

Agency has not attempted to describe all the specific entities that may be affected by this action. If you have any questions regarding the applicability of this action to a particular entity, consult the Chemical Review Manager for the pesticide of interest identified in the table in Unit II.

B. What should I consider as I prepare my comments for EPA?

1. *Submitting CBI.* Do not submit this information to EPA through *regulations.gov* or email. Clearly mark the part or all of the information that you claim to be CBI. For CBI

information on a disk or CD-ROM that you mail to EPA, mark the outside of the disk or CD-ROM as CBI and then identify electronically within the disk or CD-ROM the specific information that is claimed as CBI. In addition to one complete version of the comment that includes information claimed as CBI, a copy of the comment that does not contain the information claimed as CBI must be submitted for inclusion in the public docket. Information so marked will not be disclosed except in accordance with procedures set forth in 40 CFR part 2.

2. *Tips for preparing your comments.* When preparing and submitting your comments, see the commenting tips at <http://www.epa.gov/dockets/comments.html>.

II. What action is the agency taking?

Pursuant to 40 CFR 155.58, this notice announces the availability of EPA’s proposed interim registration review decisions for the pesticides shown in the following table, and opens a 60-day public comment period on the proposed interim decisions.

TABLE 1—REGISTRATION REVIEW PROPOSED INTERIM DECISIONS BEING ISSUED

Registration review case name and No.	Docket ID No.	Chemical review manager and contact information
Aliphatic Esters, Case 4005	EPA-HQ-OPP-2016-0084	Brian Kettl, kettl.brian@epa.gov , 703-347-0535.
Mepiquat Chloride and Mepiquat Pentaborate, Case 2375.	EPA-HQ-OPP-2012-0083	Caitlin Newcamp, newcamp.caitlin@epa.gov , 703-347-0325.
Propylene Glycol and Dipropylene Glycol, Case 3126	EPA-HQ-OPP-2013-0218	Megan Block, block.megan@epa.gov , 703-347-0671.
Triethylene Glycol, Case 3146	EPA-HQ-OPP-2013-0219	Megan Block, block.megan@epa.gov , 703-347-0671.
Bromuconazole, Case 7035	EPA-HQ-OPP-2015-0535	Thomas Harty, harty.thomas@epa.gov , 703-347-0338.

This document also announces the closure of the registration review case for Amines, C10-16-alkyldimethyl, N-oxides (ADAO) (Case 5003, and Docket ID Number: EPA-HQ-OPP-2011-0616); 1H-Pyrazole-1-methanol, 3,5-dimethyl (DMHMP) (Case 5035, and Docket ID Number: EPA-HQ-OPP-2011-0619); and Nuosept (Cosan) 145 (Case 3052, and Docket ID Number: EPA-HQ-OPP-2008-0335) because all of the registrations in the U.S. have been cancelled.

The registration review docket for a pesticide includes earlier documents related to the registration review case. For example, the review opened with a Preliminary Work Plan, for public comment. A Final Work Plan was placed in the docket following public comment on the Preliminary Work Plan.

The documents in the dockets describe EPA’s rationales for conducting additional risk assessments for the registration review of the pesticides included in the table in Unit II, as well as the Agency’s subsequent risk findings and consideration of possible risk mitigation measures. These proposed interim registration review decisions are supported by the rationales included in those documents.

Following public comment, the Agency will issue interim or final registration review decisions for the pesticides listed in the table in Unit II.

The registration review program is being conducted under congressionally mandated time frames, and EPA recognizes the need both to make timely

decisions and to involve the public. Section 3(g) of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) (7 U.S.C. 136a(g)) required EPA to establish by regulation procedures for reviewing pesticide registrations, originally with a goal of reviewing each pesticide’s registration every 15 years to ensure that a pesticide continues to meet the FIFRA standard for registration. The Agency’s final rule to implement this program was issued in August 2006 and became effective in October 2006, and appears at 40 CFR part 155, subpart C. The Pesticide Registration Improvement Act of 2003 (PRIA) was amended and extended in September 2007. FIFRA, as amended by PRIA in 2007, requires EPA to complete registration review decisions by October 1, 2022, for all pesticides registered as of October 1, 2007.

