A QBS would allow BLS to leverage the multitude of information already known about the sample units to allow for targeted sampling. Samples could be selected based on different characteristics such as monthly employment, quarterly wages, industry codes, non-profit vs for profit status, etc. A QBS would permit BLS to target only the units meeting the specific set of characteristics desired allowing BLS to delve into specific areas of economic interest without burdening establishments which do not meet the specific targeted features. The QBS is designed to encourage a fast response and minimize respondent burden. In this manner, BLS can provide information that is needed quickly and is not collected elsewhere.

The goals of the test are to develop and evaluate a QBS system, to understand the extent to which ARS respondents have access to different types of information in order to provide parameters for future QBS, and to estimate response rates.

III. Desired Focus of Comments

The Bureau of Labor Statistics is particularly interested in comments that:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility.
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used.
- Enhance the quality, utility, and clarity of the information to be collected.
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submissions of responses.

Type of Review: New Collection. Agency: Bureau of Labor Statistics. Title: Quick Business Survey Operations Test.

OMB Number: 1220—NEW.
Affected Public: Businesses or other for-profit institutions, not-for-profit institutions, and farms.

Total Respondents: 10,520. Frequency: One time. Total Responses: 10,520. Average Time per Response: Five minutes.

Estimated Total Burden Hours: 877 hours.

Total Burden Cost (capital/startup): \$0.

Total Burden Cost (operating/maintenance): \$0.

Comments submitted in response to this notice will be summarized and/or included in the request for Office of Management and Budget approval of the information collection request; they also will become a matter of public record.

Signed at Washington, DC, this 3rd day of July 2017.

Kimberley Hill,

Chief, Division of Management Systems, Bureau of Labor Statistics.

DEPARTMENT OF LABOR

Bureau of Labor Statistics

Proposed Collection, Comment Request

ACTION: Notice.

SUMMARY: The Department of Labor, as part of its continuing effort to reduce paperwork and respondent burden, conducts a pre-clearance consultation program to provide the general public and Federal agencies with an opportunity to comment on proposed and/or continuing collections of information in accordance with the Paperwork Reduction Act of 1995 (PRA95). This program helps to ensure that requested data can be provided in the desired format, reporting burden (time and financial resources) is minimized, collection instruments are clearly understood, and the impact of collection requirements on respondents can be properly assessed. The Bureau of Labor Statistics (BLS) is soliciting comments concerning the proposed extension of the "Leave Supplement to the American Time Use Survey." A copy of the proposed information collection request (ICR) can be obtained by contacting the individual listed below in the **ADDRESSES** section of this

DATES: Written comments must be submitted to the office listed in the **ADDRESSES** section of this notice on or before September 8, 2017.

ADDRESSES: Send comments to Erin Good, BLS Clearance Officer, Division of Management Systems, Bureau of Labor Statistics, Room 4080, 2 Massachusetts Avenue NE., Washington, DC 20212. Written comments also may be transmitted by fax to 202–691–5111 (this is not a toll free number).

FOR FURTHER INFORMATION CONTACT: Erin Good, BLS Clearance Officer, at 202–691–7763 (this is not a toll free number). (See ADDRESSES section.)

SUPPLEMENTARY INFORMATION:

I. Background

The American Time Use Survey (ATUS) is the Nation's first federally administered, continuous survey on time use in the United States. It measures, for example, time spent providing childcare, working, sleeping, or doing leisure activities. In the United States, several existing Federal surveys collect income and wage data for individuals and families, and analysts often use such measures of material prosperity as proxies for quality of life. Time-use data substantially augment these quality-of-life measures. The data also can be used in conjunction with wage data to evaluate the contribution of non-market work to national economies. This enables comparisons of production between nations that have different mixes of market and nonmarket activities.

The ATUS is used to develop nationally representative estimates of how people spend their time. This is done by collecting a time diary about the activities survey respondents did over a 24-hour period "yesterday," from 4 a.m. on the day before the interview until 4 a.m. on the day of the interview. In the one-time interview, respondents also report who was with them during the activities, where they were, how long each activity lasted, and if they were paid. All of this information has numerous practical applications for sociologists, economists, educators, government policymakers, businesspersons, health researchers, and others.

The Leave Supplement supports the mission of the Bureau of Labor Statistics by providing relevant information on economic and social issues. The data from the Leave Supplement can be used for research on the relationships between work schedules, job flexibilities, access to leave, and time use. These data enhance the understanding of people's overall wellbeing. The supplement surveys employed wage and salary workers, except those who are self-employed, aged 15 and up, from a nationally representative sample of approximately 2,060 sample households each month.

