FOR FURTHER INFORMATION CONTACT:

Alphonso Pendergrass (202) 267-4713, Office of Rulemaking, Federal Aviation Administration, 800 Independence Avenue SW., Washington, DC 20591.

This notice is published pursuant to 14 CFR 11.85.

Issued in Washington, DC, on July 12, 2017.

Dale Bouffiou,

Deputy Director, Office of Rulemaking.

Petition for Exemption

Docket No.: FAA-2015-0226.

Petitioner: Mr. Edward Silva.

Section(s) of 14 CFR Affected: §§ 61.39, 61.153 and 61.156.

Description of Relief Sought: Mr. Edward John Silva is a Captain in the U.S. Air Force flying the Boeing C-17 Globemaster III. Captain Silva holds a FAA commercial pilot certificate in the airplane category with single-engine and multiengine class ratings and an instrument rating and would like to obtain an airline transport pilot (ATP) certificate with an airplane category and multiengine class rating. After July 31, 2014, all applicants for the ATP certificate with an airplane category and multiengine class rating are required to complete the training identified in § 61.156 from an FAA-approved provider prior to completing the FAA knowledge and practical tests for this certificate. Prior to August 1, 2014, the training requirement did not exist, therefore a pilot only needed to complete the knowledge test prior to taking the practical test. The previous ATP knowledge test results were good for 24 calendar months; therefore, had Captain Silva taken the ATP knowledge test prior to August 1, 2014, he could have used those results to demonstrate eligibility for the ATP practical test for the duration of the validity period. Captain Silva stated he intended to complete the ATP knowledge test prior to August 1, 2014, but was placed on a short notice deployment and he was unable to complete it while overseas. Captain Silva seeks relief from the requirement to complete the airline transport pilot certification training program required by §§ 61.39, 61.153, and 61.156 prior to taking the practical test based on his military experience and deployment.

This notice is published pursuant to 14 CFR 11.85.

Issued in Burlington, Massachusetts, on July 6, 2017.

Carlos A. Pestana,

Acting Assistant Manager, Engine and Propeller Directorate, Aircraft Certification Service.

Petition for Exemption

Docket No.: FAA-2017-0471.

Petitioner: General Electric Company.
Section of 14 CFR Affected: Section 33.27(c).

Description of Relief Sought: The General Electric Company (a.k.a. GE) seeks relief from the requirements of § 33.27(c) for a complete loss of load occurrence on the stage 2 high pressure turbine (HPT) rotor overspeed conditions caused by a failure within a portion (axial segments) of the HPT aft shafting for certain GE9X engine models.
