### National Institute of Standards and Technology

#### Prospective Grant of Exclusive Patent License

**AGENCY:** National Institute of Standards and Technology, Department of Commerce.

**ACTION:** Notice; prospective grant of exclusive patent license.

**SUMMARY:** The National Institute of Standards and Technology ("NIST"), U.S. Department of Commerce, is contemplating the grant of an exclusive license in the United States of America, its territories, possessions and commonwealths, to NIST's interest in the invention embodied in U.S. Patent Application No. 15/596,243, titled "Linear Absorption Spectrometer to Optically Determine an Absolute Mole Fraction of Radiocarbon in a Sample" (NIST Docket 17-011) to Planetary Emissions Management, Inc. The grant of the license would be for determination of carbon-14 isotope concentration in samples in all fields.

**DATES:** The prospective exclusive license may be granted unless NIST receives written evidence and argument which establish that the grant of the license would not be consistent with the requirements of 35 U.S.C. 209 and 37 CFR 404.7 by August 9, 2017.

**ADDRESSES:** Information related to this license may be submitted to NIST, Technology Partnerships Office, 100

Bureau Drive, Stop 2200, Gaithersburg, MD 20899, or emailed to [donald.archer@nist.gov](mailto:donald.archer@nist.gov).

**FOR FURTHER INFORMATION CONTACT:** Donald G. Archer, National Institute of Standards and Technology, Technology Partnerships Office, 100 Bureau Drive, Stop 2200, Gaithersburg, MD 20899, (301) 975-2522, [donald.archer@nist.gov](mailto:donald.archer@nist.gov).

**SUPPLEMENTARY INFORMATION:** This is a notice in accordance with 35 U.S.C. 209(e) and 37 CFR 404.7(a)(1)(i) that NIST is contemplating the grant of an exclusive license in the United States of America, its territories, possessions and commonwealths, to NIST's interest in the invention embodied in U.S. Patent Application No. 15/596,243, titled "Linear Absorption Spectrometer to Optically Determine an Absolute Mole Fraction of Radiocarbon in a Sample" (NIST Docket 17-011) to Planetary Emissions Management, Inc. The grant of the license would be for determination of carbon-14 isotope concentration in samples in all fields.

The prospective exclusive license will be royalty bearing and will comply with the terms and conditions of 35 U.S.C. 209 and 37 CFR 404.7. The prospective exclusive license may be granted unless, within fifteen (15) days from the date of this published Notice, NIST receives written evidence and argument which establish that the grant of the license would not be consistent with the requirements of 35 U.S.C. 209 and 37 CFR 404.7. The Patent Application was filed on May 16, 2017 and describes systems and methods for determining a quantity of carbon-14 in a sample.

#### I. Abstract

This request is to seek generic clearance for the collection of routine information requested of individuals (including but not limited to visitors, contractors, associates) who utilize Department of Commerce health units as well as various other health and safety related records.

The information is collected for the following purposes:

1. For medical treatment, testing, or recording of medical or safety equipment or incidents.
2. For recording of potential radiation exposure to track and assure "As Low as Reasonably Achievable" minimization of risks associated with occupational exposure to radiation and to demonstrate regulatory compliance and reporting requirements to the Nuclear Regulatory Commission.
3. With individual's written permission, release of records for research purposes to medical personnel.
4. To refer information required by applicable law to be disclosed to a Federal, State, or local public health service agency, concerning individuals who have contracted certain communicable diseases or conditions. Such information is used to prevent further outbreak of the disease or condition.
5. To disclose information to the appropriate Federal, State, or local agencies responsible for investigation of an accident, disease, medical condition, or injury as required by pertinent legal authority.
6. To disclose information, when an individual to whom a record pertains is mentally incompetent or under other legal disability, to any person who is
