

what regulations, guidance, and information collections, they believe may need to be repealed, replaced, or modified. On June 8, 2017, the U.S. Coast Guard issued a general notice in the **Federal Register** requesting comments from interested individuals regarding their recommendations, 82 FR 26632. In addition to this general solicitation, the U.S. Coast Guard also wants to leverage the expertise of its Federal Advisory Committees and is issuing similar tasks to each of its Committees. A detailed discussion of each of the Executive orders and information on where U.S. Coast Guard regulations, guidance, and information collections are found is in the June 8th notice.

The Task

GLPAC is tasked to:

Provide input to the U.S. Coast Guard on all existing regulations, guidance, and information collections that fall within the scope of the Committee's charter.

1. One or more subcommittees/working groups, as needed, will be established to work on this tasking in accordance with the Committee charter and bylaws. The subcommittee(s) shall terminate upon the approval and submission of a final recommendation to the U.S. Coast Guard from the parent Committee.

2. Review regulations, guidance, and information collections and provide recommendations whether an existing rule, guidance, or information collection should be repealed, replaced or modified. If the Committee recommends modification, please provide specific recommendations for how the regulation, guidance, or information collection should be modified. Recommendations should include an explanation on how and to what extent repeal, replacement or modification will reduce costs or burdens to industry and the extent to which risks to health or safety would likely increase.

a. Identify regulations, guidance, or information collections that potentially impose the following types of burden on the industry:

i. Regulations, guidance, or information collections imposing administrative burdens on the industry.

ii. Regulations, guidance, or information collections imposing burdens in the development or use of domestically produced energy resources. "Burden," for the purposes of compliance with Executive Order 13783, means "to unnecessarily obstruct, delay, curtail, or otherwise impose significant costs on the siting, permitting, production, utilization, transmission, or delivery of energy resources."

b. Identify regulations, guidance, or information collections that potentially impose the following types of costs on the industry:

i. Regulations, guidance, or information collections imposing costs that are outdated (such as due to technological advancement), or are no longer necessary.

ii. Regulations, guidance, or information collections imposing costs which are no longer enforced as written or which are ineffective.

iii. Regulations, guidance, or information collections imposing costs tied to reporting or recordkeeping requirements that impose burdens that exceed benefits. Explain why the reporting or recordkeeping requirement is overly burdensome, unnecessary, or how it could be modified.

c. Identify regulations, guidance, and information collections that the Committee believes have led to the elimination of jobs or inhibits job creation within a particular industry.

3. All regulations, guidance, and information collections, or parts thereof, recommended by the Committee should be described in sufficient detail (by section, paragraph, sentence, clause, etc.) so that it can readily be identified. Data (quantitative or qualitative) should be provided to support and illustrate the impact, cost, or burden, as applicable, for each recommendation. If the data is not readily available, the Committee should include information as to how such information can be obtained either by the Committee or directly by the Coast Guard.

Public Participation

All meetings associated with this tasking, both full Committee meetings and subcommittee/working groups, are open to the public. A public oral comment period will be held during the August 23, 2017, teleconference. Public comments or questions will be taken at the discretion of the Designated Federal Officer; commenters are requested to limit their comments to 3 minutes. Please contact the individual listed in the **FOR FURTHER INFORMATION CONTACT** section, to register as a commenter. Subcommittee meetings held in association with this tasking will be announced as they are scheduled through notices posted to <http://homeport.uscg.mil/glpac> and uploaded as supporting documents in the electronic docket for this action, [USCG-2017-0658], at *Regulations.gov*.

BILLING CODE 9110-04-P

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 63

[EPA-HQ-OAR-2010-1042; FRL-9964-88-OAR]

RIN 2060-AT58

National Emission Standards for Hazardous Air Pollutants for Wool Fiberglass Manufacturing; Flame Attenuation Lines

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: The Environmental Protection Agency (EPA) is proposing to amend the national emission standards for hazardous air pollutants for flame attenuation (FA) lines in the wool fiberglass manufacturing industry. In the "Rules and Regulations" section of this **Federal Register**, we are publishing a direct final rule, without a prior proposed rule, that revises the compliance dates for FA lines. This direct final rule provides an additional year for affected sources to comply with the emission limits for FA lines. The EPA can give sources up to 3 years to comply with emission limits in the Clean Air Act (CAA) standards. FA lines initially were given 2 years to comply with the emission limits, and we are extending that compliance date to the maximum of 3 years while we conduct our review. This compliance date extension will enable the EPA to conduct a review of the emission limits for FA lines in light of recently submitted corrected source emissions data. If we receive no adverse comment, we will not take further action on this proposed rule.

DATES: The EPA must receive written comments on or before August 28, 2017.

Public Hearing. If requested by August 3, 2017, the EPA will hold a public hearing to accept oral comments on this proposed action. To request a hearing, to register to speak at a hearing, or to inquire if a hearing will be held, please contact Aimee St. Clair at (919) 541-1063 or by email at stclair.aimee@epa.gov. EPA will publish a document in the **Federal Register** announcing the date and location if a public hearing is requested.

