**Information Collection Open for Comment**

*Title:* 46 CFR part 565—Controlled Carriers.

*OMB Approval Number:* 3072-0060 (Expires December 31, 2017).

*Abstract:* Section 9 of the Shipping Act of 1984, 46 U.S.C. 40701-40706, requires that the Commission monitor the practices of controlled carriers to ensure that they do not maintain rates or charges in their tariffs and service contracts that are below a level that is

just and reasonable; nor establish, maintain or enforce unjust or unreasonable classifications, rules or regulations in those tariffs or service contracts which result or are likely to result in the carriage or handling of cargo at rates or charges that are below a just and reasonable level. 46 CFR part 565 establishes the method by which the Commission determines whether a particular ocean common carrier is a controlled carrier subject to section 9 of the Shipping Act of 1984. When a government acquires a controlling interest in an ocean common carrier, or when a controlled carrier newly enters a United States trade, the Commission's rules require that such a carrier notify the Commission of these events.

*Current Actions:* There are no changes to this information collection, and it is being submitted for extension purposes only.

*Type of Review:* Extension.

*Needs and Uses:* The Commission uses these notifications in order to effectively discharge its statutory duty to determine whether a particular ocean common carrier is a controlled carrier and therefore subject to the requirements of section 9 of the Shipping Act of 1984.

*Frequency:* The submission of notifications from controlled carriers is not assigned to a specific time frame by the Commission; they are submitted as circumstances warrant. The Commission only requires notification when a majority portion of an ocean common carrier becomes owned or controlled by a government, or when a controlled carrier newly begins operation in any United States trade.

*Type of Respondents:* Controlled carriers are ocean common carriers which are owned or controlled by a government.

*Number of Annual Respondents:* The Commission cannot anticipate when a new controlled carrier may enter the United States trade or when ownership or control of a carrier will change so that notification is required. Over the past three years, the Commission has received, on average, one notification per year.

*Estimated Time per Response:* The estimated time for each notification is 2 hours, and multiple responses may be filed each year.

*Total Annual Burden:* For purposes of calculating total annual burden, the Commission assumes one response annually. The Commission thus estimates the total annual burden to be

2 hours (1 response × 2 hours per response).

*Assistant Secretary.*
