

sections 111(d)/129 Federal plans to state environmental agencies. The requirements and limitations of a delegation agreement are defined in item 7–139. The Regional Administrator may consider delegating authority to implement and enforce Federal plans to a state provided the following conditions are met: (1) The state does not already have an EPA approved State plan; and (2) items (1) and (4) as described above from section 62.15865 of the SSI Federal plan.

NJDEP has met all of the EPA's delegation requirements as described above. The reader may view the NJDEP's letter to the EPA requesting delegation and the MOA signed by both parties at www.regulations.gov, identified by Docket ID Number EPA–R02–OAR–2017–0132.

VI. What is the EPA's conclusion?

The EPA has evaluated the NJDEP's submittal for consistency with the CAA, EPA regulations, and EPA policy. The NJDEP has met all the requirements of the EPA's guidance for obtaining delegation of authority to implement and enforce the SSI Federal plan. The NJDEP entered into a MOA with the EPA and it became effective on January 24, 2017. Accordingly, the EPA proposes to approve the NJDEP's request dated October 12, 2016 for delegation of authority of the Federal plan for existing SSI units. The EPA will continue to retain certain specific authorities reserved to the EPA in the SSI Federal plan and as indicated in the MOA (*e.g.*, authority to approve major alternatives to test methods or monitoring, etc.).

VII. Statutory and Executive Order Reviews

Under the CAA, the Administrator is required to approve a State plan submission that complies with the provisions of CAA sections 111(d) and 129(b)(2) and applicable Federal regulations. 42 U.S.C. 7411(d) and 7429(b)(2); 40 CFR 62.02(a). Thus, in reviewing State plan submissions, the EPA's role is to approve state choices, provided that they meet the criteria of the CAA. Accordingly, this action merely proposes to approve state law as meeting Federal requirements and does not impose additional requirements beyond those imposed by state law. For that reason, this proposed action:

- Is not a "significant regulatory action" subject to review by the Office of Management and Budget under Executive Order 12866 (58 FR 51735, October 4, 1993);
- does not impose an information collection burden under the provisions

of the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*);

- is certified as not having a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*);
- does not contain any unfunded mandate or significantly or uniquely affect small governments, as described in the Unfunded Mandates Reform Act of 1995 (Pub. L. 104–4);
- does not have Federalism implications as specified in Executive Order 13132 (64 FR 43255, August 10, 1999);
- is not an economically significant regulatory action based on health or safety risks subject to Executive Order 13045 (62 FR 19885, April 23, 1997);
- is not a significant regulatory action subject to Executive Order 13211 (66 FR 28355, May 22, 2001);
- is not subject to requirements of Section 12(d) of the National Technology Transfer and Advancement Act of 1995 (15 U.S.C. 272 note) because application of those requirements would be inconsistent with the CAA; and
- does not provide the EPA with the discretionary authority to address, as appropriate, disproportionate human health or environmental effects, using practicable and legally permissible methods, under Executive Order 12898 (59 FR 7629, February 16, 1994).

In addition, this proposed rulemaking action, pertaining to the NJDEP's section 111(d)/(129) request for delegation of authority to implement and enforce the Federal plan for existing SSI units, does not have tribal implications as specified by Executive Order 13175 (65 FR 67249, November 9, 2000), because the NJDEP's section 111(d)/129 delegation request is not approved to apply in Indian country located in the state, and the EPA notes that it will not impose substantial direct costs on tribal governments or preempt tribal law.

Oklahoma: Final Authorization of State Hazardous Waste Management Program Revisions

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: The State of Oklahoma has applied to Environmental Protection Agency (EPA) for Final authorization of the changes to its hazardous waste program under the Resource Conservation and Recovery Act (RCRA). EPA proposes to grant Final authorization to the State of Oklahoma. In the "Rules and Regulations" section of this **Federal Register**, EPA is authorizing the changes by an immediate final rule. EPA did not make a proposal prior to the direct final rule because we believe this action is not controversial and do not expect comments that oppose it. We have explained the reasons for this authorization in the preamble to the direct final rule. Unless we get written comments which oppose this authorization during the comment period, the direct final rule will become effective 60 days after publication and we will not take further action on this proposal. If we receive comments that oppose this action, we will withdraw the direct final rule and it will not take effect. We will then respond to public comments in a later final rule based on this proposal. You may not have another opportunity for comment. If you want to comment on this action, you must do so at this time.

DATES: Send your written comments by August 14, 2017.

ADDRESSES: Submit any comments identified by Docket ID No. EPA–R06–RCRA–2016–0344 by one of the following methods:
