

received during the scoping process, we may also publish and distribute the EA to the public for an allotted comment period. We will consider all comments on the EA before making our recommendations to the Commission. To ensure we have the opportunity to consider and address your comments, please carefully follow the instructions in the Public Participation section, beginning on page 2.

With this notice, we are asking agencies with jurisdiction by law and/or special expertise with respect to the environmental issues of this project to formally cooperate with us in the preparation of the EA.⁴ Agencies that would like to request cooperating agency status should follow the instructions for filing comments provided under the Public Participation section of this notice.

Environmental Mailing List

The environmental mailing list includes federal, state, and local government representatives and agencies; environmental and public interest groups; and other interested parties. This list also includes all affected landowners (as defined in the Commission's regulations) who are within 0.5 mile of the Majorsville Compressor Station, and anyone who submits comments on the project. We will update the environmental mailing list as the analysis proceeds to ensure that we send the information related to this environmental review to all individuals, organizations, and government entities interested in and/or potentially affected by the proposed project.

If we publish and distribute the EA, copies will be sent to the environmental mailing list for public review and comment. If you would prefer to receive a paper copy of the document instead of the CD version or would like to remove your name from the mailing list, please return the attached Information Request (appendix 2).

Becoming an Intervenor

In addition to involvement in the EA scoping process, you may want to become an intervenor which is an official party to the Commission's proceeding. Intervenor's play a more formal role in the process and are able to file briefs, appear at hearings, and be heard by the courts if they choose to appeal the Commission's final ruling. An intervenor formally participates in the proceeding by filing a request to

intervene. Instructions for becoming an intervenor are in the Document-less Intervention Guide under the e-filing link on the Commission's Web site. Motions to intervene are more fully described at <http://www.ferc.gov/resources/guides/how-to/intervene.asp>.

Additional Information

Additional information about the project is available from the Commission's Office of External Affairs, at (866) 208-FERC, or on the FERC Web site at www.ferc.gov using the eLibrary link. Click on the eLibrary link, click on General Search and enter the docket number, excluding the last three digits in the Docket Number field (*i.e.*, CP17-464). Be sure you have selected an appropriate date range. DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket Nos. CP17-56-000; CP17-57-000]

Texas Eastern Transmission, L.P., Brazoria Interconnector Gas Pipeline, LLC; Notice of Schedule for Environmental Review of the Stratton Ridge Expansion Project

On February 3, 2017, Texas Eastern Transmission, LP (Texas Eastern) and Brazoria Interconnector Gas Pipeline, LLC (BIG Pipeline) filed jointly an

application in Docket Nos. CP17-56-000 and CP17-57-000 requesting a Certificate of Public Convenience and Necessity pursuant to Section 7(c) of the Natural Gas Act to construct and operate certain natural gas pipeline facilities. The proposed project is known as the Stratton Ridge Expansion Project (Project), and is designed to provide the capacity necessary for Texas Eastern to transport up to 322,000 dekatherms per day of natural gas on a firm basis from Texas Eastern's existing interconnections to a delivery point on the BIG Pipeline near Stratton Ridge, Texas.

On February 16, 2017, the Federal Energy Regulatory Commission (Commission or FERC) issued its Notice of Application for the Project. Among other things, that notice alerted agencies issuing federal authorizations of the requirement to complete all necessary reviews and to reach a final decision on a request for a federal authorization within 90 days of the date of issuance of the Commission staff's Environmental Assessment (EA) for the Project. This instant notice identifies the FERC staff's planned schedule for the completion of the EA for the Project.

Schedule for Environmental Review

Issuance of EA—October 5, 2017
90-day Federal Authorization Decision
Deadline—January 3, 2018

If a schedule change becomes necessary, additional notice will be provided so that the relevant agencies are kept informed of the Project's progress.

Project Description

The Stratton Ridge Project would consist of:

- A new Angleton Compressor Station, consisting of a 12,500 horsepower electric motor-driven compressor in Brazoria County, Texas;
- a new 0.5 mile, 30-inch-diameter pipeline lateral in Brazoria County, Texas to interconnect with the BIG intrastate pipeline system;
- installation of Clean Burn Equipment at the Mont Belvieu Compressor Station in Chambers County, Texas; and
- installation of minor auxiliary and support facilities (*e.g.* launcher and receiver modification, valves, piping modification) at existing Texas Eastern facilities in San Jacinto, Lavaca, Waller, and Shelby Counties, Texas.

Background

On March 24, 2017, the Commission issued a *Notice of Intent to Prepare an Environmental Assessment for the Proposed Stratton Ridge Project and*

⁴ The Council on Environmental Quality regulations addressing cooperating agency responsibilities are at Title 40, Code of Federal Regulations, Part 1501.6.

Request for Comments on Environmental Issues (NOI). The NOI was sent to affected landowners; federal, state, and local government agencies; elected officials; environmental and public interest groups; Native American tribes; other interested parties; and local libraries and newspapers. In response to the NOI, the Commission received comments from the Texas Parks and Wildlife Department, United States Environmental Protection Agency, and one local resident. The primary issues raised by the commenters are impacts on: land use; water supplies; migratory birds; threatened and endangered species; cultural resources; air quality; and environmental justice.

Additional Information

In order to receive notification of the issuance of the EA and to keep track of all formal issuances and submittals in specific dockets, the Commission offers a free service called eSubscription. This can reduce the amount of time you spend researching proceedings by automatically providing you with notification of these filings, document summaries, and direct links to the documents. Go to www.ferc.gov/docs-filing/esubscription.asp.

Additional information about the Project is available from the Commission's Office of External Affairs at (866) 208-FERC or on the FERC Web site (www.ferc.gov). Using the eLibrary link, select General Search from the eLibrary menu, enter the selected date range and Docket Number excluding the last three digits (*i.e.*, CP17-56 and CP17-57), and follow the instructions.
