The survey will obtain TRICARE network civilian provider opinions regarding claims processing, customer service, and administrative support by the TRICARE regional contractors. The reports of findings from these surveys, coupled with performance criteria from other sources, will be used by the TRICARE Regional Administrative Contracting Officers to determine incentive award fee determination.

Affected Public: Businesses or other for profit; not for-profit institutions.

Annual Burden Hours: 102.
Number of Respondents: 1,224.

Responses per Respondent: 1.

Annual Responses: 1,224.

Average Burden per Response: 5 minutes per respondent.

Frequency: Monthly.

Respondents are TRICARE network providers which are defined as a person, business, or institution that provides health care.

DHA has delegated oversight of the civilian provider network to the TRICARE Regional Offices. To improve DHA’s oversight of the civilian provider network, GAO has recommended OASD HA explore options for improving the civilian provider surveys so that the results of the surveys could be useful to the DHA and to the contractors in identifying civilian provider concerns and developing actions that might mitigate concerns and help ensure the adequacy of the civilian provider network.

The goal of this survey effort is to provide regional Administrative Contracting Officers with information on provider end-user satisfaction with the administrative processes/services of MCSC. Specifically, confidential telephone surveys of civilian network providers will be conducted that focus on three basic business functions provided of claims processing, customer service, and administrative services by the MCSC.

Dated: July 25, 2017.

Alternate OSD Federal Register Liaison Officer, Department of Defense.

[Docket Nos. CP15-554-000, CP15-554-001, CP15-555-000, CP15-556-000]

Atlantic Coast Pipeline, LLC, Dominion Energy Transmission, Inc., Piedmont Natural Gas Company, Inc.; Notice of Availability of the Final Environmental Impact Statement for the Proposed Atlantic Coast Pipeline and Supply Header Project

The staff of the Federal Energy Regulatory Commission (FERC or Commission) has prepared a final environmental impact statement (EIS) for the Atlantic Coast Pipeline (ACP) and Supply Header Project (SHP) as proposed by Atlantic Coast Pipeline, LLC (Atlantic) and Dominion Energy Transmission, Inc. (DETI), respectively, in the above-referenced dockets. Atlantic and DETI request authorization to construct and operate a total of 642.0 miles of natural gas transmission pipeline and associated facilities, and three new natural gas-fired compressor stations; and to modify four existing compressor stations. The projects would provide about 1.44 billion cubic feet per day of natural gas to electric generation, distribution, and end use markets in Virginia and North Carolina. In addition, Atlantic and Piedmont Natural Gas Co., Inc. (Piedmont) request authorization to allow Atlantic to lease capacity on Piedmont's existing pipeline distribution system in North Carolina for use by Atlantic (Capacity Lease Proposal). No construction or facility modifications are proposed with the Capacity Lease.

The final EIS assesses the potential environmental effects of the construction and operation of the projects in accordance with the requirements of the National Environmental Policy Act (NEPA). The FERC staff concludes that approval of the projects would have some adverse and significant environmental impacts; however, the majority of impacts would be reduced to less-than-significant levels with the implementation of the Atlantic's and DETI's proposed
