
Certification Requirements

Any party submitting factual information in an AD or CVD proceeding must certify to the accuracy and completeness of that information. Parties must use the certification formats provided in 19 CFR 351.303(g). The Department intends to reject factual submissions if the submitting party does not comply with the applicable revised certification requirements.

Notification to Interested Parties

Interested parties must submit applications for disclosure under Administrative Protective Order (APO) in accordance with 19 CFR 351.305. On January 22, 2008, the Department published Antidumping and Countervailing Duty Proceedings: Documents Submission Procedures; APO Procedures, 73 FR 3634 (January 22, 2008). Parties wishing to participate in this investigation should ensure that they meet the requirements of these procedures (e.g., the filing of letters of appearance as discussed at 19 CFR 351.103(d)).

This notice is issued and published pursuant to sections 702 and 777(i) of the Act.

Carole Showers,
Executive Director, Office of Policy performing the duties of the Deputy Assistant Secretary for Enforcement and Compliance.

Appendix

Scope of the Investigation

The merchandise covered by this investigation is cast iron soil pipe fittings, finished and unfinished, regardless of industry or proprietary specifications, and regardless of size. Cast iron soil pipe fittings are nonmalleable cast iron castings of various designs and sizes, including, but not limited to, bends, tees, wyes, traps, drains, and other common or special fittings, with or without side inlets.

Cast iron soil pipe fittings are classified into two major types—hubless and hub and spigot. Hubless cast iron soil pipe fittings are manufactured without a hub, generally in compliance with Cast Iron Soil Pipe Institute (CISPI) specification 301 and/or American Society for Testing and Materials (ASTM) specification A888. Hub and spigot pipe fittings have hubs into which the spigot (plain end) of the pipe or fitting is inserted. Cast iron soil pipe fittings are generally distinguished from other types of nonmalleable cast iron fittings by the manner in which they are connected to cast iron soil pipe and other fittings.

The subject imports are normally classified in subheading 7307.11.0045 of the Harmonized Tariff Schedule of the United States (HTSUS): Cast fittings of nonmalleable cast iron for cast iron soil pipe. The HTSUS subheading and specifications are provided for convenience and customs purposes only; the written description of the scope of this investigation is dispositive.

DEPARTMENT OF COMMERCE
International Trade Administration
[800-839]
Polyester Staple Fiber From the Republic of Korea: Rescission of Antidumping Duty Administrative Review; 2016–2017

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

SUMMARY: The Department of Commerce (the Department) is rescinding the administrative review of the antidumping duty order on polyester staple fiber (PSF) from the Republic of Korea (Korea), based on the timely withdrawal of requests for review. The period of review (POR) is May 1, 2016, through April 30, 2017.

DATES: Effective August 8, 2017.

SUPPLEMENTARY INFORMATION:

Background

On May 1, 2017, the Department published a notice of opportunity to request an administrative review of the antidumping duty order on PSF from Korea for the POR of May 1, 2016, through April 30, 2017. On May 30, 2017, Huvis Corporation (Huvis) submitted a timely-filed request for an administrative review of its POR sales. On May 31, 2017, pursuant to 19 CFR 351.213, the Department received a timely-filed request from DAK Americas LLC and Auriga Polymers, Inc. (collectively, the petitioners) for an administrative review of Toray Chemical Korea, Inc. (Toray) and Huvis. On July 6, 2017, pursuant to these requests and in accordance with 19 CFR 351.221(c)(1)(i), the Department published a notice of initiation of an administrative review of Toray and Huvis. On July 11, 2017, and July 12, 2017, pursuant to 19 CFR 351.213(d)(1), the petitioners and Huvis, respectively, timely withdrew their requests for an administrative review.

