

market by incentivizing increased participation.

For the foregoing reasons, the Exchange believes that the proposal is consistent with the Act.

B. Self-Regulatory Organization's Statement on Burden on Competition

In accordance with Section 6(b)(8) of the Act,⁹ the Exchange believes that the proposed rule change would not impose any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act. Instead, the Exchange believes that the addition of the proposed new credit would encourage the submission of additional liquidity to a public exchange, thereby promoting price discovery and transparency and enhancing order execution opportunities for ETP Holders and Market Makers. The Exchange believes that this could promote competition between the Exchange and other execution venues, including those that currently offer similar order types and comparable transaction pricing, by encouraging additional orders to be sent to the Exchange for execution.

The Exchange notes that it operates in a highly competitive market in which market participants can readily favor competing venues if they deem fee levels at a particular venue to be excessive or rebate opportunities available at other venues to be more favorable. In such an environment, the Exchange must continually adjust its fees and rebates to remain competitive with other exchanges and with alternative trading systems that have been exempted from compliance with the statutory standards applicable to exchanges. Because competitors are free to modify their own fees and credits in response, and because market participants may readily adjust their order routing practices, the Exchange believes that the degree to which fee changes in this market may impose any burden on competition is extremely limited. As a result of all of these considerations, the Exchange does not believe that the proposed changes will impair the ability of ETP Holders or competing order execution venues to maintain their competitive standing in the financial markets.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

No written comments were solicited or received with respect to the proposed rule change.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

The foregoing rule change is effective upon filing pursuant to Section 19(b)(3)(A)¹⁰ of the Act and subparagraph (f)(2) of Rule 19b-4¹¹ thereunder, because it establishes a due, fee, or other charge imposed by the Exchange.

At any time within 60 days of the filing of such proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act. If the Commission takes such action, the Commission shall institute proceedings under Section 19(b)(2)(B)¹² of the Act to determine whether the proposed rule change should be approved or disapproved.

SUPPLEMENTARY INFORMATION: The FHWA, in cooperation with the Georgia Department of Transportation (GDOT), will prepare an Environmental Impact Statement (EIS) for proposed improvements along I-516/SR 21/CS 1503/DeRenne Avenue and Hampstead Avenue. An evaluation under Section 4(f) of the DOT Act of 1966 may also be required due to the potential for impacts to resources eligible for the National Register of Historic Places. The project is being developed to alleviate congestion and improve mobility along the I-516 and SR 21/CS 1503/DeRenne Avenue corridor. Proposed project elements may include modifications at the interchange of I-516 and SR 21, improvements along roads adjacent to DeRenne Avenue, intersection upgrades, and improvements along DeRenne Avenue.

A study corridor large enough to incorporate detailed studies for the full range of alternatives to be considered for the project will be evaluated. The EIS will be prepared in accordance with the National Environmental Policy Act (NEPA: 42 U.S.C. 4321 *et seq.*) of 1969, and the regulations implementing NEPA set forth in 40 CFR parts 1500-1508 and 23 CFR part 771, as well as the provisions of the Safe Accountable Flexible Efficient Transportation Equity Act: A Legacy for Users (SAFETEA-LU) and Moving Ahead for Progress in the 21st Century (MAP-21). The document will also satisfy the requirements of other applicable statutes, rules and regulations including the Georgia Environmental Policy Act (GEPA).

Public involvement is a critical component of NEPA project development. To date, outreach efforts have included development of a local Steering Committee, a Public Information Open House, targeted outreach within several communities along the project corridor, and a field site visit with public walk-through. To ensure that the full range of issues related to this proposed action are addressed and all significant issues identified, public outreach and involvement will continue, and

comments and suggestions are invited from all interested parties. Specific efforts to encourage involvement by, and solicit comments from, minority and low-income populations in the project study area will continue through the EIS process. A public hearing will be held after the completion of the Draft EIS, and the EIS will be made available for review by federal and state resource agencies and the public. Project information, comments, video, and concepts will be maintained throughout the EIS process on an existing link through the City of Savannah Web site (www.savannahga.gov/derenne).

Additional agency coordination will begin with publication of the NOI, followed by initial contact and scoping occurring within 45 to 60 days after publication of the NOI and continuing coordination throughout the EIS process.

Regulations implementing NEPA, as well as the provisions of SAFETEA-LU and MAP-21, call for enhanced agency and public involvement in the EIS process. An invitation to all Federal and non-Federal agencies and Native American tribes that may have an interest in the proposed project will be extended. In the event that an agency or tribe is not invited and would like to participate, please contact Ryan Perry at the contact information listed above.
