Approximately 15 minutes will be reserved from 3:35 p.m. - 3:50 p.m. for public comments. Speaking times will be assigned on a first-come, first-served basis. The amount of time per speaker will be determined by the number of requests received but is likely to be about three minutes each. Questions from the public will not be considered during this period. All those wishing to speak must submit their request by email to the attention of Mr. Steve Potts, stephen.potts@nist.gov by 5:00 p.m. Eastern time, Monday, September 11, 2017. Speakers who wish to expand upon their oral statements, those who had wished to speak but could not be accommodated, and those who were unable to participate are invited to submit written comments to NACWIR, National Institute of Standards and Technology, 100 Bureau Drive, MS 8611, Gaithersburg, Maryland 20899, or electronically by email to stephen.potts@nist.gov.

Kevin Kimball, NIST Chief of Staff.

RIN 0648–XF378

Marine Mammals; File No. 21059

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice; receipt of application.

SUMMARY: Notice is hereby given that Glacier Bay National Park and Preserve, P.O. Box 140, Gustavus, AK 99826 (Responsible Party: Philip N. Hooge), has applied in due form for a permit to conduct research on humpback (Megaptera novaeangliae), killer (Orcinus Orca), minke (Balaenoptera acutorostrata) and gray whales (Eschrichtius robustus).

DATES: Written, telefaxed, or email comments must be received on or before August 14, 2017.

ADDRESSES: The application and related documents are available for review by selecting “Records Open for Public Comment” from the “Features” box on the Applications and Permits for Protected Species (APPS) home page, https://apps.nmfs.noaa.gov, and then selecting File No. 21059 from the list of available applications.

These documents are also available upon written request or by appointment in the Permits and Conservation Division, Office of Protected Resources, NMFS, 1315 East-West Highway, Room 13705, Silver Spring, MD 20910; phone (301) 427–8401; fax (301) 713–0376.

Written comments on this application should be submitted to the Chief, Permits and Conservation Division, at the address listed above. Comments may also be submitted by facsimile to (301) 713–0376, or by email to NMFS.PriComments@noaa.gov. Please include the File No. in the subject line of the email comment.

Those individuals requesting a public hearing should submit a written request to the Chief, Permits and Conservation Division at the address listed above. The request should set forth the specific reasons why a hearing on this application would be appropriate.

FOR FURTHER INFORMATION CONTACT: Courtney Smith or Carrie Hubard, (301) 427–8401.

The proposed permit would authorize takes of the above listed species during vessel surveys to gather information currently lacking regarding their ecology, behavior and population status to enable information-based resource management in southeastern Alaska especially Glacier Bay National Park & Preserve (GBNPP). The core study area is Glacier Bay/Icy Strait, but includes all nearshore waters of the mainland and Alexander Archipelago. Takes by harassment may occur by close approach for vessel surveys, photo-identification, behavioral observation, collection of feces/slugged skin, biopsy sampling and passive acoustic recording. The maximum number of annual approaches to whales (risking Level B harassment) will be 2500 humpback whales, 500 killer whales, 20 minke whales and 20 gray whales. Biopsy takes on 50 humpback and 50 killer whales are also requested. The permit would be valid for five years.

In compliance with the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.), an initial determination has been made that the activity proposed is categorically excluded from the requirement to prepare an environmental assessment or environmental impact statement.

Concurrent with the publication of this notice in the Federal Register, NMFS is forwarding copies of the application to the Marine Mammal Commission and its Committee of Scientific Advisors.

Catherine Marzin,
Acting Deputy Director, Office of Protected Resources, National Marine Fisheries Service.

...
to the Chief, Permits and Conservation Division at the address listed above. The request should set forth the specific reasons why a hearing on this application would be appropriate.

FOR FURTHER INFORMATION CONTACT: Shasta McClenahan or Carrie Hubard, (301) 427–8401.

