General Description of Collection: This information collection implements section 742(c)(2) of the Dodd-Frank Act (7 U.S.C. 2(c)(2)(E) and FDIC regulations governing retail foreign exchange transactions as set forth at 12 CFR part 349, subpart B. The regulation allows banking organizations under FDIC supervision to engage in off-exchange transactions in foreign currency with retail customers provided they comply with various reporting, recordkeeping and third-party disclosure requirements specified in the rule. If an institution elects to conduct such transactions, compliance with the information collection is mandatory.

Reporting Requirements—Part 349, subpart B requires that, prior to initiating a retail foreign exchange business; a banking institution must provide the FDIC with a notice certifying that the institution has written policies and procedures, and risk measurement and management systems and controls in place to ensure that retail foreign exchange transactions are conducted in a safe and sound manner. The institution must also provide information about it intends to manage customer due diligence, new product approvals and haircuts applied to noncash margin.

Recordkeeping Requirements—Part 349 subpart B requires that institutions engaging in retail foreign exchange transactions keep full, complete and systematic records of account, financial ledger, transaction, memorandum orders and post execution allocations of bunched orders. In addition, institutions are required to maintain records regarding their ratio of profitable accounts, possible violations of law, records of noncash margin and monthly statements and confirmations issued.

Disclosure Requirements—The regulation requires that, before opening an account that will engage in retail foreign exchange transactions, a banking institution must obtain from each retail foreign exchange customer an acknowledgement of receipt and understanding of a written disclosure specified in the rule and of disclosures about the banking institution's fees and other charges and of its profitable accounts ratio. The institution must also

provide monthly statements to each retail foreign exchange customer and must send confirmation statements following every transaction. The customer dispute resolution provisions of the regulation require certain endorsements, acknowledgements and signature language as well as the timely provision of a list of persons qualified to handle a customer's request for arbitration.

There is no change in the method or substance of the collection. At present no FDIC-supervised institution is engaging in activities that would make them subject to the information collection requirements. FDIC originally estimated that 3 institutions would be impacted by the rule. The agency is reducing the estimated number of respondents to one (1) as a placeholder in case an institution elects to engage in covered activities in the future. There has been no change in the frequency of response or in the estimated number of hours required to respond. Because of the reduction in the estimated number of respondents from three (3) to one (1), the estimated annual burden has decreased.