The Leave Supplement collects data about workers' access to and use of paid and unpaid leave, job flexibility, and their work schedules. The Leave Supplement also includes questions about shift work, advance notice of work schedules, workers' control over

their schedules, flexible start and stop times, and work at home arrangements. These questions provide an additional dimension to analyses of workers' job flexibility data.

II. Current Action

Office of Management and Budget approval is being sought for the Leave Supplement to the American Time Use Survey. An extension without change of a currently approved collection is needed to continue collecting data on workers' access to and use of paid and unpaid leave, job flexibility, and their work schedules.

Collecting the Leave Supplement in 2018 will add significant information beyond what has been collected in 2017. An additional year of the Leave Supplement provides researchers with a larger sample by combining data across years. For some subpopulations, the number of observations needed to make valid statistical inferences exceeds the annual sample size.

III. Desired Focus of Comments

The Bureau of Labor Statistics is particularly interested in comments that:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility.
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used.
- Enhance the quality, utility, and clarity of the information to be collected.
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submissions of responses.

Type of Review: Extension without change of a currently approved collection.

Agency: Bureau of Labor Statistics. Title: Leave Supplement to the American Time Use Survey. OMB Number: 1220–0191. Affected Public: Individuals or

Households.

Total Respondents: 5,490.

Frequency: One time.

Total Responses: 5,490.

Average Time per Response: 5 minutes.

Estimated Total Burden Hours: 458 hours.

Total Burden Cost (capital/startup): \$0.

Total Burden Cost (operating/maintenance): \$0.

Comments submitted in response to this notice will be summarized and/or included in the request for Office of Management and Budget approval of the information collection request; they also will become a matter of public record.

Signed at Washington, DC, this 3rd day of July, 2017.

Kimberley Hill,

Chief, Division of Management Systems, Bureau of Labor Statistics.

BILLING CODE 4510-24-P

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

[17-048]

Notice of Information Collection

AGENCY: National Aeronautics and Space Administration (NASA).

ACTION: Notice of information collection

SUMMARY: The National Aeronautics and Space Administration, as part of its continuing effort to reduce paperwork and respondent burden, invites the general public and other Federal agencies to take this opportunity to comment on proposed and/or continuing information collections, as required by the Paperwork Reduction Act of 1995.

DATES: All comments should be submitted within 60 calendar days from the date of this publication.

ADDRESSES: All comments should be addressed to Frances Teel, National Aeronautics and Space Administration, Mail Code JF–000, Washington, DC 20546–0001.

FOR FURTHER INFORMATION CONTACT:

Requests for additional information or copies of the information collection instrument(s) and instructions should be directed to Frances Teel, NASA Clearance Officer, NASA Headquarters, 300 E Street SW., JF0000, Washington, DC 20546.

SUPPLEMENTARY INFORMATION:

I. Abstract

The information submitted by recipients is an annual report of Government-owned property in the possession of Educational or Nonprofit institutions holding NASA grants. In addition the annual report, a property report may also be required at the end of the grant, or on the occurrence of certain events. The collected

information is used by NASA to effectively maintain an appropriate internal control system for equipment and property provided or acquired under grants and cooperative agreements with institutions of higher education and other nonprofit organizations, and to comply with statutory requirements.

II. Method of Collection

NASA is participating in Federal efforts to extend the use of information technology to more Government processes via Internet.

III. Data

Title: Property Inventory Report— Grants with Educational and Nonprofit Entities (formerly titled: NASA Inventory Report: Property Management & Control, Grants).

OMB Number: 2700-0047.

Type of review: Reinstatement with Change/Previously Approved Information Collection.

Affected Public: Educational institutions and Not-for-profit institutions.

Estimated Number of Respondents: 255.

Estimated Time per Response: 2 hours per submission, and 8 hours of annual recordkeeping.

Estimated Total Annual Burden Hours: 2,014 hours.

Estimated Total Annual Cost: \$78,104.60.

IV. Request for Comments

Comments are invited on: (1) Whether the proposed collection of information is necessary for the proper performance of the functions of NASA, including whether the information collected has practical utility; (2) the accuracy of NASA's estimate of the burden (including hours and cost) of the proposed collection of information; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) ways to minimize the burden of the collection of information on respondents, including automated collection techniques or the use of other forms of information technology.

Comments submitted in response to this notice will be summarized and included in the request for OMB approval of this information collection. They will also become a matter of public record.

Frances Teel,

NASA PRA Clearance Officer.