Recission of Review

Pursuant to 19 CFR 351.213(d)(1), the Department will rescind an administrative review, in whole or in part, if the party, or parties, that requested a review withdraw the request/s within 90 days of the publication date of the notice of initiation of the requested review. As noted above, the petitioners withdrew their request for review of Toray and Huvis within 90 days of the publication date of the notice of initiation. In addition, Huvis also timely withdrew its request for an administrative review. No other parties requested an administrative review of the antidumping duty order on PSF from Korea. Therefore, in response to the timely withdrawal of requests for review and, in accordance with 19 CFR 351.213(d)(1), the Department is rescinding this review.

Assessment

The Department will instruct U.S. Customs and Border Protection (CBP) to assess antidumping duties on all appropriate entries of PSF from Korea during the POR. Antidumping duties to Request Administrative Review, 82 FR 20315 (May 1, 2017).

shall be assessed at rates equal to the cash deposit of estimated antidumping duties required at the time of entry, or withdrawal from warehouse, for consumption in accordance with 19 CFR 351.221(c)(7)(i). The Department intends to issue appropriate assessment instructions to CBP 15 days after publication of this notice in the Federal Register.

Notification to Importers
This notice serves as a final reminder to importers of their responsibility under 19 CFR 351.402(f)(2) to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this review period. Failure to comply with this requirement could result in the presumption that reimbursement of antidumping duties occurred and the subsequent assessment of double antidumping duties.

Notification Regarding Administrative Protective Orders
This notice also serves as a final reminder to parties subject to administrative protective order (APO) of their responsibility concerning the return or destruction of proprietary information disclosed under an APO in accordance with 19 CFR 351.305(a)(3), which continues to govern the business proprietary information in this segment of the proceeding. Timely written notification of the return or destruction of APO materials or conversion to proprietary information in accordance with 19 CFR 351.305(a)(3), the period of

Supplementary Information:
The Petition
On July 13, 2017, the Department of Commerce (the Department) received an antidumping duty (AD) petition concerning imports of cast iron soil pipe fittings (soil pipe fittings) from the People’s Republic of China (the PRC), filed in proper form, on behalf of the Cast Iron Soil Pipe Institute (the petitioner). The petitioner is a trade association, whose members are all domestic producers of soil pipe fittings. The AD petition was accompanied by a countervailing duty (CVD) petition for soil pipe fittings from the PRC.

On July 17, 2017, the petitioner filed an amendment to Volume I of the Petition. On July 18, 2017, the Department requested additional information and clarification of certain areas of the Petition. The petitioner responded to these requests on July 20, 2017. In response to the Department’s further requests for information and clarification of Volume II of the Petition, the petitioner submitted additional amendments to the Petition on July 26, 2017, and July 28, 2017.

In accordance with section 732(b) of the Tariff Act of 1930, as amended (the Act), the petitioner alleges that imports of soil pipe fittings from the PRC are being, or are likely to be, sold in the United States at less than fair value within the meaning of section 731 of the Act, and that, such imports are materially injuring, or threatening material injury to, an industry in the United States. Also, consistent with section 732(b)(1) of the Act, the Petition is accompanied by information reasonably available to the petitioner supporting its allegations.

The Department finds that the petitioner filed the Petition on behalf of the domestic industry because the petitioner is an interested party as defined in section 771(9)(E) of the Act. The Department also finds that the petitioner demonstrated sufficient industry support with respect to the initiation of the AD investigation that the petitioner is requesting.

Period of Investigation
Because the Petition was filed on July 13, 2017, pursuant to 19 CFR 351.204(b)(1), the period of investigation (POI) is January 1, 2017, through June 30, 2017.

Scope of the Investigation
The product covered by this investigation is soil pipe fittings from the PRC. For a full description of the scope of this investigation, see the “Scope of the Investigation,” in the Appendix to this notice.

Comments on Scope of the Investigation
During our review of the Petition, the Department discussed with the petitioner the language pertaining to the proposed scope to ensure that the scope language in the Petition would be an accurate reflection of the products for which the domestic industry is seeking
