If a schedule change becomes necessary, additional notice will be provided so that the relevant agencies are kept informed of the Project's progress.

Project Description

WBI Energy proposes to construct a new 2,600-horsepower electric-driven compressor station in Cass County, North Dakota; 38 miles of new 16-inch-diameter pipeline between Mapleton, North Dakota and Felton, Minnesota; and farm taps, valve settings, and ancillary facilities. Additionally, WBI Energy proposes to replace two existing town border station delivery points and construct one regulator station in Burleigh, Stutsman, and Barnes Counties, North Dakota, respectively, to increase the operating pressure of a portion of its Line Section 24.

Background

On November 23, 2016, the Commission issued a Notice of Intent to Prepare an Environmental Assessment for the Planned Valley Expansion Project and Request for Comments on Environmental Issues (NOI). The NOI was issued during the pre-filing review of the Project in Docket No. PF16–10 and was sent to affected landowners; federal, state, and local government agencies; elected officials; Native American tribes; other interested parties; and local libraries and newspapers. In response to the NOI, commenters raised concerns regarding: watershed and waterbody crossings; stormwater discharge; groundwater impacts; flood zone impacts; reseeding and species review requirements; Section 106 consultation; cultural resources and land valuation impacts; route variations; project impacts on the Fargo-Moorhead Area Diversion Project; and fugitive dust emissions and noise impacts.

Additional Information

In order to receive notification of the issuance of the EA and to keep track of all formal issuances and submittals in specific dockets, the Commission offers all formal issuances and submittals in issuance of the EA and to keep track of the texts of formal documents issued by the Commission, such as orders, notices, and rule makings.

[Project No. 3267–016]

Chasm Hydro, Inc.; ECOsponsible, LLC; Notice of Application for Transfer of License and Soliciting Comments, Motions To Intervene, and Protests

On July 10, 2017, Chasm Hydro, Inc. (transferor) and ECOsponsible, LLC (transferee) filed an application for the transfer of license for the Ballard Mill Project No. 3267, from the transferor to the transferee. The project is located on the Salmon River in Franklin County, New York. The project does not occupy Federal lands.

The applicants seek Commission approval to transfer the license for the Ballard Mills Project from the transferor to the transferee.

Applicant’s Contacts: For Transferor: Mr. John Dowd, President, Chasm Hydro, Inc., P.O. Box 265, Chateaugay, NY 12920.

For Transferee: Mr. Dennis Ryan, Manager, ECOsponsible, LLC, P.O. Box 114, West Falls, NY 14170.

FERC Contact: Patricia W. Gillis, (202) 502–8735, patricia.gillis@ferc.gov.

Deadline for filing comments, motions to intervene, and protests: 30 days from the date of the Commission issues this notice. The Commission strongly encourages electronic filing. Please file comments, motions to intervene, and protests using the Commission’s eFiling system at http://www.ferc.gov/docs-filing/efiling.asp. Commenters can submit brief comments up to 6,000 characters, without prior registration, using the eComment system at http://www.ferc.gov/docs-filing/ecomment.asp. You must include your name and contact information at the end of your comments. For assistance, please contact FERC Online Support at FERCOnlineSupport@ferc.gov, (866) 208–3676 (toll free), or (202) 502–8659 (TTY). In lieu of electronic filing, please send a paper copy to: Secretary, Federal Energy Regulatory Commission, 888 First Street NE., Washington, DC 20426. The first page of any filing should include docket number P–3267–016.

Kimberly D. Bose, Secretary.

BILLING CODE 6717–01–P

ENVIRONMENTAL PROTECTION AGENCY

Nominations to the Augmented Science Advisory Committee on Chemicals (SACC); Request for Comments

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: This document provides the names and affiliations of additional candidates currently under consideration for appointment to the Science Advisory Committee on Chemicals (SACC). The purpose of the SACC is to provide independent advice and expert consultation at the request of the EPA Administrator with respect to the scientific and technical aspects of risk assessments, methodologies, and pollution prevention measures or approaches. After further consideration of the objectives and scope of SACC activities, EPA is considering additional candidates for SACC membership from the August 26, 2016 Federal Register notice pool of requested nominees. These additional candidates are named in this notice. The Agency is also considering the 29 candidates for membership previously identified in the December 9, 2016 Federal Register notice. Comments that were previously received on the 29 candidates will also be considered. The Agency, at this time, anticipates selecting approximately six additional SACC members with specific expertise and perspectives representing industry, labor, animal protection, government, public health, and public interest groups. Public comments on the candidates are invited as they will be used to assist the Agency in selecting the additional chartered committee members.

DATES: Comments must be received on or before September 5, 2017.
II. Background

The SACC was established under FAC A, 5 U.S.C. Appendix 2, and pursuant to the Frank R. Launtemberg Chemical Safety for the 21st Century Act, 2016.

III. Qualifications of Members

Members are scientists who have sufficient professional qualifications, including training and experience, to provide expert comments on the scientific and technical aspects of risk assessments, methodologies, and pollution prevention measures or approaches. On January 17, 2017, the EPA Administrator appointed 18 expert members from diverse backgrounds, professional experiences, and perspectives that would contribute to the breadth and balance of scientific viewpoints on the committee. These members have expertise and perspectives representing government, labor, public health, public interest, animal protection, industry, and other groups.

