* Regulation section 418.3670 could be used at any time; however, we currently have no data showing usage over the past three years.

3. *Request for Evidence from Doctor and Request for Evidence from Hospital—20 CFR 404 Subpart P and 20 CFR 416 Subpart I—0960-0722.* Sections 223(d)(5) and 1614(a)(3)(H)(i) of the Act require claimants to furnish medical evidence of their disability when filing a disability claim. SSA uses Forms HA-66 and HA-67 to request evidence from medical sources, which claimants identify as having information relative to their impairments, or ability

to do work-related activities. In addition to accepting manual paper responses, SSA sends a barcode with the HA-66 and HA-67, allowing respondents to fax the information directly into the electronic claims folder rather than submitting it manually. SSA uses the information to determine eligibility for benefits, and to pay medical sources for furnishing the information. The respondents are medical sources,

doctors, and hospitals that evaluate the claimants.

This is a correction notice: when we published the first **Federal Register** Notice on February 28, 2017 at 82 FR 12159, it did not include the accurate number of responses. We are correcting this by publishing the number of responses in a separate column in the chart below.

Type of Request: Revision of an OMB-approved information collection.
