

to the public. If we do not collect this information, vital feedback from customers and stakeholders on our services will be unavailable. The feedback we collect about our services include assessments of timeliness, appropriateness, accuracy of information, plain language, courtesy, efficiency, and issue resolution.

**Conditions:** We will submit a specific information collection for approval under this generic clearance only if it meets the following conditions:

- The collection is voluntary;
- The collection is low-burden for respondents (based on considerations of total burden hours, total number of respondents, or burden-hours per respondent) and is low-cost for both the respondents and the Federal Government;

- The collection is non-controversial and does not raise issues of concern to other Federal agencies;
- It is targeted to solicit opinions from respondents who have experience with the program or may have experience with the program in the near future;

- Personally identifiable information (PII) is collected only to the extent necessary and is not retained;
- Information gathered will be used only internally for general service improvement and program management purposes and is not intended for release outside of the agency;

- Information gathered will not be used for the purpose of substantially informing influential policy decisions; and

- Information gathered will yield qualitative information; the collections will not be designed or expected to yield statistically reliable results or used as though the results are generalizable to the population of study.

As a general matter, information collections under this generic collection request will not result in any new system of records containing privacy information and will not ask questions of a sensitive nature, such as sexual behavior and attitudes, religious beliefs, and other matters that are commonly considered private.

**Current actions:** We currently have 18 surveys that have been approved by OMB under this generic ICR that are ongoing and will continue through the renewal period. Some of these surveys include the OGIS Customer Service Assessment, NPRC Survey of Customer Satisfaction, Training and Event Evaluation, Public Vaults Exhibition Survey, Boeing Learning Center Visit Drivers, History Hub Survey, Agency Assistance Project Feedback Survey, National Archives and Records

Administration Customer Survey, and the National Outreach Program Initiative (NOPI) Master Survey.

**Type of review:** Regular.

**Potential affected public:** Anyone who uses NARA's services, programs, or facilities, including requesting personnel records, requesting historical, genealogical, or other archival records, using research rooms, requesting research or asking research questions, ordering and receiving reproductions, using FOIA dispute resolution services, using records management services, working with records management schedules, renting facilities, attending exhibitions, events, or open houses, using learning centers or educational materials, attending training, etc. This can include individuals and households, businesses and organizations, or state, local, or Tribal governments.

**Estimated number of respondents:** We currently have approximately 25,000 respondents annually to our 18 surveys. We are completely restructuring one of the surveys, the NPRC Survey of Customer Satisfaction, and migrating it from paper to online form. We anticipate that this will substantially increase the number of potential respondents to that survey from about 10,000 to 100,000 potential respondents. In addition, we expect to add and remove some additional surveys during the next three years, which might also result in a net decrease or increase in potential respondents. Therefore, we are projecting that between 120,000 and 150,000 respondents annually.

**Projected average estimates for the next three years:**

**Average expected annual number of surveys:** 12.

**Average projected number of respondents per survey:** 12,994.

**Annual responses per respondent:** 1.

**Frequency of response:** Once per request.

**Average minutes per response:** 10–30 minutes, depending on the survey.

**Burden hours:** 20,000–25,000.

## NUCLEAR REGULATORY COMMISSION

[NRC–2017–0142]

**Applications and Amendments to Facility Operating Licenses and Combined Licenses Involving Proposed No Significant Hazards Considerations and Containing Sensitive Unclassified Non-Safeguards Information and Order Imposing Procedures for Access to Sensitive Unclassified Non-Safeguards Information**

**AGENCY:** Nuclear Regulatory Commission.

**ACTION:** License amendment request; notice of opportunity to comment, request a hearing, and petition for leave to intervene; order imposing procedures.

**SUMMARY:** The U.S. Nuclear Regulatory Commission (NRC) received and is considering approval of two amendment requests. The amendment requests are for Virgil C. Summer Nuclear Station, Units 2 and 3, and Wolf Creek Generating Station (WCGS). For each amendment request, the NRC proposes to determine that they involve no