EPA has decided to increase the membership of the SACC to approximately 24 members to better address the objectives and scope of activities for the committee. These members will serve as Special Government Employees (SGEs) or Regular Government Employees (RGEs).

The purpose of the SACC is to provide independent advice and expert consultation at the request of the EPA Administrator with respect to the scientific and technical aspects of risk assessments, methodologies, and pollution prevention measures or approaches. After further consideration of the objectives and scope of SACC activities, EPA is considering additional candidates for SACC membership from the August 26, 2016 Federal Register notice pool of requested nominees (81 FR 58925) (FRL–9950–66). These additional candidates are named in this notice. The Agency is also considering the 29 candidates for membership previously identified in the December 9, 2016 Federal Register notice (Docket ID: EPA–OPPT–2016–0713; (81 FR 58925) (FRL–9950–66). These additional candidates are posted on the EPA Web site.

V. Process of Obtaining Nominees

On August 26, 2016, EPA published a Federal Register notice (81 FR 58925) (FRL–9950–66) providing notice of intent to establish the SACC, describing its purpose, and announcing the opportunity for the public to provide nominations for the Agency’s consideration. The nomination period was open for 45 days and ended on October 11, 2016. In response, the Agency received approximately 100 nominees.

EPA considered the following criteria to select candidates from these nominations: Interest and availability to participate in committee meetings, absence of financial conflicts of interest, absence of the appearance of a loss of impartiality, scientific expertise, and backgrounds and experiences that would contribute to the diversity of scientific viewpoints on the committee, including professional experiences in government, labor, public health, public interest, animal protection, industry, or other groups.

Based on these criteria, EPA has identified 64 additional candidates for further consideration for membership on the SACC. EPA will also consider the 29 candidates identified in the December 9, 2016 Federal Register Notice, as well as the public comments that were previously received on the 29 candidates. The following are the names (listed alphabetically, last name first) and professional affiliations of the 64 additional candidates. Brief biographical sketches for these candidates are posted on the EPA Web site.
site at https://www.epa.gov/tscaregistry.

