Agency for Healthcare Research and Quality

Agency Information Collection Activities: Proposed Collection; Comment Request

AGENCY: Agency for Healthcare Research and Quality, HHS. **ACTION:** Notice.

SUMMARY: This notice announces the intention of the Agency for Healthcare Research and Quality (AHRQ) to request that the Office of Management and Budget (OMB) approve the proposed information collection project: "Generic Clearance for Questionnaire and Data Collection Testing, Evaluation, and Research for the Agency for Healthcare Research and Quality."

This proposed information collection was previously published in the **Federal Register** on April 28, 2017, and allowed 60 days for public comment. No substantive comments were received. The purpose of this notice is to allow an additional 30 days for public comment. **DATES:** Comments on this notice must be received by August 28, 2017.

ADDRESSES: Written comments should be submitted to: AHRQ's OMB Desk Officer by fax at (202) 395–6974 (attention: AHRQ's desk officer) or by email at *OIRA_submission@ omb.eop.gov* (attention: AHRQ's desk officer).

FOR FURTHER INFORMATION CONTACT:

Doris Lefkowitz, AHRQ Reports Clearance Officer, (301) 427–1477, or by email at *doris.lefkowitz@AHRQ.hhs.gov.* SUPPLEMENTARY INFORMATION:

Proposed Project

Generic Clearance for Questionnaire and Data Collection Testing, Evaluation, and Research for the Agency for Healthcare Research and Quality

In accordance with the Paperwork Reduction Act, 44 U.S.C. 3501–3520, AHRQ invites the public to comment on this proposed information collection. The Agency for Healthcare Research and

Quality (AHRQ) requests that the Office of Management and Budget (OMB) reapprove generic pre-testing Clearance 0935-0124 for three years to facilitate AHRQ's efforts to (1) employ evaluation-type methods and techniques to improve AHRO's current data collection and estimation procedures, (2) develop new collections and procedures, including toolkits, and (3) revise existing collections and procedures. AHRQ believes that developing, testing, and evaluating data collection and estimation procedures using survey methods and other techniques in anticipation of Agencysponsored studies can improve its information collection efforts, and the products it develops and allow AHRQ to be more responsive to fast-changing developments in the health care research. AHRQ uses techniques to simplify data collection and estimation procedures, reduce respondent burden, and improve efficiencies to meet the needs of individuals and small business respondents who may have reduced budgets and staff.

This clearance request is limited to research on data collection, toolkit development, and estimation procedures and reports and does not extend to the collection of data for public release or policy formation. The current Clearance (0935–0124) was granted on November 12, 2014, and expires on November 30, 2017.

This generic clearance will allow AHRQ to draft and test toolkits, survey instruments and other data collection and estimation procedures more quickly and with greater lead time, thereby managing project time more efficiently and improving the quality of the data AHRQ collects. In some instances, the ability to test and evaluate toolkits, data collection and estimation procedures in anticipation of work or early in a project may result in the decision not to proceed with additional activities, which could save both public and private resources and eliminate respondent burden.

This generic clearance will facilitate AHRQ's response to a changing environment. Many of the tools AHRQ develops are made available to the private sector to assist in improving health care quality. The health and health care environment changes rapidly and requires a quick response from AHRQ to provide refined tools.

These preliminary research activities will not be used by AHRQ to regulate or sanction its customers. They will be entirely voluntary and the confidentiality of respondents and their responses will be preserved. Proposed information collections submitted under this generic clearance will be submitted for review by OMB with a response expected in 14 days.

Method of Collection

The information collected through preliminary research activities under this generic clearance will be used by AHRQ to employ techniques to (1) improve AHRQ's current data collection and estimation procedures, (2) develop new collections and procedures, including toolkits. and (3) revise existing collections and procedures in anticipation or in response to changes in the health or health care. The end result will be improvement in AHRQ's data collections and procedures and the quality of data collected, a reduction or minimization of respondent burden, increased agency efficiency, and improved responsiveness to the public.

Estimated Annual Respondent Burden

Exhibit 1 shows the estimated burden hours, over the full 3 years of this clearance, for the respondents' time to participate in the research activities that may be conducted under this generic clearance. Mail surveys will be conducted with about 6,000 persons (2,000 per year for 3 years) and are estimated to average 20 minutes. Mail surveys may also be sent to respondents via email, and may include a telephone non-response follow-up. Telephone non-response follow-up for mailed surveys is not counted as a telephone survey in Exhibit 1. Not more than 600 persons, over 3 years, will participate in telephone surveys that will take about 40 minutes. Web-based surveys will be conducted with no more than 3,000 persons and will require no more than 10 minutes to complete. About 1,500 persons will participate in focus groups which may last up to two hours, while in-person interviews will be conducted with 600 persons and will take about 50 minutes. Automated data collection will be conducted for about 1,500 persons and could take up to 1 hour. Cognitive testing will be conducted with about 600 persons and is estimated to take $1\frac{1}{2}$ hours to complete. The total burden over 3 years is estimated to be 8,900 hours (about 2,967 hours per year).

Exhibit 2 shows the estimated cost burden over 3 years, based on the respondent's time to participate in these research activities. The total cost burden is estimated to be \$338,734.

Number of Number of Hours per Total burden Type of information collection responses per respondents response hours respondent Mail/email * 6,000 20/60 2,000 1 Telephone 600 1 40/60 400 3,000 10/60 Web-based 500 1 Focus Groups 1,500 1 2.0 3,000 600 1 1.0 600 1,500 1 1.0 1,500 Cognitive Testing *** 600 1 1.5 900

EXHIBIT 1-ESTIMATED BURDEN HOURS OVER 3 YEARS

* May include telephone non-response follow-up in which case the burden will not change. ** May include testing of database software, CAPI software or other automated technologies.

Totals

*** May include cognitive interviews for questionnaire or toolkit development, or "think aloud" testing of prototype Web sites.

EXHIBIT 2—ESTIMATED COST BURDEN OVER 3 YEARS

13,800

Request for Comments

In accordance with the Paperwork Reduction Act. comments on AHRO's information collection are requested with regard to any of the following: (a) Whether the proposed collection of information is necessary for the proper performance of AHRQ health care research and health care information dissemination functions, including whether the information will have practical utility; (b) the accuracy of AHRQ's estimate of burden (including hours and costs) of the proposed collection(s) of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information upon the respondents, including the use of automated collection techniques or other forms of information technology.

Comments submitted in response to this notice will be summarized and included in the Agency's subsequent request for OMB approval of the proposed information collection. All

comments will become a matter of public record.

Sharon B. Arnold,

Deputy Director. [FR Doc. 2017-15883 Filed 7-27-17; 8:45 am]

Agency for Healthcare Research and Quality

Agency Information Collection Activities: Proposed Collection; **Comment Request**

AGENCY: Agency for Healthcare Research and Quality, HHS. **ACTION:** Notice.

SUMMARY: This notice announces the intention of the Agency for Healthcare Research and Quality (AHRQ) to request that the Office of Management and Budget (OMB) reapprove the proposed information collection project: "Medical Expenditure Panel Survey—Insurance Component."

This proposed information collection was previously published in the Federal Register on April 28, 2017, and allowed

60 days for public comment. No substantive comments were received; however changes have been made to the burden estimates in Exhibit 1, resulting in an increase of 1,316 burden hours. The purpose of this notice is to allow an additional 30 days for public comment.
