Birch Power Company; Notice of Availability of Draft Environmental Assessment

In accordance with the National Environmental Policy Act of 1969 and the Federal Energy Regulatory Commission's (Commission or FERC) regulations, 18 Code of Federal Regulations Part 380, Office of Energy Projects staff has reviewed the application for original license for the Demopolis Lock and Dam Hydroelectric Project (FERC No. 13102–003) on the Tombigbee River.

The Demopolis Lock and Dam Hydroelectric Project would be located at an existing lock and dam owned by the U.S. Army Corps of Engineers on the Tombigbee River, west of the city of

Demopolis in Marengo and Sumter Counties, Alabama. The project would occupy 23 acres of federal land.

Staff has prepared this draft environmental assessment (draft EA) that analyzes the potential environmental effects of the project and concludes that constructing and operating the project, with appropriate environmental protection measures, would not constitute a major federal action that would significantly affect the quality of the human environment.

A copy of the draft EA is available for review at the Commission in the Public Reference Room or may be viewed on the Commission's Web site at www.ferc.gov using the "eLibrary" link.
