

National Environmental Policy Act (NEPA)

NMFS prepared an Environmental Assessment (EA) in accordance with the National Environmental Policy Act (NEPA). A Finding of No Significant Impact (FONSI) was signed in June 2017. A copy of the EA and FONSI are posted at http://www.nmfs.noaa.gov/pr/permits/incidental/energy_other.htm.

Authorization

NMFS has issued an IHA to Deepwater Wind for the potential harassment of small numbers of 18 marine mammal species incidental to high-resolution geophysical (HRG) and geotechnical survey investigations associated with marine site characterization activities off the coast of New York in the Project Area, provided the previously mentioned mitigation, monitoring and reporting.

Mid-Atlantic Fishery Management Council (MAFMC); Public Meeting

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice; public meeting.

SUMMARY: The Mid-Atlantic Fishery Management Council (Council) will hold a public webinar meeting.

DATES: The meeting will be held on Tuesday, August 1, 2017, from 2 p.m. until 4:30 p.m.

ADDRESSES: The meeting will be held via webinar with a telephone-only connection option. The webinar can be accessed at http://mafmc.adobeconnect.com/chub_hms_diet/.

Audio can be accessed through the webinar link or by dialing 1-800-832-0736 and entering meeting room number 5068871.

Council address: Mid-Atlantic Fishery Management Council, 800 N. State Street, Suite 201, Dover, DE 19901; telephone: (302) 674-2331; www.mafmc.org.

FOR FURTHER INFORMATION CONTACT: Christopher M. Moore, Ph.D., Executive

Director, Mid-Atlantic Fishery Management Council; telephone: (302) 526-5255.

SUPPLEMENTARY INFORMATION: The goal of this webinar is to understand the importance of Atlantic chub mackerel (*Scomber colias*) to the diets of highly migratory species (HMS) predators in U.S. waters, with a focus on recreationally-important predators such as large tunas and billfish. The objectives of the meeting are to: (1) Convene a panel of scientific experts on HMS diets, (2) clarify what is known about the importance of chub mackerel to HMS diets based on currently available data, and (3) develop recommendations for future studies to quantify the role of chub mackerel in HMS diets. Meeting these objectives will help the Council analyze the potential impacts of chub mackerel management alternatives on HMS predators as well as on recreational fisheries for those predators. The Council is developing chub mackerel management alternatives through an amendment to the Mackerel, Squid, Butterfish Fishery Management Plan. More information on the amendment is available at: <http://www.mafmc.org/actions/chub-mackerel-amendment>. To facilitate productive discussions among the invited experts, public participation during this webinar meeting will be limited to designated question and answer and comment periods. Members of the public are invited to email questions for the invited experts to Council staff (jbeaty@mafmc.org) in advance of the meeting.

Special Accommodations

The meeting is physically accessible to people with disabilities. Requests for sign language interpretation or other auxiliary aid should be directed to M. Jan Saunders, (302) 526-5251, at least 5 days prior to the meeting date.

Dated: July 7, 2017.

[Marine Mammals; File No. 21006]

Receipt of Application

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and

Atmospheric Administration (NOAA), Commerce.

ACTION: Notice; receipt of application.

SUMMARY: Notice is hereby given that Linnea Pearson, California Polytechnic State University, 1 Grand Ave, San Luis Obispo, CA 93407, has applied in due form for a permit to conduct research on Weddell seals (*Leptonychotes weddellii*).

DATES: Written, telefaxed, or email comments must be received on or before August 14, 2017.

ADDRESSES: The application and related documents are available for review by selecting "Records Open for Public Comment" from the "Features" box on the Applications and Permits for Protected Species (APPS) home page, <https://apps.nmfs.noaa.gov>, and then selecting File No. 21006 from the list of available applications.

These documents are also available upon written request or by appointment in the Permits and Conservation Division, Office of Protected Resources, NMFS, 1315 East-West Highway, Room 13705, Silver Spring, MD 20910; phone (301) 427-8401; fax (301) 713-0376.

Written comments on this application should be submitted to the Chief, Permits and Conservation Division, at the address listed above. Comments may also be submitted by facsimile to (301) 713-0376, or by email to NMFS.Pr1Comments@noaa.gov. Please include the File No. in the subject line of the email comment.

