comment on them. The states then submit these rules to EPA as requested SIP revisions, on which EPA must formally act.

If and when these control measures and strategies are approved by EPA after notice and comment rulemaking, they

become enforceable by EPA, and are incorporated into the federally approved SIP and identified in title 40 of the Code of Federal Regulations, part 52 (Approval and Promulgation of Implementation Plans) (40 CFR part 52). The actual state regulations approved by EPA are not reproduced in their entirety in 40 CFR part 52, but are “incorporated by reference,” which has the same effect as including the entire state regulation in part 52. Incorporation by reference indicates that EPA has approved a given state regulation with a specific effective date, and that EPA, in addition to the state, may enforce that regulation once it takes effect and is formally a part of the SIP. This format allows both EPA and the public to know which state measures are contained in a given SIP and are therefore federally enforceable. It also helps identify the specific requirements that the state is implementing to attain and maintain the NAAQS.

C. How the State and EPA Update the SIP

The SIP is periodically revised as necessary to address the specific or unique air pollution problems in the state. Therefore, EPA from time to time takes action on state SIP submissions containing new and/or revised regulations and other materials; if approved, they become part of the SIP. On May 22, 1997 (62 FR 27968), EPA revised the procedures for incorporating by reference federally approved SIPs, as a result of consultations between EPA and the Office of the Federal Register (OFR).

As a result, EPA began the process of developing the following: (1) A revised SIP document for each state that would be incorporated by reference under the provisions of title 1 CFR part 51; (2) a revised mechanism for announcing EPA approval of revisions to an applicable SIP and updating both the IBR document and the CFR; and (3) a revised format of the “Identification of plan” sections for each applicable subpart to reflect these revised IBR procedures. The description of the revised SIP document, IBR procedures, and “Identification of plan” format are discussed in further detail in the May 22, 1997, **Federal Register** document.

D. How EPA Compiles the SIP

The federally approved regulations, source-specific requirements, and nonregulatory provisions (entirely or portions of) submitted by each state agency and approved by EPA have been organized into a "SIP compilation." The compilation is contained in three-ring binders and will be updated, primarily on an annual basis. The New Jersey SIP compilation is available at the Environmental Protection Agency, Region 2 Office: 290 Broadway, New York, New York 10007; (212) 637-4249.

E. How EPA Organizes the SIP Compilation

Each SIP compilation contains three parts approved by EPA: Part one contains regulations, part two contains source-specific requirements, and part three contains nonregulatory provisions. Each state's SIP compilation contains a table of identifying information for each of these three parts. In this action, EPA is publishing the tables summarizing the applicable SIP requirements for New Jersey. The effective dates in the tables indicate the date of the most recent state revision of each regulation. The EPA Region 2 Office has the primary responsibility for updating the compilation and ensuring its accuracy.

F. Where You Can Find a Copy of the SIP Compilation

EPA's Region 2 Office developed and will maintain the compilation for New Jersey. A copy of the full text of New Jersey's regulatory and source-specific compilations will also be maintained at NARA.

G. The Format of the New Identification of Plan Section

In order to better serve the public, EPA revised the organization of the "Identification of plan" section and included additional information to clarify which provisions are the enforceable elements of the SIP. The revised Identification of plan section contains five subsections: (a) Purpose and scope, (b) Incorporation by reference, (c) EPA-approved regulations, (d) EPA-approved source-specific requirements, and (e) EPA-approved nonregulatory provisions such as transportation control measures, statutes, control strategies, and monitoring networks.

H. When a State SIP Revision Becomes Part of the SIP and Federally Enforceable

All revisions to the applicable SIP become federally enforceable as of the effective date of the revisions to paragraph (c), (d), or (e) of the

applicable Identification of plan section found in each subpart of 40 CFR part 52.

I. The Historical Record of SIP Revision Approvals

To facilitate enforcement of previously approved SIP provisions and provide a smooth transition to the new SIP compilation, EPA has retained the original Identification of plan section, previously appearing in the CFR as the first or second section of part 52 for each state subpart. After an initial two-year period, EPA will review its experience with the new table format and will decide whether or not to retain the historical Identification of plan appendices for some further period.

II. What is EPA doing in this action?

This rule constitutes a reformatting exercise to ensure that all revisions to the state programs and accompanying SIP that have already occurred are accurately reflected in 40 CFR part 52. State SIP revisions are subject to the EPA regulations at 40 CFR part 51. When EPA receives a formal SIP revision request, the Agency must publish its proposed rulemaking in the **Federal Register** and provide for public comment before approval.

