Animal and Plant Health Inspection Service

Title: Importation of Unshu Oranges from the Republic of Korea into the Continental United States.

OMB Control Number: 0579-0314.

Summary of Collection: Under the Plant Protection Act (7 U.S.C. 7701 *et seq.*), the Secretary of Agriculture is authorized to carry out operations or measures to detect, eradicate, suppress, control, prevent, or retard the spread of plant pests new to the United States or not known to be widely distributed throughout the United States. The Animal and Plant Health Inspection Service (APHIS) amended the regulations governing the importation of citrus fruit to allow fresh Unshu oranges from the Republic of Korea to be imported in the continental United States under certain conditions. As a condition of entry, the oranges have to be prepared for shipping using packinghouse procedures that include culling of damaged or diseased fruit and washing in a water bath and a surface sterilization treatment.

Need and Use of the Information: APHIS requires that some plants or plant products are accompanied by a phytosanitary inspection certificate that is completed by plant health officials in the originating or transiting country. APHIS uses the information on the certificate to determine the pest condition of the shipment at the time of inspection in the intensity of the inspection, APHIS conducts when the shipment arrives. Without this information, all shipments would need to be inspected very thoroughly, thereby requiring considerably more time. This would slow the clearance of international shipments.

Description of Respondents: Business or other for-profit; Federal Government.

Number of Respondents: 4.

Frequency of Responses: Reporting: On occasion.

Total Burden Hours: 36.

Departmental Information Collection Clearance Officer.