The registration review final rule at 40 CFR 155.58(a) provides for a minimum 60-day public comment period on all proposed interim registration review decisions. This comment period is intended to provide an opportunity for public input and a mechanism for initiating any necessary amendments to the proposed interim decision. All comments should be submitted using the methods in **ADDRESSES**, and must be received by EPA on or before the closing date. These comments will become part of the docket for the pesticides included in the table in Unit II. Comments received after the close of the comment period will be marked “late.” EPA is not

required to consider these late comments.

The Agency will carefully consider all comments received by the closing date and may provide a “Response to Comments Memorandum” in the docket. The interim registration review decision will explain the effect that any comments had on the interim decision and provide the Agency’s response to significant comments.

Background on the registration review program is provided at: <http://www.epa.gov/pesticide-reevaluation>.

Authority: 7 U.S.C. 136 *et seq.*

Dated: May 23, 2017.

Yu-Ting Guilaran,
Director, Pesticide Re-Evaluation Division,
Office of Pesticide Programs.

BILLING CODE 6560-50-P

ENVIRONMENTAL PROTECTION AGENCY

[EPA-HQ-OPP-2017-0009; FRL-9962-59]

Pesticide Emergency Exemptions; Agency Decisions and State and Federal Agency Crisis Declarations

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: EPA has granted emergency exemptions under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) for use of pesticides as

listed in this notice. The exemptions were granted during the period January 1, 2017 to March 31, 2017 to control unforeseen pest outbreaks.

FOR FURTHER INFORMATION CONTACT: Michael Goodis, Registration Division (7505P), Office of Pesticide Programs, Environmental Protection Agency, 1200 Pennsylvania Ave. NW., Washington, DC 20460-0001; main telephone number: (703) 305-7090; email address: RDfrNotices@epa.gov.

SUPPLEMENTARY INFORMATION:

I. General Information

A. Does this action apply to me?

You may be potentially affected by this action if you are an agricultural producer, food manufacturer, or pesticide manufacturer. The following list of North American Industrial Classification System (NAICS) codes is not intended to be exhaustive, but rather provides a guide to help readers determine whether this document applies to them. Potentially affected entities may include:

- Crop production (NAICS code 111).
- Animal production (NAICS code 112).
- Food manufacturing (NAICS code 311).
- Pesticide manufacturing (NAICS code 32532).

If you have any questions regarding the applicability of this action to a particular entity, consult the person listed at the end of the emergency exemption.

B. How can I get copies of this document and other related information?

The docket for this action, identified by docket identification (ID) number EPA-HQ-OPP-2017-0009, is available at <http://www.regulations.gov> or at the Office of Pesticide Programs Regulatory Public Docket (OPP Docket) in the Environmental Protection Agency Docket Center (EPA/DC), West William Jefferson Clinton Bldg., Rm. 3334, 1301 Constitution Ave. NW., Washington, DC 20460-0001. The Public Reading Room is open from 8:30 a.m. to 4:30 p.m., Monday through Friday, excluding legal holidays. The telephone number for the Public Reading Room is (202) 566-1744, and the telephone number for the OPP Docket is (703) 305-5805. Please review the visitor instructions and additional information about the docket available at <http://www.epa.gov/dockets>.

II. Background

EPA has granted emergency exemptions to the following State and Federal agencies. The emergency exemptions may take the following

form: Crisis, public health, quarantine, or specific.

Under FIFRA section 18 (7 U.S.C. 136p), EPA can authorize the use of a pesticide when emergency conditions exist. Authorizations (commonly called emergency exemptions) are granted to State and Federal agencies and are of four types:

1. A "specific exemption" authorizes use of a pesticide against specific pests on a limited acreage in a particular State. Most emergency exemptions are specific exemptions.
2. "Quarantine" and "public health" exemptions are emergency exemptions issued for quarantine or public health purposes. These are rarely requested.
3. A "crisis exemption" is initiated by a State or Federal agency (and is confirmed by EPA) when there is insufficient time to request and obtain EPA permission for use of a pesticide in an emergency.

EPA may deny an emergency exemption: If the State or Federal agency cannot demonstrate that an emergency exists, if the use poses unacceptable risks to the environment, or if EPA cannot reach a conclusion that the proposed pesticide use is likely to result in "a reasonable certainty of no harm" to human health, including exposure of residues of the pesticide to infants and children.

If the emergency use of the pesticide on a food or feed commodity would result in pesticide chemical residues, EPA establishes a time-limited tolerance meeting the "reasonable certainty of no harm standard" of the Federal Food, Drug, and Cosmetic Act (FFDCA).

