Air Plan Approval; Illinois; Emissions Statement Rule Certification for the 2008 Ozone Standard**AGENCY:** Environmental Protection Agency (EPA).**ACTION:** Proposed rule.

SUMMARY: The Environmental Protection Agency (EPA) is proposing to approve a State Implementation Plan (SIP) submission from the Illinois Environmental Protection Agency (IEPA) dated May 9, 2017. The submission provides IEPA's certification that its existing emission statement program, titled "Annual Emissions Report", remains in effect and satisfies the Clean Air Act (CAA) emissions statement requirement for the Illinois portions of the Chicago-Naperville, Illinois-Indiana-Wisconsin and St. Louis-St. Charles-Farmington, Missouri-Illinois nonattainment areas under the 2008 ozone National Ambient Air Quality Standard (NAAQS). Under the CAA, states' SIPs must require stationary sources in ozone nonattainment areas classified as marginal or above to annually report emissions of Volatile Organic Compounds (VOC) and Oxides of Nitrogen (NO_x).

Labeling Relief; Formaldehyde Emission Standards for Composite Wood Products

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: EPA is proposing to amend a final rule that published in the **Federal Register** on December 12, 2016 concerning formaldehyde emission standards for composite wood products. The proposed amendment would allow compliant composite wood products and finished goods that contain compliant composite wood products that were manufactured prior to December 12, 2017 to be labeled as Toxic Substances Control Act (TSCA) Title VI compliant. This means that regulated composite wood products and finished goods that meet the required formaldehyde emissions standards could be voluntarily labeled as compliant as soon as compliance can be achieved. This would enhance regulatory flexibility and facilitate a smoother supply chain transition to compliance with the rule's broader requirements, as well as promote lower formaldehyde emitting products entering commerce earlier than under the rule as originally published. EPA believes that the proposed amendment is non-controversial and does not expect to receive any adverse comments. Therefore, in addition to this Notice of Proposed Rulemaking, elsewhere in this issue of the **Federal Register**, EPA is promulgating the amendment as a direct final rule.

DATES: Written comments must be received by July 26, 2017. Comments postmarked after the close of the comment period will be stamped "late" and may or may not be considered by the Agency.