EPA has determined that this rule falls under the "good cause" exemption in section 553(b)(3)(B) of the Administrative Procedures Act (APA) which, upon finding "good cause," authorizes agencies to dispense with public participation, and section 553(d)(3), which allows an agency to make a rule effective immediately, thereby avoiding the 30-day delayed effective date otherwise provided for in the APA. This rule simply reorganizes and codifies provisions that are already in effect as a matter of law in Federal and approved state programs. Accordingly, we find that public comment is "unnecessary" and "contrary to the public interest" under section 553 of the APA, since the reorganization and codification of the revised format for denoting IBR of the state materials into the SIP only reflects existing law and since immediate notice in the CFR benefits the public by removing outdated citations from the CFR.

III. Incorporation by Reference

In this rule, the EPA is finalizing regulatory text that includes incorporation by reference. In accordance with requirements of 1 CFR 51.5, the EPA is finalizing the incorporation by reference of the New Jersey regulations described in the amendments to 40 CFR part 52 set forth below. The EPA has made, and will

continue to make, these materials generally available through www.regulations.gov, NARA, and the EPA Region 2 Office (please contact the person identified in the **FOR FURTHER INFORMATION CONTACT** section of this preamble for more information). For information on the availability of this material at NARA, go to: www.archives.gov/federal-register/cfr/ibr-locations.html.

IV. Statutory and Executive Order Reviews

Under the Clean Air Act (CAA), the Administrator is required to approve a SIP submission that complies with the provisions of the CAA and applicable Federal regulations. 42 U.S.C. 7410(k); 40 CFR 52.02(a). Thus, in reviewing SIP submissions, EPA's role is to approve state choices, provided that they meet the criteria of the CAA. Accordingly, this action merely approves state law as meeting Federal requirements and does not impose additional requirements beyond those imposed by state law. For that reason, this action:

- Is not a "significant regulatory action" under the terms of Executive Order 12866 (58 FR 51735, October 4, 1993) and is therefore not subject to review under Executive Orders 12866 and 13563 (76 FR 3821, January 21, 2011);
- does not impose an information collection burden under the provisions of the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*);
- is certified as not having a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*);
- does not contain any unfunded mandate or significantly or uniquely affect small governments, as described in the Unfunded Mandates Reform Act of 1995 (Pub. L. 104-4);
- does not have Federalism implications as specified in Executive Order 13132 (64 FR 43255, August 10, 1999);
- is not an economically significant regulatory action based on health or safety risks subject to Executive Order 13045 (62 FR 19885, April 23, 1997);
- is not a significant regulatory action subject to Executive Order 13211 (66 FR 28355, May 22, 2001);
- is not subject to requirements of Section 12(d) of the National Technology Transfer and Advancement Act of 1995 (15 U.S.C. 272 note) because application of those requirements would be inconsistent with the CAA; and
- does not provide EPA with the discretionary authority to address, as appropriate, disproportionate human

health or environmental effects, using practicable and legally permissible methods, under Executive Order 12898 (59 FR 7629, February 16, 1994).

The SIP is not approved to apply on any Indian reservation land or in any other area where EPA or an Indian tribe has demonstrated that a tribe has jurisdiction. In those areas of Indian country, the rule does not have tribal implications and will not impose substantial direct costs on tribal governments or preempt tribal law as specified by Executive Order 13175 (65 FR 67249, November 9, 2000).

The Congressional Review Act, 5 U.S.C. 801 *et seq.*, as added by the Small Business Regulatory Enforcement Fairness Act of 1996, generally provides that before a rule may take effect, the agency promulgating the rule must submit a rule report, which includes a copy of the rule, to each House of the Congress and to the Comptroller General of the United States. EPA will submit a report containing this action and other required information to the U.S. Senate, the U.S. House of Representatives, and the Comptroller General of the United States prior to publication of the rule in the **Federal Register**. A major rule cannot take effect until 60 days after it is published in the **Federal Register**. This action is not a “major rule” as defined by 5 U.S.C. 804(2).

EPA has also determined that the provisions of section 307(b)(1) of the CAA pertaining to petitions for judicial review are not applicable to this action. Prior EPA rulemaking actions for each individual component of the New Jersey SIP compilations previously afforded interested parties the opportunity to file a petition for judicial review in the United States Court of Appeals for the appropriate circuit within 60 days of such rulemaking action. Thus, EPA sees no need in this action to reopen the 60-day period for filing such petitions for judicial review for this “Identification of

plan” reorganization update action for the State of New Jersey.