In this document: EPA identifies the State or Federal agency granted the exemption, the type of exemption, the pesticide authorized and the pests, the crop or use for which authorized, number of acres (if applicable), and the duration of the exemption. EPA also gives the **Federal Register** citation for the time-limited tolerance, if any.

III. Emergency Exemptions

A. U.S. States and Territories

Alabama

Department of Agriculture and Industries

Specific exemptions: EPA authorized the use of sulfoxaflor on a maximum of 45,000 acres of sorghum (grain and forage) to control sugarcane aphid. A time-limited tolerance in connection with this action has been established in 40 CFR 180.668(b); Effective April 9, 2017 to October 31, 2017.

EPA authorized the use of sulfoxaflor on a maximum of 75,000 acres of cotton to control tarnished plant bugs.

Tolerances in connection with a previous action have been established in 40 CFR 180.668(a); Effective June 1, 2017 to October 31, 2017.

Arkansas

State Plant Board

Specific exemptions: EPA authorized the use of sulfoxaflor on a maximum of 420,000 acres of cotton to control tarnished plant bugs. Tolerances in connection with a previous action have been established in 40 CFR 180.668(a); Effective June 1, 2017 to October 31, 2017.

EPA authorized the use of sulfoxaflor on a maximum of 50,000 acres of sorghum (grain and forage) to control sugarcane aphid. A time-limited tolerance in connection with this action has been established in 40 CFR 180.668(b); Effective April 9, 2017 to September 15, 2017.

Florida

Department of Agriculture and Consumer Services

Specific exemptions: EPA authorized the uses of streptomycin and oxytetracycline on a maximum of 388,534 acres of citrus to manage HLB or citrus greening disease caused by the bacteria, *Candidatus Liberibacter Asiaticus*. Time-limited tolerances in connection with these actions have been established at 40 CFR 180.337(b) (oxytetracycline) and 180.245(b) (streptomycin). Effective January 10, 2017 to December 31, 2017.

EPA authorized the use of tolfenpyrad on a maximum of 51,600 acres of fruiting vegetables to control various thrips. A time-limited tolerance in connection with this action have been established in 40 CFR 180.675(b); Effective March 1, 2017 to March 1, 2018.

Louisiana

Department of Agriculture and Forestry

Specific exemptions: EPA authorized the use of sulfoxaflor on a maximum of 180,000 acres of sorghum (grain and forage) to control sugarcane aphid. A time-limited tolerance in connection with this action has been established in 40 CFR 180.668(b); Effective April 9, 2017 to November 30, 2017.

EPA authorized the use of sulfoxaflor on a maximum of 175,000 acres of cotton to control tarnished plant bugs. Tolerances in connection with a previous action have been established in 40 CFR 180.668(a); Effective May 15, 2017 to October 31, 2017.

Quarantine exemption: EPA authorized the use of triclopyr on a maximum of 382,467 acres of sugarcane

to control Merrill's nightshade. A time-limited tolerance in connection with this action will be established in 40 CFR 180.417(b); Effective February 10, 2017 to May 31, 2020.

Pennsylvania

Department of Agriculture

Specific exemptions: EPA authorized the use of thiabendazole on mushroom spawn and supplement equivalent to a maximum of 83,750,000 square feet of crop to control *Trichoderma* green mold. A time-limited tolerance in connection with a previous action is established at 40 CFR 180.242(a); Effective March 17, 2017 to March 17, 2018.

Texas

Department of Agriculture

Crisis exemption: On March 17, 2017, the Texas Department of Agriculture declared a crisis exemption to allow the use of tolfenpyrad on a maximum of 10,000 acres of dry bulb onions to control onion thrips. The need for this use is expected beyond the 15 days allowed under a crisis exemption, and a specific exemption request was submitted to the Agency. A time-limited tolerance in connection with this action will be established in 40 CFR 180.675(b); Effective March 14, 2017 to March 31, 2017.

Specific exemptions: EPA authorized the use of sulfoxafloor on a maximum of 3,000,000 acres of sorghum (grain and forage) to control sugarcane aphid. A time-limited tolerance in connection with this action has been established in 40 CFR 180.668(b); Effective April 9, 2017 to November 30, 2017.

EPA authorized the use of clothianidin on a maximum of 4,000 acres of immature citrus trees to manage the transmission of Huanglongbing (HLB) disease vectored by the Asian citrus psyllid. A time-limited tolerance in connection with this action was established in 40 CFR 180.668(b); Effective May 1, 2017 to May 1, 2018.