Those individuals requesting a public hearing should submit a written request to the Chief, Permits and Conservation Division at the address listed above. The request should set forth the specific reasons why a hearing on this application would be appropriate.

FOR FURTHER INFORMATION CONTACT: Sara Young or Amy Sloan, (301) 427-8401.

SUPPLEMENTARY INFORMATION: The subject permit is requested under the authority of the Marine Mammal Protection Act of 1972, as amended (MMPA; 16 U.S.C. 1361 *et seq.*) and the regulations governing the taking and importing of marine mammals (50 CFR part 216).

The applicant proposes to study the thermoregulatory strategies (insulation, thermogenic mechanisms) by which Weddell seal pups maintain eutheria in air and in water and examine the development of diving capability (oxygen stores) as the animals prepare for independent foraging. This study will take place near McMurdo Station in Antarctica. In each field season (two field seasons total), ten pups (20 total) will be handled at four time points

between one week and eight weeks of age. Protocols not requiring sedation (mass, morphometrics, core and surface temperatures, metabolic rates) as well as protocols requiring anesthesia (body composition, biopsies, and blood volume analysis) will be conducted on five individuals at all four time points under manual restraint. Metabolic and morphometric measurements will be conducted on a separate cohort of five pups at each of the four time points. The applicant is also proposing to take up to 350 animals for flipper tag reading, thermal imaging, and incidental harassment due to work with conspecifics. Take of seven Weddell seal pups, 15 Weddell seal adult females, and 20 crabeater seals is also requested due to harassment from capturing the Weddell seal pups. Up to two pup mortalities are requested annually, not to exceed three over the two field seasons. The permit would be valid for two years.

In compliance with the National Environmental Policy Act of 1969 (42 U.S.C. 4321 *et seq.*), an initial determination has been made that the activity proposed is categorically excluded from the requirement to prepare an environmental assessment or environmental impact statement.

Concurrent with the publication of this notice in the **Federal Register**, NMFS is forwarding copies of the application to the Marine Mammal Commission and its Committee of Scientific Advisors.

Dated: July 10, 2017.

SUPPLEMENTARY INFORMATION:

Title: Real-Time Public Reporting and Block Trade (OMB Control No. 3038-0070). This is a request for extension of currently approved information collections.

Abstract: Title VII of the Dodd-Frank Wall Street Reform and Consumer

Protection Act (Dodd-Frank Act) added to the Commodity Exchange Act (CEA) new section 2(a)(13), which establishes standards and requirements related to real-time reporting and the public availability of swap transaction and pricing data. Section 2(a)(13) and part 43 of the Commission's Regulations require reporting parties to publish real-time swap transactions and pricing data to the general public. Without the frequency of reporting set forth in part 43, the Commission would not be able to adequately assess the swap markets and, more importantly, would fail to achieve the frequency of reporting and promotion of increased price discovery in the swaps market which are mandated by the Dodd-Frank Act.

Burden Statement: Part 43 of the Commission's regulations results in three information collection requirements within the meaning of the PRA.¹ The first collection of information requirement under part 43 imposes a reporting requirement on registered swap execution facilities ("SEFs") or designated contract markets ("DCMs") when a swap is executed on a trading facility or on the parties to a swap transaction when the swap is executed bilaterally. The second collection of information requirement under part 43 of the Commission's regulations creates a public dissemination requirement on registered swap data repositories ("SDRs"). The third collection of information requirement imposes a recordkeeping requirement for SEFs, DCMs, SDRs and any reporting party (as such term is defined in part 43 of the Commission's regulations).

The Commission notes that rather than the initial estimate of 40 SEFs, there currently are 25 SEFs either registered with the Commission or with registration pending.² The Commission notes that rather than the initial estimate of 18 DCMs, there currently are 15 DCMs registered with the Commission.³ The Commission notes that rather than the initial estimate of 15 SDRs, there currently are 4 SDRs registered with the Commission.⁴ Based on the experience gained by the Commission with regard to SDRs, the Commission estimates that rather than the initial estimate of 750 reporting parties who are not swap dealers ("SDs") or major swap participants ("MSPs"), and who contract with third parties to satisfy their reporting obligations, there are 496 such reporting
