

strategic regional partner that has been, and continues to be, an important force for political stability and economic progress in the Middle East.

The proposed sale will enable Saudi Arabia and the Royal Saudi Naval Force (RSNF) to maintain military performance levels and provide an increased ability to meet current and future maritime threats. The training will support the RSNF in its role patrolling and providing protection for critical industrial infrastructure and for the sea lines of communications. The RSNF will also use the training to enhance interoperability with the United States and other coalition maritime forces. Saudi Arabia will have no difficulty absorbing these services.

The proposed sale of this training will not alter the basic military balance in the region.

The prime contractor will be Kratos Defense & Security Solutions of San Diego, CA. There are no known offset agreements in connection with this potential sale.

Implementation of this proposed sale will require the assignment of approximately 88 contractor representatives to Saudi Arabia for approximately three years to support personnel training. Implementation of this sale will not require the assignment of any additional U.S. Government representatives to Saudi Arabia.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

UOCAVA requires a statistical analysis report to the President and Congress on the effectiveness of assistance under the Act, a statistical analysis of voter participation, and a description of State/Federal cooperation. The data obtained through this study will allow FVAP to refine its methodology for estimating the number of overseas U.S. civilians who are eligible to vote and who have registered and participated in the past, and using these estimates to address the question of whether the registration and voting propensity of the overseas civilian population differs from that of a comparable domestic or military populations. Conducting this research will help FVAP meet its federal and congressional mandates in terms of reporting annually on its activities and on overall voter registration and participation rates after each Presidential election. The data obtained through this study is also intended to provide insights into existing barriers to UOCAVA voting and recommendations for addressing these challenges.
