

Sensitive Security Information (SSI),² or Protected Critical Infrastructure Information (PCII)³ should not be submitted to the public regulatory docket. Please submit such comments separately from other comments in response to this notice. Comments containing trade secrets, confidential commercial or financial information, CVI, SSI, or PCII should be appropriately marked and packaged in accordance with applicable requirements and submitted by mail to the DHS/NPPD/IP/ISCD CFATS Program Manager at the Department of Homeland Security, 245 Murray Lane SW., Mail Stop 0610, Arlington, VA 20528-0610. Comments must be identified by OMB Control Number 2017-0014. The Department will forward all comments received by the submission deadline to the OMB Desk Officer.

FOR FURTHER INFORMATION CONTACT: CFATS Program Manager, 866-323-2957, cfats@dhs.gov.

SUPPLEMENTARY INFORMATION: DHS Proposed Revisions for this Collection are Summarized Below:

- This request contains a name change for two previously approved instruments to clarify the functional purpose of both instruments. Specifically, "Request for a Technical Consultation" has been changed to "Compliance Assistance" and "Notification of New Top-Screen" has been changed to "Top-Screen Update." No other revisions to the instrument names are proposed.
- The "Request for Redetermination" instrument provides a variety of possible reasons that facilities may select to support the justification for a redetermination request. The Department proposes to amend this instrument to allow facilities to select from a list of possible reasons to support a request for redetermination. No other revisions to this instrument or other instruments are proposed.

- This request proposes the addition of a new instrument titled "Declaration of Reporting Status" which allows a chemical facility to notify the Department that it is not required to register in CSAT or submit a Top-Screen (TS).

OMB is particularly interested in written comments from the public that:

1. Evaluate whether the proposed collection of information is necessary

for the proper performance of the functions of the agency, including whether the information will have practical utility;

2. Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

3. Enhance the quality, utility, and clarity of the information to be collected; and

4. Address how the agency might minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology (e.g., permitting electronic submissions of responses).
