SUPPLEMENTARY INFORMATION: Notice is here given in accordance with the Native American Graves Protection and Repatriation Act (NAGPRA), 25 U.S.C. 3003, of the completion of an inventory of human remains and associated funerary objects under the control of the U.S. Department of the Interior, Bureau of Indian Affairs, Washington, DC, and in the physical custody of the University of Nevada, Reno, Anthropology Research Museum, Reno, NV. Consultation

A detailed assessment of the human remains was made by the U.S. Department of the Interior, Bureau of

Indian Affairs, professional staff in consultation with representatives of the Pyramid Lake Paiute Tribe of the Pyramid Lake Reservation, Nevada.

History and Description of the Remains

At an unknown date in 1968, human remains representing, at minimum, one individual were removed by an amateur archeologist from a site located one mile east of Needles, at Pyramid Lake in Washoe County, NV. The human remains were donated to the Nevada Archaeological Survey (NAS) in the same year. NAS later became part of the University of Nevada, Reno, Department of Anthropology, where the human remains have continued to be housed. The Anthropology Research Museum is part of the Department of Anthropology and provides curation. No known individual was identified. No associated funerary objects are present.

In April of 1968, human remains representing, at minimum, one individual were removed from site 26WA1616, located approximately 50 yards from the shoreline of Pyramid Lake in Washoe County, NV. The human remains were deposited at the University of Nevada, Reno, Department of Anthropology. The Anthropology Research Museum is part of the Department of Anthropology and provides curation. No known individual was identified. No associated funerary objects are present.

At an unknown date in 1972, human remains representing, at minimum, one individual were removed from site 26WA162, located in the northwest corner of Pyramid Lake in Washoe County, NV. The human remains were donated to NAS in the same year. NAS later became part of the University of Nevada, Reno, Department of Anthropology, where the human remains have continued to be housed. The Anthropology Research Museum is part of the Department of Anthropology and provides curation. No known individual was identified. The five associated funerary objects are two quartzite flakes and three animal bones.

Geographic, historic, and anthropological evidence indicates that the human remains from these sites are Native American. The location of the burial is within the boundaries of the Pyramid Lake Reservation. Historic documents and archeological and consultation evidence, including tribal oral history, indicate that this area has been occupied by the Pyramid Lake Paiute Tribe of the Pyramid Lake Reservation, Nevada, since pre-contact times. Based on this evidence, the human remains have been determined to be culturally affiliated with the

Pyramid Lake Paiute Tribe of the Pyramid Lake Reservation, Nevada.
