I. Abstract

This request is for extension of a current information collection.

The License Limitation Program (LLP) restricts access to the commercial groundfish fisheries, commercial crab fisheries, and commercial scallop fisheries in the Exclusive Economic Zone off Alaska except for certain areas where alternative programs exist. The intended effect of the LLP is to limit the number of participants and reduce fishing capacity in fisheries off Alaska.

For a vessel designated on an LLP license, the LLP license authorizes the type of fishing gear that may be used by the vessel, the maximum size of the vessel, an area endorsement, and whether the vessel may catch and process fish at sea or if it is limited to delivering catch without at-sea processing. LLP licenses that allow vessels to catch and process at-sea are assigned a catcher/processor endorsement. LLP licenses specify the maximum length overall (MLOA) of the vessel to which that LLP license may be assigned. The LLP may also include a species endorsement for Pacific cod in the Bering Sea and Aleutian Islands management area (BSAI) and Gulf of Alaska (GOA).

An LLP license is required for vessels participating in directed fishing for LLP groundfish species in the BSAI or GOA, or fishing in any BSAI LLP crab fisheries. An LLP license is also required for any vessel deployed in scallop fisheries in Federal waters off Alaska (except for some diving operations).