B. Federal Department and Agency

U.S. Department of Agriculture

Animal and Plant Health Inspector Service

Quarantine exemptions: EPA authorized the use of methyl bromide on post-harvest unlabeled imported/ domestic commodities to prevent the introduction/spread of any new or recently introduced foreign pest(s) to any U.S. geographical location; March 1, 2017 to March 1, 2020.

EPA authorized the planting of 100% of cotton acreage to transgenic (Bt) cotton as a component of the Pink Bollworm (PBW) Eradication Program in the PBW eradication area of California. A potential maximum of an additional 1,600 acres could be planted to Bt cotton under this quarantine exemption. Effective: March 9, 2017 to March 9, 2020.

Authority: 7 U.S.C. 136 *et seq.*

Dated: May 26, 2017.

Daniel Rosenblatt,

Acting Director, Registration Division, Office of Pesticide Programs.

BILLING CODE 6560-50-P

ENVIRONMENTAL PROTECTION AGENCY

[EPA-HQ-OPP-2010-0014; FRL-9962-88]

Product Cancellation Order for Certain Pesticide Registrations

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: This notice announces EPA's order for the cancellations, voluntarily requested by the registrants and accepted by the Agency, of the products listed in Table 1 of Unit II, pursuant to the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA). This cancellation order follows a June 8, 2016 **Federal Register** Notice of Receipt of Requests from the registrants listed in Table 2 of Unit II, to voluntarily cancel these product registrations. In the June 8, 2016 notice, EPA indicated that it would issue an order implementing the cancellations, unless the Agency received substantive comments within the 180-day comment period that would merit its further review of these requests, or unless the registrants withdrew their requests. The Agency did not receive any comments on the notice. Further, the registrants did not withdraw their requests. Accordingly, EPA hereby issues in this notice a cancellation order granting the requested cancellations. Any distribution, sale, or use of the products subject to this cancellation order is permitted only in accordance with the terms of this order, including any existing stocks provisions.

DATES: The cancellations are effective July 5, 2017.

FOR FURTHER INFORMATION CONTACT: Michael Yanchulis, Information Technology and Resources Management

Division (7502P), Office of Pesticide Programs, Environmental Protection Agency, 1200 Pennsylvania Ave., NW., Washington, DC 20460-0001; telephone number: (703) 347-0237; email address: yanchulis.michael@epa.gov.

SUPPLEMENTARY INFORMATION:

I. General Information

A. Does this action apply to me?

This action is directed to the public in general, and may be of interest to a wide range of stakeholders including environmental, human health, and agricultural advocates; the chemical industry; pesticide users; and members of the public interested in the sale, distribution, or use of pesticides. Since others also may be interested, the Agency has not attempted to describe all the specific entities that may be affected by this action.

B. How can I get copies of this document and other related information?

The docket for this action, identified by docket identification (ID) number EPA-HQ-OPP-2010-1014, is available at <http://www.regulations.gov> or at the Office of Pesticide Programs Regulatory Public Docket (OPP Docket) in the Environmental Protection Agency Docket Center (EPA/DC), West William Jefferson Clinton Bldg., Rm. 3334, 1301 Constitution Ave. NW., Washington, DC 20460-0001. The Public Reading Room is open from 8:30 a.m. to 4:30 p.m., Monday through Friday, excluding legal holidays. The telephone number for the Public Reading Room is (202) 566-1744, and the telephone number for the OPP Docket is (703) 305-5805. Please review the visitor instructions and additional information about the docket available at <http://www.epa.gov/dockets>.

II. What action is the agency taking?

This notice announces the cancellations and/or amendment to terminate uses, as requested by registrants, of products registered under FIFRA section 3 (7 U.S.C. 136a). These registrations are listed in sequence by registration number in Table 1 and Table 2 of this unit. The following registration numbers that were listed in the **Federal Register** of June 8, 2016 (81 FR 36913) (FRL-9943-68) have already been cancelled in previous **Federal Register** notices: 81002-1 on September 18, 2015 (80 FR 56457); 9198-205 on October 3, 2016 (81 FR 68013); and 3525-71, 3525-91, 3525-96, 3525-109, CA-030012, MA-080001, OR-080035, OR-100010 and TX-100019 on March 22, 2017 (82 FR 14717).