1. Allen, David, Ph.D., Vice President, Science and Strategy, Integrated Laboratory Systems, Inc., Raleigh, NC.
2. Barton, Charles, Ph.D., Manager, Toxicology and Risk Assessment, Valspar Corporation, Sesickley, PA.
3. Becker, Richard, Ph.D., Senior Toxicologist, American Chemical Council, Washington, DC.
4. Belcher, Scott, Ph.D., Research Professor, Department of Biological Sciences, North Carolina State University, Raleigh, NC.
5. Bennett, Steven, Ph.D., Senior Director, Scientific Affairs & Sustainability, Consumer Specialty Products Association, Washington, DC.
6. Benvenuto, Mark, Ph.D., Professor and Chair, Chemistry and Biochemistry, University of Detroit-Mercy, Detroit, MI.
8. Chui, Weihsueh, Ph.D., Professor, Department of Veterinary Integrative Biosciences, Texas A&M University, College Station, TX.
9. Congleton, Johanna, Ph.D., Senior Scientist/Toxicologist, Environmental Working Group, Washington, DC.
10. Costs, Robert, Ph.D., Manager, R&D, Colonial Chemical, Inc., New Hope, TN.
11. Dempsey, Susan, M.S., Human Health/Ecological Risk Assessor, Nebraska Department of Health and Human Services, Lincoln, NE.
12. Edstrom, Robert, Ph.D., Chief Toxicologist, Minnesota Department of Transportation, Office of Environmental Stewardship, St. Paul, MN.
13. Faustman, Elaine, Ph.D., Professor, Environmental and Occupational Health Sciences, University of Washington, Seattle, WA.
14. Foule III, John, Ph.D., Principal, Science To Inform, LLC, Pittsburg, NC.
15. Garcia, Kristina, P.G., Environmental Compliance Program Manager, Office of Watershed Protection, Atlanta Department of Watershed Management, Atlanta, GA.
16. Gordon, Terry, Ph.D., Professor, Department of Environmental Medicine, New York University School of Medicine, New York, NY.
17. Hartung, Thomas, Ph.D., Professor, Molecular Microbiology and Immunology, Department of Environmental Health Sciences, Johns Hopkins University, Baltimore, MD.
18. Heiger-Bernays, Wendy, Ph.D., Associate Professor, Department of Environmental Health, School of Public Health, Boston University, Boston, MA.
19. Henderson, Rogene, Ph.D., Senior Scientist (Emeritus), Lovelace Respiratory Research Institute, Albuquerque, NM.
20. Higgs, Megan, Ph.D., Statistician, Neptune and Company, Lakewood, CO.
21. Hollis, Adrienne, Ph.D., JD, Director, Federal Policy, WE ACT For Environmental Justice, Washington, DC.
22. Hollsapple, Michael, Ph.D., Director and Endowed Chair, Center for Research on Ingredient Safety, Michigan State University, East Lansing, MI.
23. Jaeger, Calvin, Ph.D., Senior Security Systems Risk Analyst, Sandia National Laboratories (retired), Albuquerque, NM.
24. Janssen, Sarah, MD, Ph.D., Assistant Clinical Professor, Division of Occupational Medicine, University of California-San Francisco, San Francisco, CA.
25. Janus, Erik, M.S., President, M+ Technical and Regulatory Services, LLC, Shepherdstown, WV.
26. Johnson, Mark, Ph.D., Director of Toxicology, United States Army Public Health Center, Aberdeen Proving Ground, MD.
27. Kester, Janet, Ph.D., Toxicologist, New Fields, Wentzville, MO.
28. Lohmann, Rainer, Ph.D., Professor, Oceanography, Graduate School of Oceanography, University of Rhode Island, Kingston, RI.
29. Luderer, Ulrike, M.D., Ph.D., Professor, Department of Medicine, Division of Occupational and Environmental Medicine, University of California-Irvine, Irvine, CA.
30. Maffini, Maricel, Ph.D., Private Contractor (former Senior Scientist, Health and Environment Program, Natural Resources Defense Council), Washington, DC.
31. Marlborough III, Sidney, Ph.D., Senior Environmental Toxicologist, Noble Energy, Houston, TX.
32. McFadden, Roger, Chief Science and Sustainability Officer, Replenish, LLC, Portland, OR.
33. McLeod, Brittany, Environmental Divisional Manager, Ormanite USA, Palm Bay, FL.
34. McPartland, Jennifer, Ph.D., Senior Scientist, Health Program, Environmental Defense Fund, Washington, DC.
35. Mitchell Mark, M.D., M.P.H., Principal, Mitchell Environmental Health Associates, Hartford, CT.
36. Michelmores, Carya, Ph.D., Associate Professor, University of Maryland Center for Environmental Science, College Park, MD.
37. Nelson, William, Ph.D., Branch Chief, Environmental Risk Assessment Branch, United States Army Corps of Engineers, Vicksburg, MS.
38. Nidel, Christopher, Esquire, President, Nidel & Nace, PLLC, Washington, DC.
40. Orlow, Alexander, Ph.D., Associate Professor, Materials Science and Chemical Engineering Department, Stony Brook University, Stony Brook, NY.
41. Pennell, Michael, Ph.D., Associate Professor, Division of Biostatistics, College of Public Health, The Ohio State University, Columbus, OH.
42. Plopper, Charles, Ph.D., Professor Emeritus, Department of Anatomy, Physiology and Cell Biology, University of California-Davis, Davis, CA.
43. Pope, Carey, Ph.D., Professor and Chair in Toxicology, Oklahoma State University, Stillwater, OK.
44. Portier, Christopher, Ph.D., M.S., Private Consultant, Thun, Switzerland.
45. Post, Gloria, Ph.D., Research Scientist, Division of Science, New Jersey Department of Environmental Protection, Trenton, NJ.
46. Rawlins, James, Ph.D., Associate Professor, Polymer Science and Engineering, University of Southern Mississippi, Hattiesburg, MS.
47. Rudel, Ruthann, M.S., Director of Research, Silent Spring Institute, Washington, DC.
49. Solomon, Gina, M.D., M.P.H., Deputy Secretary for Science and Health, California Environmental Protection Agency, Sacramento, CA.
52. Tickler, Joel, Ph.D., Associate Professor, Department of Community Health and Sustainability, University of Massachusetts-Lowell, Lowell, MA.
53. Trejo, Nidia, M.S., Research Intern, Ithaca Waste Water Treatment Facility, Ithaca, NY.
54. Weiss, Judith, Ph.D., Professor (Emerita), Department of Biological Sciences, Rutgers, New Brunswick, NJ.
55. Wilson, Michael, Ph.D., Director, Occupational and Environmental Health Program, Blue Green Alliance, San Francisco, CA.
56. Wise, John, Ph.D., Professor, Department of Entomology, Michigan State University, East Lansing, MI.
57. Wolf, Martin, M.A., Director, Sustainability and Authenticity, Seventh Generation, Inc., Burlington, VT.
58. Wood-Black, Frankie Kay, Ph.D., Principal, Sophic Pursuits, Inc., Ponca, OK.
59. Wright, Robert, M.D., M.P.H., Professor of Pediatrics and Preventive Medicine, Icahn School of Medicine-Mount Sinai, New York, NY.
60. Wylie, Ann, Ph.D., Professor of Geology (Emeritus), University of Maryland, College Park, MD.
61. Yoon, MiYoung, Ph.D., Senior Research Investigator, ScitoVation, Research Triangle Park, NC.
62. Zhu, Hao, Ph.D., Associate Professor, The Rutgers Center for Computational and Integrative Biology, Rutgers University, New Brunswick, NJ.
63. Zoeller, Robert Thomas, Ph.D., Professor of Biology, University of Massachusetts- Amherst, Amherst, MA.
64. Zota, Ami, Sc.D., M.S., Assistant Professor, Environmental and Occupational Health, George Washington University, Washington, DC.

Louise P. Wise,
Acting Assistant Administrator, Office of Chemical Safety and Pollution Prevention.
