Review Editors do not provide additional comments on assigned draft chapters; rather, they ensure each and every comment has been considered by the author team, and that the ‘annotation’ (*i.e.*, written responses to comments) is responsive to the comment and indicates any revision made to the chapter(s), including the scientific or logical rationale for said action.

Potential nominees should be accomplished scientists and/or science communicators with climate-related proficiency in at least one of the regions, sectors, or responses topics outlined in the NCA4 Outline, (described below in the Appendix and accessible via <http://www.globalchange.gov/content/nca4-outline>).