Catherine R. McCabe,

Acting Regional Administrator, Region 2.

Part 52, chapter I, title 40 of the Code of Federal Regulations is amended as follows:

PART 52—APPROVAL AND PROMULGATION OF IMPLEMENTATION PLANS

■ 1. The authority citation for part 52 continues to read as follows:

Authority: 42 U.S.C. 7401 *et seq.*

Subpart FF—New Jersey

§ 52.1570 [Redesignated as § 52.1587]

■ 2. Redesignate § 52.1570 as § 52.1587, and in newly redesignated § 52.1587, revise the section heading and paragraph (a) to read as follows:

§ 52.1587 Original identification of plan section.

(a) This section identifies the original “Air Implementation Plan for the State of New Jersey” and all revisions submitted by New Jersey that were Federally approved prior to October 1, 2016.

* * * * *

■ 3. A new § 52.1570 is added to read as follows:

§ 52.1570 Identification of plan.

(a) *Purpose and scope.* This section sets forth the applicable State

Implementation Plan (SIP) for New Jersey under section 110 of the Clean Air Act, as amended, 42 U.S.C. 7401 *et seq.*, and 40 CFR part 51 to meet National Ambient Air Quality Standards.

(b) *Incorporation by reference.* (1) Material listed in paragraphs (c) and (d) of this section with an EPA approval date prior to October 1, 2016, was approved for incorporation by reference by the Director of the Federal Register in accordance with 5 U.S.C. 552(a) and 1 CFR part 51. Entries in paragraphs (c) and (d) of this section with the EPA approval dates after October 1, 2016 have been approved by EPA for inclusion in the State implementation plan and for incorporation by reference into the plan as it is contained in this section, and will be considered by the Director of the Federal Register for approval in the next update to the SIP compilation.

(2) EPA Region 2 certifies that the materials provided by EPA at the addresses in paragraph (b)(3) of this section are an exact duplicate of the officially promulgated state rules/regulations which have been approved as part of the state implementation plan as of the dates referenced in paragraph (b)(1) of this section.

(3) Copies of the materials incorporated by reference into the state implementation plan may be inspected at the Environmental Protection Agency, Region 2, Air Programs Branch, 290 Broadway, New York, New York 10007. To obtain the material, please call the Regional Office. You may also inspect the material with an EPA approval date prior to October 1, 2016 at the National Archives and Records Administration (NARA). For information on the availability of this material at NARA, go to: <http://www.archives.gov/federal-register/cfr/ibr-locations.html>.

Air Plan Approval; FL: Revisions to New Source Review, Definitions and Small Business Assistance Programs

AGENCY: Environmental Protection Agency.

ACTION: Direct final rule.

SUMMARY: The Environmental Protection Agency (EPA) is taking direct final action to approve changes to the Florida State Implementation Plan (SIP) to update definitions and make administrative edits to regulations for the Plantwide Applicability Limits

(PALs) and Florida's Small Business Assistance program (SBA). EPA is proposing to approve portions of a SIP revision submitted by the State of Florida, through the Florida Department of Environmental Protection (FDEP) on July 1, 2011, to update definitions and make administrative edits to PALs and the SBA. This action is being taken pursuant to the Clean Air Act (CAA or Act).

DATES: This direct final rule is effective September 1, 2017 without further notice, unless EPA receives adverse comment by August 2, 2017. If EPA receives such comments, it will publish a timely withdrawal of the direct final rule in the **Federal Register** and inform the public that the rule will not take effect.

ADDRESSES: Submit your comments, identified by Docket ID No. EPA-R04-OAR-2012-0166 at <http://www.regulations.gov>. Follow the online instructions for submitting comments. Once submitted, comments cannot be edited or removed from *Regulations.gov*. EPA may publish any comment received

to its public docket. Do not submit electronically any information you consider to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute. Multimedia submissions (audio, video, etc.) must be accompanied by a written comment. The written comment is considered the official comment and should include discussion of all points you wish to make. EPA will generally not consider comments or comment contents located outside of the primary submission (*i.e.* on the Web, cloud, or other file sharing system). For additional submission methods, the full EPA public comment policy, information about CBI or multimedia submissions, and general guidance on making effective comments, please visit <http://www2.epa.gov/dockets/commenting-epa-dockets>.