ADDRESSES: Submit your comments, identified by Docket ID No. EPA-HQ-OAR-2010-1042, at <http://www.regulations.gov>. Follow the online instructions for submitting comments. Once submitted, comments cannot be edited or withdrawn. The EPA may publish any comment received to its

public docket. Do not submit electronically any information you consider to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute. Multimedia submissions (audio, video, etc.) must be accompanied by a written comment. The written comment is considered the official comment and should include discussion of all points you wish to make. The EPA will generally not consider comments or comment contents located outside of the primary submission (*i.e.*, on the Web, cloud, or other file sharing system). For additional submission methods, the full EPA public comment policy, information about CBI or multimedia submissions, and general guidance on making effective comments, please visit <http://www2.epa.gov/dockets/commenting-epa-dockets>.

FOR FURTHER INFORMATION CONTACT: Mr. Brian Storey, Sector Policies and Programs Division (D243-04), Office of Air Quality Planning and Standards, U.S. Environmental Protection Agency, Research Triangle Park, North Carolina 27711; telephone number: (919) 541-1103; fax number: (919) 541-5450; and email address: storey.brian@epa.gov.

SUPPLEMENTARY INFORMATION:

I. Why is the EPA issuing this proposed rule?

This document proposes to take action on amendments to the National Emission Standards for Hazardous Pollutants for Wool Fiberglass Manufacturing. We have published a direct final rule to amend 40 CFR part 63, subpart NNN by revising the compliance dates for FA lines in the “Rules and Regulations” section of this **Federal Register** because we view this as a noncontroversial action and anticipate no adverse comment. We have explained our reasons for this action in the preamble to the direct final rule.

If we receive no adverse comment, we will not take further action on this proposed rule. If we receive adverse comment on a distinct portion of the direct final rule, we will withdraw that portion of the rule and it will not take effect. In this instance, we would address all public comments in any subsequent final rule based on this proposed rule. In any subsequent final rule, the EPA intends to examine whether there is “good cause,” under 5 U.S.C. 553(d)(3), to designate the publication date of the final rule (based on the parallel proposal) as the effective date for implementation of the final rule.

If we receive adverse comment on a distinct provision of the direct final rule, we will publish a timely withdrawal in the **Federal Register** indicating which provisions we are withdrawing. The provisions that are not withdrawn will become effective on the date set out in the direct final rule, notwithstanding adverse comment on any other provision. We do not intend to institute a second comment period on this action. Any parties interested in commenting must do so at this time.

The regulatory text for this proposal is identical to that for the direct final rule published in the “Rules and Regulations” section of this **Federal Register**. For further supplementary information, the detailed rationale for this proposal, and the regulatory revisions, see the direct final rule published in the “Rules and Regulations” section of this **Federal Register**.

II. Does this action apply to me?

Categories and entities potentially regulated by this proposed rule include:

Category	NAICS code ¹
Wool fiberglass manufacturing facilities	327993

¹ North American Industry Classification System.

This table is not intended to be exhaustive, but rather provides a guide for readers regarding entities likely to be regulated by this proposed rule. To determine whether your facility is affected, you should examine the applicability criteria in 40 CFR 63.1380. If you have any questions regarding the applicability of any aspect of this action to a particular entity, consult either the air permitting authority for the entity or your EPA Regional representative as listed in 40 CFR 63.13.

III. Statutory and Executive Orders

For a complete discussion of the administrative requirements applicable to this action, see the direct final rule in the “Rules and Regulations” section of this **Federal Register**.

Dated: July 6, 2017.

E. Scott Pruitt,
Administrator.

BILLING CODE 6560-50-P

FEDERAL COMMUNICATIONS COMMISSION

47 CFR Part 64

[WC Docket No. 13–39; FCC 17–92]

Rural Call Completion

AGENCY: Federal Communications Commission.

ACTION: Proposed rule.

SUMMARY: In this document, a Second Further Notice of Proposed Rulemaking (*Second FNPRM*) seeks comment on new proposed rural call completion requirements for covered providers and on proposals to either modify or eliminate the Commission’s existing data recording, retention, and reporting requirements. The *Second FNPRM* also seeks comment on any additional measures the Commission should take to address rural call completion problems.

DATES: Comments are due on or before August 28, 2017, and reply comments are due on or before September 25, 2017. Written comments on the Paperwork Reduction Act proposed information collection requirements must be submitted by the public, Office of Management and Budget (OMB), and other interested parties on or before September 25, 2017.

ADDRESSES: You may submit comments, identified by WC Docket No. 13–39, by any of the following methods:

- *Federal Communications Commission’s Web site:* <http://apps.fcc.gov/ecfs/>. Follow the instructions for submitting comments.
- *Mail:* Parties who choose to file by paper must file an original and one copy of each filing. If more than one docket or rulemaking number appears in the caption of this proceeding, filers must submit two additional copies for each additional docket or rulemaking number. Filings can be sent by hand or messenger delivery, by commercial overnight courier, or by first-class or overnight U.S. Postal Service mail. All filings must be addressed to the Commission’s Secretary, Office of the Secretary, Federal Communications Commission. All hand-delivered or messenger-delivered paper filings for the Commission’s Secretary must be delivered to FCC Headquarters at 445 12th St. SW., Room TW–A325, Washington, DC 20554. The filing hours are 8:00 a.m. to 7:00 p.m. All hand deliveries must be held together with rubber bands or fasteners. Any envelopes and boxes must be disposed of before entering the building. Commercial overnight mail (other than