The applicant requests a 5-year permit to take marine mammals for research in the Atlantic Ocean and off the west coast of Florida during vessel and manned and unmanned aerial surveys. The objectives of the research are to continue North Atlantic right whale (Eubalaena glacialis) population monitoring efforts, identifying and reducing human causes of mortality and serious injury, monitoring and protecting NARW habitat, and helping to implement the NARW Recovery Plan. Up to 500 endangered NARWs, and 50 non-listed humpback whales (Megaptera novaeangliae) may be targeted annually for research activities including counts, behavioral observations, photography, photo-identification, photogrammetry, video recording, and passive acoustic recording. Biological samples, including sloughed skin, fecal, breath, and skin and blubber biopsies, may be collected from 95 NARW adults or juveniles and 60 NARW calves annually, and these samples may be exported and reimported for analysis. Up to 15 NARWs may be tagged each year with either traditional dart/barb tags or suction-cup tags. Additional marine mammals that may be harassed incidental to research include up to 50 each of endangered sei whales (Balaenoptera borealis) and non-listed long-finned pilot whales (Globicephala melas), and 500 each of Atlantic white-sided (Lagenorhynchus acutus), Atlantic spotted (Stenella frontalis), and bottlenose (Tursiops truncatus) dolphins, annually.

In compliance with the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.), an initial determination has been made that the activity proposed is categorically excluded from the requirement to prepare an environmental assessment or environmental impact statement.

Concurrent with the publication of this notice in the Federal Register, NMFS is forwarding copies of the application to the Marine Mammal Commission and its Committee of Scientific Advisors. Dated: July 7, 2017.

Fisheries of the Exclusive Economic Zone Off Alaska; Bering Sea and Aleutian Islands Crab Rationalization Cost Recovery Program

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notification of fee percentage.

SUMMARY: NMFS publishes notification of a 1.57 percent fee for cost recovery under the Bering Sea and Aleutian Islands Crab Rationalization Program. This action is intended to provide holders of crab allocations with the fee percentage for the 2017/2018 crab fishing year so they can calculate the required payment for cost recovery fees that must be submitted by July 31, 2018.

DATES: The Crab Rationalization Program Registered Crab Receiver permit holder is responsible for submitting the fee liability payment to NMFS on or before July 31, 2018.

FOR FURTHER INFORMATION CONTACT: Suja Hall, 907–586–7228.

SUPPLEMENTARY INFORMATION:

Background
NMFS Alaska Region administers the Bering Sea and Aleutian Islands Crab Rationalization Program (Program) in the North Pacific. Fishing under the Program began on August 15, 2005. Regulations implementing the Program can be found at 50 CFR part 680.

The Program is a limited access system authorized by section 313(j) of the Magnuson-Stevens Fishery Conservation and Management Act (Magnuson-Stevens Act). The Program includes a cost recovery provision to collect fees to recover the actual costs directly related to the management, data collection, and enforcement of the Program. The Program implemented under the authority of section 313(j) is consistent with the cost recovery provisions included under section 304(d)(2)(A) of the Magnuson-Stevens Act. NMFS developed the cost recovery provision to conform to statutory requirements and to reimburse the agency for the actual costs directly related to the management, data collection, and enforcement of the Program. The cost recovery provision allows collection of 133 percent of the actual management, data collection, and enforcement costs up to 3 percent of the ex-vessel value of crab harvested under the Program. The Program provides that a proportional share of fees charged for management and enforcement be forwarded to the State of Alaska for its share of management and data collection costs for the Program. The cost recovery provision also requires the harvesting and processing sectors to pay half the cost recovery fees. Catcher/processor quota shareholders are required to pay the full fee percentage for crab processed at sea. A crab allocation holder generally incurs a cost recovery fee liability for every pound of crab landed. The crab allocations include Individual Fishing Quota, Crew Individual Fishing Quota, Individual Processing Quota, Community Development Quota, and the Adak community allocation. The Registered Crab Receiver (RCR) permit holder must collect the fee liability from the crab allocation holder who is landing crab. Additionally, the RCR permit holder must collect his or her own fee liability for all crab delivered to the RCR. The RCR permit holder is responsible for submitting this payment to NMFS on or before July 31, in the year following the crab fishing year in which landings of crab were made.

The dollar amount of the fee due is determined by multiplying the fee percentage (not to exceed 3 percent) by the ex-vessel value of crab debited from the allocation. Specific details on the Program’s cost recovery provision may be found in the implementing regulations at 50 CFR 680.44.

Fee Percentage

Each year, NMFS calculates and publishes in the Federal Register the fee percentage according to the factors and methodology described at § 680.44(c)(2). The formula for determining the fee percentage is the “direct program costs” divided by “value of the fishery,” where “direct program costs” are the direct program costs for the previous fiscal year, and “value of the fishery” is the ex-vessel value of the
